FAIR AND WARMER HERE NEXT FRIDAY

This However Applies to One of Cleverest Shows on American Stage and Not the Weather.

On next Friday evening at the Parmelee theater will be presented one of the most successful comedies of the present generation. "Fair and Warmer," with the full metropolitan cast that for one year kept the New York public laughing and scored equally as a fun producer in Chicago where it enjoyed a run of six months. This show comes with a guarantee of it being all that is claimed for it and will be one of the season's successes in this city.

Messrs. Moore and Clويد, managers of the Parmelee are well pleased that they have been able to secure this attraction for their patrons and it will be the verdict after seeing the show that it is truly "some show." The play is for laughing purposes and there is not a dull moment in the flow of clever and sparkling comedy that is offered by the company of high class stage artists.

PREPARE FOR WITHDRAWAL OF AMERICANS FROM MEXICO

El Paso, Tex., Dec. 5.—Border representatives of American concerns in Mexico today were preparing to carry out instructions for withdrawal of American citizens employed below the border in Mexico. No immediate exodus of Americans, if expected, however. American business agents here are endeavoring to provide a quick movement from Mexico of all Americans, if such a movement becomes imperative. Instructions to prepare for immediate withdrawal from Mexico came yesterday on the heels of news from Washington concerning the Mexican situation as viewed in congress. In some cases the instructions were for immediate withdrawal, and in others the call was less urgent and apparently was designed as a precautionary measure so that Americans in isolated sections of Mexico can be notified to be ready for any eventualities.

If the United States senate should pass the resolution withdrawing recognition from the Carranza government, it was said there would be an immediate exodus from Mexico, leaving many mines and other properties idle and throwing thousands of Mexican laborers out of work. Feeling against Americans, regarded as none too friendly, might lead to serious consequences for Americans unable to leave at the first warning, it was said.

GOLDMAN AND BERKMAN FERRIED TO ISLAND

New York, Dec. 5.—Alexander Berkman and Emma Goldman, his companion in 30 years of anarchistic activities, were sent from the mainland of the United States today, probably never to return.

Ordered deported for urging overthrow of the government by violence, they were taken by ferry from the tip end of Manhattan to the immigration station at Ellis island, where they will be held until a ship is available to send them to Russia, whence they came. Their liberty on bail expired when they were surrendered by their counsel at the demand of the department of labor.

THAYER COUNTY MEN START CUTTING WOOD

Deshler, Nebr., Dec. 5.—A gang of men commenced cutting trees this week on the twenty-acre addition to the Deshler park and Thayer county fair ground, recently purchased by the town board and directors of the society. The trees will be cut into lengths small enough to be dragged to a central location where they will be cut into stove and furnace lengths by a power saw. The wood will be sold to those in need of fuel. There is no suffering for fuel in Thayer county but strict economy is being practiced. Arrangements are being made by the Commercial club to operate a gang of wood cutters on the Blue river and every effort will be made to rush the production of wood for fuel.

The Journal prints sale bills.

OVER THE COUNTY

ELMWOOD Leader-Echo

Harmand Beck of Nehawka was in town on Thursday for a short time. He and Wm. Deles Dernier motored on to Lincoln to attend to business matters.

The first of the month Lloyd Deles Dernier commenced carrying the mail from the train to the postoffice. Don Strahan had been carrying it up to this time.

A number have been chopping wood in the face of the scarcity of coal and Charles Peck has been cleaning up a bunch of wood on the Clapp land and C. M. Guernsey on the Caygill land.

Mr. and Mrs. W. H. Penterman and little daughter of Rockwell City, Iowa, visited several days here with the Penterman families and the William Deles Dernier family. Mr. Penterman is one of the owners of a large department store at Rockwell City and is doing a big business. His many friends here were glad to see him and to know that he is making good.

On Thursday morning we thought the world was coming to an end. The phone rang we lifted the receiver and such outbursts of laughter. It was Don Pentman and the cause for all this was that he was grandpa and the first intimation that we got of what was the matter was when he could say "It's a boy." A fine eight-pound boy was born to Mr. and Mrs. Clifford Pentman on Thursday morning, December 4, 1919. Congratulations are in order for both the happy parents and the proud grandparents. —Elmwood Leader-Echo.

LOUISVILLE Courier

Mr. and Mrs. Emil Dehning and Mr. and Mrs. Conrad Dehning drove to Schuyler on Wednesday of last week to spend Thanksgiving with a sister of the two ladies, Mrs. Ray Marlow.

Mr. and Mrs. James Dixon spent Thanksgiving with their daughter, Mrs. Philip Hinz and family, who live on a large farm near Plattsmouth, and where they enjoyed a family dinner.

