## TO SOUND OUT THE SCHOOL PROPOSIT'N

Whether or Not Night School Would Be a Profitable Move and What Courses Would Be Desired

From Saturday's Daily.

The board of education and the superintendent of the city school have at frequent intervals been approached on the matter of a night school to be held in this city during the summer months. Just to what extent this sentiment for a night school exists is a matter that is being taken up by the school authorities with a view of taking up the proposition. The question is one that requires a complete and full understanding by the superintendent as to what courses would be desired and how they could be handled. The most popular course for those who desire to take the extra school work is that of mathematics and English, but a class large enough to make it worth while must be organized before the night school can be successfully launched. Owing to the limited number of teachers it will be necessary to make the school work in one or two courses and which is the most desired, if any is the matter upon which Superintendent Pratt is anxious to meet those who desire to take up school work. Its benefit would be much for the people of the community if a sufficient number desire to take it up.

## A FREAK OF NATURE, COLT OF UNUSUAL DEVELOPMENT

From Saturday's Daily.

Yesterday Dr. O. Sandin, the veterinarian, was called out to the farm of Charles Manners, south of the city to look after the arrival of a colt and discovered on his arrival a most unusual and abnormal specimen of a new born colt that could be imagined. The colt had been born with only a partial development and had no upper jaw and the one eye was set in the center of the forehead. The lower jaw protruded several inches beyond the normal upper jaw and had a tuft of whiskers not unlike that of a goat. The legs of the animal were all deformed and twisted and the vital organs were all on the exterior of the body of the colt. The animal died shortly after birth as did the mare. Dr. Sandin brought the animal on into this city and will have it taken to Omaha to be mounted as a most unusual freak of nature.

## CARS BACK DOWN HILL TWO LITTLE GIRLS HURT

On Wednesday afternoon George Kunz left his car standing in front of the Bronn & Goodridge Hardware while he went in to do some trading. His little daughter, Goldie, and the two little Goodridge girls got into the car. In some way they released the brake and the car started to back down the hill. The little girls jumped out, one of the little Goodridge girls having her ankle run over and badly hurt and the other skinned her face. The Kunz girl escaped without injury. The car which backed down hill came up against the platform in front of the Coon Creamery and stopped. It was not damaged much.—Elmwood Leader-Echo.

## GREENWOOD MERCHANTS ARE HARD HIT

BURGLARS VISITED THAT CITY LAST NIGHT AND SECURE BOOTY TO AMOUNT OF \$700

## THOUGHT TO BE AUTO BANDITS

Hardware Store of E. G. Brown and Harness Shop and Notion Store of C. F. Calfee are Ones Hard Hit

From Saturday's Daily.

Greenwood, Neb., June 5—(Special to the Journal)—This city was visited last night by what seems to have been an organized gang of bandits, who made a visitation at two of the leading stores of the city and secured jewelry and merchandise estimated at \$700. The parties committing the burglaries left no clues but the work and the successful getaway points to a raid by auto bandits who have carried on similar raids in the eastern part of the state.

The burglars entered the hardware store of E. G. Brown, who was formerly the Plattsmouth manager of the Lincoln Telephone & Telegraph company, and secured watches, knives and other articles whose value is estimated by Mr. Brown will reach in the neighborhood of \$300. Entrance was gained by cutting the panel in the rear door of the store building and unlocking the door.

The store of C. F. Calfee consisting of a harness shop and a stock of gents furnishings and shoes was also visited by the night raiders and a large portion of the stock taken by the men. The largest portion of the goods taken from the Calfee store seems to have been shoes, but a number of other articles of mens furnishings was also found missing by the owner of the store on his opening up this morning. Here, as at the store of Mr. Brown, entrance was gained by breaking a panel in the rear door and thus securing free entrance to the building.

Just what time the robberies occurred is impossible to tell as neither burglary was discovered until 7 o'clock this morning when the stores were opened for business.

There were no clues found on the premises that might fix the identity of the parties but from the general aspects of the robbery it is thought probably the work of some one working out of Omaha or Lincoln. The authorities here were notified of the robbery but Sheriff C. D. Quinton was out of the city, being enroute to Lincoln and County Attorney Cole was out to the scene of the robbery this afternoon as well as officers from the state department at Lincoln.

## DOING FINE OUT IN PERKINS CO.

James Mrasek, Former Resident of Cass County, is Having Splendid Success in Farming Near Grant

From Saturday's Daily.

Frank Vallery has just returned home from Perkins county where he has been looking after his land interests and tells of the success that one of the former residents of Cass county, James Mrasek, is having on his farm near Grant.

Mr. Mrasek has just completed the shelling of 50,000 bushels of corn at his farm and which represents a part of the 1919 crop near Grant and is still busy shelling for the farmers. This is Jim's second year in Grant and he is doing fine, and is erecting a fine new modern bungalow in the town of Grant, where he will make his home. The residence is 36x48 and is thoroughly modern and up to date in every way.

Mr. Mrasek has sold a part of his farm land at a profit of over \$12,000 and still owns 320 acres of choice land in that locality and which is constantly mounting in value.

## COLORED MEN FOR WORK

From Friday's Daily.

The Burlington this morning received from Chicago a large delegation of colored men who will be employed on the repair work on the east side of the river. The men were unloaded here from No. 5 and will be taken on to Pacific Junction to start in on their work. These extra men are being used to relieve the regular road and section men who have been employed at that point.
