WANTS EVERYBODY TO KNOW ABOUT IT

Health Broke down and He Suffered Terribly—Tanlac Overcomes the Trouble.

"Ever since taking Tanlac I feel so fine that I want everybody to know what a wonderful medicine it is," said James R. Carson, of 2814 Izard street, Omaha, Neb.

"When my health broke down some time ago," he continued, "I lost my appetite and the little I did manage to force down seemed to do me no good. My food would sour on my stomach and cause me so much distress that I hardly ever saw a well day. I was badly constipated and also suffered agonies from neuralgia in my face and my shoulders ached so bad I felt like it would drive me distracted. I was so nervous and restless that I could hardly sleep and when I would get up in the mornings I felt as tired as when I went to bed and would be miserable all day long. I lost twenty pounds and though I was constantly taking some kind of medicine, I got worse instead of better."

"When I read so much about the good Tanlac was doing I decided to get a bottle. My appetite picked up right after the first few doses and it wasn't long before I could eat anything and as much as I wanted. Tanlac has toned up my whole system and I never have any trouble with indigestion and I am taking on weight every day. Those awful pains I had in my face and shoulders are all gone. I am relieved of constipation. I sleep like a baby all night and get up in the mornings ready for my work. Tanlac has fixed me up all right and I am glad to recommend it."

Tanlac is sold in Plattsmouth by F. G. Fricke and Company and the leading druggist in every town.

WILL REMOVE TO COLORADO

From Saturday's Daily.

W. R. Bryan has just closed the deal whereby he disposes of his residence property in this city to Luther L. Pickett and will at once prepare to remove to the west where he expects to locate at Fort Collins, Colo. It is a matter of regret to the many friends that Mr. and Mrs. Bryan are to leave this city where they have made their home for the past six years and where they have made a host of warm friends by their pleasant and Christian dealing with their fellow men. Mr. Bryan has extensive land interests in Colorado and a number of his children reside in and near Fort Collins and the family will once more be together. Mr. Bryan, who is an elder of the Christian church, will address the congregation of the church tomorrow morning and it is desired that as many of the old friends as possible be present to hear his farewell address.

Mrs. J. T. Gilmore and daughter, Mrs. Leech of Chadron, who were here to attend the funeral of the mother of Mrs. Gilmore, Mrs. M. H. Tulene, returned this morning to their home and were accompanied as far as Omaha by Mrs. A. C. Tulene and Mrs. W. A. Tulene.

LAST DAY OF GOV- ERNMENT CONTROL

Monday Marks the Date for Transfer of Railroads Back to Private Ownership.

From Saturday's Daily.

Today and Sunday are the last days of the government management of the railroads of the United States as the formal transfer back to the private owners will be made on Monday, March 1. The government has been in charge of the railroads since the late fall of 1917 when they were taken over as a measure of war preparedness and they have since been operated by the federal government. The control of the roads by the government has been very satisfactory to the employees of the lines and departments all over the country and the sentiment for the retention of the railroads under federal ownership has been practically unanimous among the railroad workers of the nation and it is now one of the chief aims of the labor organizations of the nation to secure the adoption of plans for the permanent control of the railroads of the country. The sentiment for the government control of public utilities is by no means confined to the labor organizations and there is a great deal of sentiment among the professional and unorganized laboring units of the country in favor of this proposition.

A great many have contended that the proposition of government ownership was not given a fair tryout under the control of the last two years as the measures adopted were largely of a temporary nature.

The experience of government control, however, has made it possible that if the roads are not as satisfactory under the old methods that the federal government may take them over with a view of keeping them permanently.

RECEIVES NEW GRADERS

From Thursday's Daily.

Yesterday County Highway Commissioner C. F. Vallery was busily engaged in unloading and setting up two of the large Austin graders which have been purchased by the county for use on the highways during the coming season. The graders are the largest that have heretofore been purchased by the county and each weighs 6,500 pounds and are the latest type of the road grader. They are equipped with 12-foot blades that will grade and round up the roads in fine shape and add materially to the efficiency of the road department of the county. It is expected that these graders will be able to do a great deal more work on the roads than has been possible with the smaller machines and at a greater saving to the county.

REGULAR MARCH WEATHER

The indication in the weather line have led the oldest inhabitants to freely predict that March is to make its entry in 1920 in the manner of the lion instead of the lamb and the condition of the weather today would lead to the belief that this is correct. A cold and biting wind with snow flurries have been the order of the day and indications point to a continuance of these same conditions for a few days.
