JURY COMPLETES LABORS QUICKLY

Settlement of Cases of C. L. Stull Against M. P. and C. B. & Q. R. Causes Jury to Be Dismissed

From Thursday's Daily.
The jury for the March term of the district court has completed its labors and was yesterday afternoon discharged and the members allowed to go to their homes. It had been expected that the case of C. Lawrence Stull against the Missouri Pacific Railway Company involved in the killing of several head of cattle as well as destruction of hay, would be tried before the jury, but when the case was called the attorney for the plaintiff moved the dismissal of the suit and the case was stricken from the docket at the costs of the plaintiff. The case of Mr. Stull against the Burlington was also settled by the parties interested and the case withdrawn at the expense of the plaintiff.

In the case of David Foltz vs. Patrick Kelly et al, the court found for the plaintiff in the case and title was quieted in Mr. Foltz. Attorney C. E. Tefft of Weeping Water, was appointed as guardian ad litem for the minor defendants in the cause of action.
The present jury term has been remarkably short one as the members of the panel were required to sit on only one case and the total time consumed by the jury was three days.

Col. W. R. Young, the auctioneer, returned home this morning from Brule, Nebraska, where he has been conducting a sale at one of the leading farms in that locality. One cow offered for sale brought the price of \$171, being the highest price paid for a cow at any sale held in Keith county this season. A large number

of horses were also disposed of at the sale which brought a good price and demonstrated the ability of Mr. Young as a salesman and his long experience in handling farm sales has given the greatest satisfaction to those who have secured his services.

HAS CAR DAMAGED

From Thursday's Daily.
Quite a serious automobile accident occurred last evening on the main road from this city south, when the new Maxwell touring car belonging to Cecil York, was badly damaged by running into a culvert near the "horn" road. Mr. York was driving back to this city and as he neared the junction of Chicago and Lincoln avenues another car suddenly appeared and to avoid a collision he turned his car to the side of the road with the result that it ran into the ditch and the front portion of the car crashed into the concrete culvert with the result that the shaft and right side of the car was badly damaged and will require considerable work to be placed back in proper shape. Eugene Lister, who was riding with Mr. York was thrown into the wind shield in the smash-up breaking the shield and badly bruising Mr. Lister.

Why Colds are Dangerous

You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract flu and the pneumonia first take cold. The longer a cold hangs on the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.
