## OVER THE COUNTY

### LOUISVILLE

Courier

William Schliefert drove in from his farm west of Manley last Saturday and left his car with his brother-in-law, August Pautsch, and took the Rock Island for Omaha, where he looked after business matters.

Mr. and Mrs. Fred Schliefert and family have been enjoying a visit from their relatives, Elmer and Chester Bauer, of Pipestone, Minnesota. From here the young men went to Alvo and Elmwood and returned to Louisville for a farewell visit before returning home. Their father, John Bauer, formerly lived in this vicinity.

The many friends of Mr. and Mrs. J. M. Jackman will be pleased to know that they have returned from Siloam Springs, Arkansas, where they spent the winter for the benefit of Mr. Jackman's health. He is feeling much better although the long trip tired him somewhat, but he feels that the change of scenery and climate did him a world of good.

Mrs. Edward Ingram, who has been staying in the country for several weeks assisting in the care of her mother, Mrs. E. Spence, who is gradually growing weaker, went to Lincoln last week to visit with her daughter, Mrs. Clara Weeth. Mrs. Charles Spence of Havelock, who had also been here helping to care for her husband's mother, went home last week for a few days, but returned to Louisville last Saturday.

Mr. and Mrs. Charles Fosberg, son Cecil and daughter Miss Inez, drove to South Bend Sunday to spend the day with their old friends, Mr. and Mrs. John Timm. They report that Mr. Timm's daughter, Mrs. Walter Towle, of Douglas, who recently underwent an operation in a Lincoln hospital, is now able to leave the hospital and is recuperating with relatives of her husband at Murdock. Her little son, Lloyd, is staying with his grandparents Timm in South Bend. John Timm, Jr., will farm the home place again this coming year and is getting ready for spring work.

### WEEPING WATER

Republican

Louis Shumaker was up from near Nehawka Wednesday with his son Ray, who came very near losing his eye sight while cutting the head off a nail with a cold chisel, the piece striking him in the eye.

W. L. Hobson drove to Lincoln Monday morning to conduct the funeral of a friend, W. P. Yoho. The burial was at Utica. The lateness of the train caused Mr. Hobson to drive. What would folks do now days without the Hiver?

Ben Gibson threshed 72 bushels of clover seed last week from twenty acres. At the present price of clover seed it makes a return of about \$90 per acre, besides the hay crop—it was two years crop though, but that isn't so bad either—a \$45 crop per acre.

Wednesday evening the Brotherhood of the Congregational church of which Mr. I. W. Teegarden has been an active member since its organization, gave a farewell reception in honor of himself and family. The parlors of the church were crowded with friends to enjoy this last visit before they took their departure for their new home in sunny California. A short program was given, consisting of music by a ladies' quartet composed of the Misses Argabright, Anne-Marie and Lenora Kruse and Lila Barber; solo by Mrs. Keithley; a delightful talk by the pastor, Rev. W. H. Riley, and a biographical sketch of the life of Mr. Teegarden by Mr. Geo. H. Olive. Both of these numbers were filled with wit and humor which all enjoyed. Miss Argabright gave a reading which was much enjoyed; Miss Contryman a talk upon the influence of lives upon a church and community which fittingly applied to this family who are going from us. Mr. Clarence Pool, the presiding officer announced at the close of the program that a treat was in waiting, consisting of ice cream, wafers and coffee, which was no small feature of the evening's program as so large a crowd is hard to handle, but the gentlemen, assisted by their daughters, did it gracefully and with dispatch. A social visit with the departing guests closed a very pleasant evening tinged with the thought that this probably closed the pleasant associations which have existed for years. The family leaves this Thursday night via Kansas City and the southern route. Their many friends wish for them health, happiness and prosperity in the land of sunshine.

### ELMWOOD

Leader-Echo

Mr. and Mrs. John Bornemeier are rejoicing because of the arrival of a bouncing baby boy born to them last Friday. They are receiving the congratulations of their friends.

