MURDOCK DEPARTMENT.

PREPARED EXCLUSIVELY FOR THE JOURNAL.

Gambling or Investing?

- -When you buy stocks of the traveling stock salesman are you gambling or investing?
- -There is only one way to be sure which you are doing. If you do not investigate, you are gambling. If you do investigate and find that the stock is satisfactory, you are investing.
- Don't take the salesman's word, he is working for his commission, not your interest. It makes no difference to him if you loose.
- -Don't permit the promises of large returns to influence you to risk your capital. Where one man strikes it lucky, a hundred lose.

Are you willing to take a hundred-to-one shot?

Making the Farm Pay!

strength and fertility of the land. And especially is

this of prime importance now on account of the high

prices to which land has climbed. With land selling at

\$300.00 to \$400.00 an acre no one can afford, through

neglect, to lose from five to ten bushels of grain per

acre, when by protecting or renewing their land with a

covering of straw or manure they could avoid it. The

"One Man Straw and Manure Spreader" will solve the

problem. See the machine and get full information re-

garding its work and possibilities for renewing and

keeping up the fertility of the soil.