Miss Edith Mayfield has accepted a position in the postoffice as assistant, the work being a little too heavy for Postmaster Ossenkop and his wife, who will now have a little time from their arduous duties which have kept them on the job too strenuously.

Mr. and Mrs. C. E. Wood and family and their guests, Mr. and Mrs. H. S. Barnhart, and Mrs. J. P. Wood went to Elmwood to spend Thanksgiving on the farm with the C. C. Jackman family. Mrs. J. P. Wood remained over for a few days' visit with her daughter, Mrs. Jackman and family.

While attempting to fill a lighted lantern at his home last Friday evening, William Schwalm, living out north of Manly, was badly burned about the hands as the can exploded with terrific force. Burning oil was thrown over his clothing but his rare presence of mind perhaps saved his life. He ran from the house and threw himself at length into a bank of snow thus extinguishing the flames. The oil scattered over the floor and over the kitchen furniture threatened the house with destruction and only by quick and hard work was it possible to save the building. In the excitement Mr. Schwalm did not realize how badly he had been burned until the flames had been extinguished in the house. The flesh from his left hand literally hung in shreds. His right hand was not so badly burned, however, and Dr. Worthman, who was called to dress the wounds, stated that he might be able to use the right hand within a week or ten days. His lips were also blistered by the flames. —Louisville Courier.

WEEPING WATER Republican

Claude Canaday who is attending the state farm school and his friend, Miss Stoll of University Place, came down Thursday night for the week end visit with his father, Henry Canaday and other relatives.

George Heneger sold his farm last week where E. L. Dowler lives, two miles southwest of town, to Albert Pool of Wabash, who is figuring on the school advantages in the future. Gordon Heneger is getting to be some real estate man, at least he is keeping up with some of the old

hands at the business as we understand he made about \$6,000 on this farm which he owned just a year.

The annual meeting of the Cass County Farm bureau board was held at Weeping Water December 2 and a very good crowd was present considering the weather. The following were elected as member of the farm bureau board. President, W. B. Banning, Union; vice president, Harry Bricker, Greenwood; secretary, George W. Towle, Weeping Water; directors, Charles Noyes, Louisville, Frank J. Davis, Weeping Water, George Foreman, Alvo and B. P. Wolph, Nehawka.

Mrs. Mable Wirth Wiles was born in Louisville, Nebraska, January 12, 1892, departed this life in the M. E. hospital Omaha, Nebraska, November 24, 1919, at the age of 27 years, 10 months and 12 days. She was united in marriage to Roy Wiles January 12, 1909. To this union were born two children, a son and a daughter. Claude the son preceded his mother while Muriel is left at a tender age to mourn the loss. Besides her husband, daughter, father and mother, there are three brothers, one sister and a host of other relatives and friends to mourn her departure.

Funeral services were conducted at the Congregational church by Rev. N. F. Horn, pastor of the Church of Christ. Interment was made in the Oakwood cemetery.

At the L. P. Wolcott home 33 relatives and close friends enjoyed getting together for the Thanksgiving feast. Turkey and good things to eat were only one feature of the enjoyment as it was a family reunion and brought with it the joys and thankfulness of all being together again. The ones from the furthest distance were Alex Hitchman and family. Among those present were Mr. and Mrs. R. W. Hitchman, Alex Hitchman and family of Tampico, Mexico; Mr. and Mrs. Ray Hitchman of Plattsmouth; Mr. and Mrs. Charles Hitchman and family of Omaha; Mr. and Mrs. Ray Clark of Lincoln; Mr. and Mrs. John R. Pilling and family of Omaha; Mrs. H. B. Wolcott and Mr. and Mrs. Carl Day and family. The L. P. Wolcott family of seven made a total of 33.

BOX SUPPER AT COTTONWOOD.

On next Thursday evening, December 11, there will be a box supper given at the Cottonwood school where Miss Elizabeth Beeson is teacher. In connection with this supper there will be given a complete amusement program, fortune-telling booths, an excellent oyster stew, and everything to complete an evening's enjoyment. There will be lots of pretty girls with well filled boxes of all the good things to eat. All the girls are requested to bring pretty boxes and the fellows plenty of money. The musical program will contain several numbers of imported talent. The entertainment will start at 8 o'clock. You are invited and requested to bring all your friends.

JUST GOT OVER A COLD?

Look out for kidney troubles and backache. Colds overtax the kidneys and often leave them weak. For weak kidneys—well, read what a Plattsmouth man says:

Ben Brooks, Main street, says: "A bad cold left me with a severe attack of kidney complaint. I had pain in my back and hips and at times it extended up into my shoulder blades. I was laid up for several weeks. My back ached for hours and I was subject to dizzy spells, during which my sight blurred. Half a box of Doan's Kidney Pills relieved these troubles and after using two boxes, I regained my health."

