Mrs. Baxter expects to make her home at Eugene, Oregon.

J. W. Amick who has been constructing a new barn on his place northwest of Murray, has the work now so far advanced that it was necessary to come to town for the shingles which is to cover the structure. Mr. Amick is making some very substantial improvements on his place, having built a new residence last year, which is just completed, and with the large and commodious new barn for his stock and a large granary which he is building will add materially to the value of the property, which is an ideal place for a farm home.

Will Hold Services Here  
Dr. J. A. Renwick of Topeka, will conduct services at the Presbyterian church in Murray the coming Sunday and an invitation is extended to all to come and enjoy the excellent discourse which he will deliver. Dr. Renwick is a man of more than ordinary ability and a very pleasing speaker, whom it is well worth while to hear.

Car Situation Very Acute  
The matter of securing cars for the shipment of grain from this, as well as other elevators, is very acute at this time. Trying as hard as they can, the elevator men have been unable to secure cars for shipment of corn which they have in their elevators, as well as that which they would like to receive from the farmers and which the farmers are very anxious to deliver. Some of the farmers have been hauling their crop to Plattsmouth where, on account of the repairing of the same, the cars can be obtained and the grain shoveled into them. The situation is losing money to the farmers, the shippers of Murray and making a very stringent money market for the community, as all of the proceeds of last year is tied up in the crops which it is wished to move.

Murray to the Front  
In the matter of the Inter-Church World Movement, which is sweeping the land and which is very important is of the utmost importance like in other things Murray is coming very pronouncedly to the front with what is expected of them. This little town never did take a back seat for anything when it comes to doing her part in any laudable enterprise. Rev. J. B. Jackson, former pastor of the Presbyterian church at this place, was in Murray last Sunday and Monday, preaching on Sunday and also explaining the necessity of rallying to the work which the allied churches have undertaken. He stated that the amount which the Presbyterian church of Murray was expected to furnish was in the neighborhood of \$5,000. The membership took hold of the matter in the right spirit and on the proposal of one of the members that he would be one of fifty to contribute \$50 each, the others were found and in this manner one half of the quota was immediately guaranteed, the remainder having been partly subscribed and will be raised in a short time.

Have Planted Two Trees  
There has been planted in the front yard of the telephone exchange two small evergreen trees. These, it is hoped will be given a chance to live and beautify the place. It will be remembered that some vandal destroyed one last winter, looking like pure cussedness. We are hoping this one may live.

FOR SALE

To Those Who Care  
We wish to call attention to the fact that:

Back of the Hudson Super-Six is the largest factory in the world devoted exclusively to the building of fine cars.

Starting eleven years ago in a little two-story brick building, the Hudson plant now covers nearly one hundred acres of ground and contains 1,750,000 square feet of manufacturing space.

More than 10,000 operations are carried on within its walls by over 7,500 skilled workers each one of whom is especially trained to do one thing only and that one thing as perfectly as it can be done.

The stock on hand today totals more than \$12,000,000 while the volume of output this year will reach \$120,000,000—a new world's record in the building of high grade automobiles.

The tremendous growth is one of the best proofs of the quality of Hudson cars and of the satisfaction they are giving to more than 90,000 owners.

For every year has seen an increase in the demand which is greater today than ever before.

So if you are not too early now to place your order for delivery this summer or fall.

Yours very truly,  
L. H. PULS,  
Murray, Nebraska.
