EMPLOYEES' STORES SELL GOODS AT COST

Groceries, Meats, Medical Supplies, Work Clothes Sold by Ford Motor Company.

In order that the men and women working in its plants may be aided in reducing the present cost of living, the Ford Motor Company has established three stores from which groceries and other necessities are sold at cost. One store is located at the Ford Blast Furnace where 15,000 are employed, one at the Fordson Tractor where approximately 5,000 work and one at the parent plant in which 55,000 are now engaged.

In the main store in the Ford factory, the stock consists of a line of staple groceries, medical supplies, workmen's clothing and meats. The stores are organized along the cash-and-carry plan and the customers bring their baskets to save the expense of wrapping the articles. Expense is held to a minimum. Customers enter one door, pass along the counter, choose their articles, pay for them and leave through another door. While the saving varies it averages easily from eight to twenty per cent. The stores were created especially to reduce the present cost of necessities to Ford employees, but no customers who are not Ford workers have yet been turned away.

Carload quantities of foodstuff are often secured at great savings, and then special sales are held. The first big sale ever held in the Ford factory resulted in a sale of more than 35,000 pounds of pork in one day. Many workers bought halves and quite a few bought whole pigs at a saving of about fifteen per cent of the market price. Special sales of beef, chickens, bacon, ham, apples and other commodities are handled in like manner. Each Thursday during the past ten weeks, carloads of fresh ocean fish have been received from the Atlantic coast by express and sold at ten cents a pound. From forty to eighty thousand pounds are disposed of at each sale.

The Ford stores are yet in an experimental stage and to just what point they will progress is not known at this time. However, Ford officials say that they were established to reduce the cost of necessities to Ford workmen and that it is intended to do as much as possible to accomplish that purpose.