The funeral services of little five-year-old Pauline, daughter of Mr. and Mrs. Frank Lee, were held at Alvo on Tuesday afternoon. The little girl had been very sick and was being taken to a hospital at Lincoln in an auto, but died while being taken there.

C. D. Quinton, our genial sheriff was in town on last Saturday shaking hands with his many friends and looking after some business in connection with his office. The sheriff is looking fine and from his smile is feeling tip-top. He made the flying trip back in his Studebaker that evening.

Mrs. Leonard Nash of Palmyra, visited several days last week at the homes of Mr. and Mrs. Ray Fentiman and Mr. and Mrs. Clifton Fentiman. They also visited with Mr. and Mrs. Dan Fentiman here in town. Mr. Nash autowed up Sunday to spend the day and all returned home that evening.

Last Friday Chris Backemeyer and family motored to Elmwood in their auto, but Chris says to qualify that word and say "jitney" for a few days visit with his parents. Chris came especially to see his mother who is improving nicely after her operation. While here he called on all of his friends and they were glad to see him for he is a "jolly good fellow".

The Earl Slothower family moved their household effects from Lincoln to this place the first of the week and to the farm of A. A. Wallinger which Earl will farm. Mr. and Mrs. Wallinger will move to the A. H. Weichel property and become residents of Elmwood for the present at least. We are glad to have the Slothower family numbered among the citizens of this community.

### EAGLE

Beacon

Will and Warren Trumble left Monday evening for Elsie, Neb., where they will help Charlie, Jr., move to Wild Horse, Colo., where they are at work in the fields.

Jonathan Adams accompanied Mrs. Mary Adams to Lincoln Monday evening to assist her in transferring her baggage on her trip to join her husband in Glendo, Wyoming.

Carl Price closed a deal last Saturday whereby he became the owner of the pool hall which has been operated by M. W. Spahnle for several years. We are unable to learn what Mr. Spahnle expects to do—in fact he informs us he has not decided himself.

Last Friday afternoon was a sort of holiday for the under grades of the Eagle school and they improved the opportunity to "put the fixin's" to the Alvo base ball fans. It was the 5th and 6th grades that were

## BARTLING'S TANKAGE!

Is a perfect balancer of hog rations; it supplies with grain all the elements required for healthy, solid, rapid growth. It develops strong, sound bone, hastens maturity, and imparts a sleek, attractive, fattened finish not produced by other feeds. When fed tankage, hogs will obtain greater benefit from the feed eaten and gain more rapidly than they will on a straight grain ration. They do not get "off feed" but grow and fatten steadily. By the use of tankage, pork ordinarily can be produced 25 to 50 per cent cheaper than on all grain ration.

### CAN FEED TANKAGE WITH PROFIT

Many inquiries are coming to the Nebraska Experimental Station as to whether one can afford to feed tankage with corn at the present prices. Especially where no other protein supplement, such as skim milk, buttermilk or shorts are available, tankage ought to be fed even at the present price. Tankage not only increases the rate of gain but likewise decreases the amount of corn necessary to produce a pound of gain, and decreases it enough to more than offset the additional cost of tankage. As a rule, a pound of tankage will save four pounds of corn.

Tankage should be fed in a self-feeder only if the corn is fed that way. If the corn is not fed in a self-feeder and the tankage is, the hogs will eat too much tankage. Where the hogs are hand fed pigs weighing 50 to 100 pounds, have approximately one part of tankage to nine parts of corn. Pigs weighing more than 100 pounds will do well on one part tankage to nineteen parts corn.

A test was conducted at the Experiment Station last year. A ration of tankage compared with one of corn only, returned a value of nearly \$200 a ton for tankage. Where a choice grade of alfalfa or clover is available this should be kept before the hogs at all times. Fattening hogs, however, will not eat sufficient of this to supply the necessary protein, and without doubt tankage added to the ration will more than return its present cost price.