OVER THREE YEARS LATER. Mr. Brooks said: "I couldn't speak too highly of Doan's, for it was this old, reliable medicine that fixed me up in fine shape when I was down with lumbago. I haven't had an attack since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brooks had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

JACK FOR SALE.

Big young jack, a good foal getter, also one black mare, eight years old, weight 1,400 pounds. One set of heavy work harness in good shape. Also some White Plymouth Rock roosters.—Ira Bates, Cedar Creek, Nebraska. sw-d

FOR SALE.

Light Brahma roosters for sale at \$2.50 each while they last. Mrs. George Reynolds, Plattsmouth, Neb. 1w-d&w

MEXICO HAS RELEASED CONSULAR AGENT

W. O. JENKINS GIVEN FREEDOM AT HANDS OF CARRANZISTAS IT IS SAID.

MIGHT BE RANSOM WAS PAID

Although State Department Believes Its Note Has Proven Effective with the Mexicans.

Washington, Dec. 5.—William O. Jenkins, the American consular agent imprisoned at Puebla, Mexico, was released Thursday night.

The American embassy in Mexico City reported his release in a dispatch received by the state department this afternoon, and almost at the same time news dispatches were received from Mexico City which said a check for \$500 had been deposited with the civil authorities at Puebla.

The difference in the two reports seemed to raise some doubt whether Jenkins was released unconditionally on the diplomatic representation of the United States government or whether he had been released on bail, as the Mexican authorities contended he could.

The state department, however, took the view that Jenkins had been released on its diplomatic representations.

News of Jenkins' release was communicated to the White House by the state department while the president was conferring with Senators Hitchcock and Fall. Dr. Grayson took the message directly to the president and his visitors.

Wilson Reserves Judgment

President Wilson today reserved judgment on the Mexican situation until he could examine evidence submitted by Senator Fall of New Mexico on which the senator based his charges that the Mexican ambassador and consuls in the United States had distributed "Red" propaganda in the United States.

Senators Fall and Hitchcock conferred with the president for nearly an hour. They said they did not ask his judgment on the pending resolution requesting the president to sever diplomatic relations with Mexico, but he promised to indicate his views later after a study of Senator Fall's data.

Senator Fall said in reply to questions, that he was "entirely" satisfied with the president's condition and with his ability to handle the Mexican situation.

WILSON WILL LEAVE TREATY WHERE IT IS

Washington, Dec. 5.—President Wilson has no intention of withdrawing the peace treaty from the senate for the present. Senator Hitchcock of Nebraska announced today after his visit to the president. He discussed the treaty question with the president briefly after the conference on the Mexican situation.

The president thinks the failure of the senate to act on the treaty at the special session shifted the responsibility in the matter to "other shoulders," Senator Hitchcock said, adding: "He is just going to let it stay where it is at present."

NEW YORK ECONOMIZING.

New York, Dec. 5.—Electric heating of New York's subway and elevated trains was suspended during the rush periods.

Officials said it meant a saving of 1,000 tons of coal a day.

Beginning tonight the great white way in the theatrical district will go into partial eclipse. Big electric signs will be operated only between the hours of 7:30 and 8:30 p. m.

Bunkering of American cargo vessels bound for foreign countries will be regulated by the central coal committee in Washington, beginning today because of the coal shortage. The Tidewater Coal exchange today received the following message from the committee:

"Coal for bunkering of American flag vessels clearing for foreign countries, other than those regularly engaged in the passenger trade will not be furnished except on application to this committee."

The fuel administration's embargo on bunker coal for foreign vessels in American ports is causing concern in diplomatic circles at Washington. Although no official protest has been made, the situation was discussed by

subordinate attaches of embassies and officials of the shipping board. Only enough coal to take the foreign vessels back to home ports is asked, and it was pointed out that this would relieve present congestion in American ports.

Great Britain, more concerned than any other country by reason of its larger number of ships, can make no claim for treaty protection, it is said, because it has no commercial agreement with the United States. There was a suggestion that the British government might be forced to ship coal from Wales to New York as it did once during the war.

PLANES MANNED BY GERMANS. CITIZENS OF OTHER COUNTRIES KILLED IN MEXICO

Washington, Dec. 5.—Mexico has 24 war type airplanes mobilized at Chihuahua City alone and is obtaining additional planes from Germany according to war department information given to the house military committee today by Brigadier General Mitchell, chief of operation of the army air service. The department also has information, General Mitchell said, that former pilots in the German army

are arriving in Mexico for service in army air forces there. The United States, General Mitchell said, has produced practically no aerial war equipment since the armistice and consequently is not capable of meeting any first class power in the air today, as foreign countries have continued development of war-time air equipment. Although the army owns 1,000 foreign built pursuit planes, these could not be used for combat work, he said, adding that they would be of value only for training duty, as they were out of date.
