Insurance Companies suggest to their agents that all buildings should be insured at their PRESENT REPLACEMENT VALUES and not what they cost years ago. Building costs have greatly increased and many property owners are now carrying only 40 or 50 per cent of the insurable value on their home or business building. Let us write additional insurance for you now. Don't wait until a fire occurs and then regret that you had only half enough insurance to cover your loss. Call us and we will be glad to tell you how much insurance you should carry.

Will Build New Garage. The enterprising firm of St. John & Cunningham, will, with the opening of the spring construct for their business a new concrete block, 50x140 garage, for their automobile business. The site will be where the old hotel is now standing. This will be modern in all respects and will add greatly to their efficiency in handling the large business which they have and will be a great benefit to the business of the town, adding to the business importance of the city. This garage will be equipped in the most modern style with the latest machinery and labor saving devices, which will make the place one equal to any similar plant of the county.

NEHAWKA (Special Correspondence)

Will Build New Hotel. It is whispered that a large modern hotel will also be constructed in Nehawka during the present year as the facilities in that direction are at this time greatly taxed and with the large addition to the city's commercial life with the placing of the number of men necessary to do the work which will be required the coming season and the years to follow will require a hostelry on rather large proportions and up-to-date in every respect.

A Number of New Homes. With the purchasing of the home of Henry Greuber by J. G. Wunderlich who will soon occupy it as a residence, Mr. Greuber will be compelled to build for himself another residence, which he expects to do this summer. This will be a good home and modern in all respects, and which will greatly add to the number of beautiful homes in the city.

Delbert Switzer, it is reported, will also construct a new home during the year and will be a residence up-to-the-minute in every respect to its appointment and conveniences, and which will make one of the most convenient and comfortable homes in this part of the county. Frank A. Boedecker, who has recently disposed of his home, is thinking of constructing a new home in the city and while he will be away for a portion of the coming summer, may not begin the construction for some time, but will ere long expect to have made one in keeping with the progress of the forward movement of this progressive city.

O. Lundburg, the owner of Nehawka's second garage, and who is doing an excellent business, finds that he has not sufficient room for the trade which comes to his place and will make some needed additions which will greatly add to his facilities for caring for the growing custom of his place.

Nehawka Business Men's League. The citizens of Nehawka, alive to the growing needs of the community, have what is known as the Nehawka Business Men's League, which is looking after the welfare of the community in many ways. The good of the city commercially is one of the features of their endeavor, while the social side is not forgotten and their meeting place, which is over the business house of J. H. Steffins, makes an excellent place for both their business and social gatherings. There are now about 67 of the men of the community banded together for the purpose of fostering the interests of the community and with this set of loyal citizens banded together, their power to accomplish great things for this thriving city is enormous. The officers of the new league for the benefit of Nehawka are P. M. Becker, president; H. O. Rutledge, secretary, and J. M. Palmer, treasurer, and they with the board of directors which consist of J. J. Pollard, C. Switzer and J. H. Steffins, make a set of officers who are filled with pep and will make the remainder of the county sit up and take notice for the good things which they will secure for Nehawka.

Just a Straw!

—They say you can tell which way the wind blows by a straw. Here's a "straw" on the present merchandise situation. During the last few weeks we have been besieged by jobbers from eastern cities wanting to buy clothing or furnishing goods of any description, in any quantity, and for spot cash in hand. This means that the market is bare—no merchandise to be had. It's not a question of price—it's a question of getting the goods at any price. In face of these conditions we cannot encourage you to look for lower clothing prices for a year at least. We are selling clothing, shirts, underwear, sox and overalls at less than the wholesale price today.