### BARTLING'S TANKAGE

ANALYSIS

Crude Protein.....	55%
Crude Fat.....	8%
Crude Fiber.....	3%
Bone-forming Phosphates.....	18 to 20%

Bartling's Tankage, 100 lbs.....	\$ 5.50
Bartling's Tankage, 1,000 lbs.....	54.50
Bartling's Tankage, ton.....	108.00

### THE HOG

is naturally a meat-eating animal as shown by the formation of its teeth and by its general inclinations. It has a desire to obtain meat in some form, such as chickens, carcasses, bugs, worms, etc.

By supplying the principal element contained in lean meat—protein—in the form of HIGH PROTEIN TANKAGE, this natural desire is satisfied, and the balanced ration gives greater value from the same quantity of grain eaten, and much larger gains in weight are produced and at considerably less cost.

### PROFITABLE HOG FEEDING

Different feeds contain different proportions of the elements required for healthy, substantial growth and physical maintenance of animals.

**FORAGE** consists principally of crude or woody fibre, which is of value only as a filler or carrier of food elements. Forage contains small percentages of protein, fat and carbohydrates, or sugars and starches.

**GRAINS** are composed principally of carbohydrates (energy and fat forming substances), and are deficient in bone phosphates and protein, the great frame and muscle builders. Corn is especially deficient in protein, the analysis also showing a very low percentage of bone forming phosphates.

## EDWARD BARTLING SEED COMPANY, FEED DEPARTMENT

### FOUR SALE

Chevrolet, passenger touring car, good condition. Price \$400. T. H. POLLOCK GARAGE.

### FARM FOR SALE

My farm of 219 acres, six and one-half miles northwest of Plattsmouth. Good improvements. 70 acres farm land, balance in pasture and timber, with good spring water in pasture. Price \$130.00 per acre. Possession given April 1st, 1920.—John N. Beck, Route No. 2, Plattsmouth, Nebraska. 126-4w

playing, but the "rooters" came from the whole countryside. To say that they were tickled with their victory is to put it mildly.

Among those who attended the funeral of Wm. Yoho, former resident of Eagle, were: E. P. Betts, Arthur Adams, C. W. Crabtree, Geo. Trunkenholz, Ernest Trumble, Austin Trimble, H. K. Frantz, E. D. Snook, Emory Clemmons, P. W. Judkins and Emil Oberle. Short services were held at the home in Lincoln Monday forenoon and the remains were taken to Utica for burial.

W. H. Wiles and wife and mother, 119-2w; 2d)

Mrs. John Wiles, and Edna Rainey, came up from near Murray Saturday and visited for the day here with friends.

### CASS COUNTY FARM FOR SALE

For sale, a farm of 125 acres, well improved, hog tight, 11 acres prairie, good house, barn, hay shed, cement walks, garage, granary, corn crib, wash house, wood house, cob house, chicken house, shop, machine shed. Located 4 1/2 miles from Union on state road.

J. M. CHALPANT, Union, Neb.

## Don't miss this one!

—it will be a long time till the next one

**Men's Hats \$2.98**

This is a clean-up sale of every odd hat in our stock. We thought you would rather buy them now than at the end of the season, and besides we need the room for the new stock of hats now coming in.

We say earnestly, don't miss this chance, because it will be a long time before you'll have another chance to buy **any kind** of a hat for this price. LISTEN, the **cheapest** hat that **Stetson** show for Fall is \$84.00 per dozen **wholesale**, and the very cheapest fur hat we can buy from any manufacturer for the present season is \$48.00 per dozen **wholesale**. The hat you used to buy for \$3 in the "good old days" when labor was 15c an hour and eggs 10c a dozen, is now worth \$8. Don't talk about women's hats being high. They have nothing on the men's hats now, but if you want a bargain get in on this sale.

You'll find these hats in our east of entrance, corner and 5th street windows. They are all marked with the size on each hat. You can pick out your hat at your leisure. But don't let the other fellow beat you to it.
