That "Saving" Habit

Saving is a matter of habit. And the habit grows, just like the savings.

To acquire the habit when young with small sums is to practice the habit when older with larger sums.

So encourage the little fellows to start a savings account with us at once, and watch the habit grow.

Peppered Our Windshield

While at Murray this week, we, like our custom, allowed our car "Elizabeth", to stand in the shade of a friendly tree and while we were after the elusive item and the dollar and sixteen and two-thirds cents, some boy with not as good an aim at the birds that he thought he had, peppered the windshield, breaking a hole therein and indenting the surface of the glass in the second place. Say boys, glass costs money and is an inconvenience to be replaced, so be a little more careful in the future, where you are shooting. Peoples windows are in danger as well as some ones eyes.

Community Meeting a Success

Last Saturday evening as has been the rule, the people met at the lawn of the Presbyterian church and enjoyed an excellent program and also a social time which was a very pleasant affair. Uncle Sam had not appeared before the public for some time, but his rendition was excellent and was well appreciated by all. Mr. Latta has a wonderful voice. Mr. Sorenson of Lincoln spoke on "The Women as Voters", urging them to know politics and also for the ticket of the party of which he is a member, the Independent Union of the election of that ticket and especially of the candidate for governor. He said study your ballot and especially the amendments.

THE VALUE OF EXPERIENCE

Napoleon once said: "It takes seven campaigns to make a soldier." There is great wisdom in these few words. To do anything well, we must have experience. Therefore, it takes years to prepare a perfect remedy. Triner's American Elixir of Bitter Wine, which today enjoys the renown of being the best remedy for constipation, poor appetite, headaches, flatulence and other stomach disorders, represents thirty years of experience. It has stood many tests, it proved faithful and helped millions of patients. All those who know it praise it. "Triner's American Elixir of Bitter Wine is an excellent remedy," Mr. Tony Prsic writes from Oak Grove, Ia., on June 29, 1920. After one trial you will agree to this statement. But don't accept any other "bitter wine" from your druggist or dealer in medicines, insist upon the genuine and always reliable remedy, "Triner's American Elixir of Bitter Wine."—Joseph Triner Company, 1333-45 S. Ashland Ave., Chicago, Ill.

CASS COUNTY FARM BUREAU NOTES

Dockage System Protects Farmer

By use of the dockage system in grading wheat, as advocated by the United States Department of Agriculture the farmer is protected from the possibility of low prices fixed by the local buyer in order to insure a safe purchase on a flat rate basis, says United States Department of Agriculture bulletin 1118, "Dockage under the Federal Wheat Grades." Under this system the wheat is graded dockage free or after such foreign matter as weed seed, other kinds of

grain, etc. have been screened out. The dockage is first removed from the sample and the grade determined. If one per cent of foreign matter is found in the wheat, dockage is assessed against it, but the dockage does not affect the grade.

ICE CREAM THERMOPACKS

Isn't It Provoking?

In these days of high prices, to pay out your good money for an article and then find it of inferior quality, when the price you paid should have bought the best?

In all lines the public is imposed upon by the unscrupulous and this is especially true in regard to drugs. Therefore, is it not better to deal with your home store, because you know if an article is unsatisfactory you can have it made right? That is our method of doing business.
