CHALLENGES RIGHT OF BOARD TO DENY

Would-Be Scottsbluff Bankers Allege Banking Board Wrong in Refusing Their Request.

From Thursday's Daily. The right of the state banking board to deny a charter to persons who comply with the law as it is, because they do not comply with the standards the board has set up is vigorously attacked in a voluminous brief filed Wednesday in supreme court in support of an appeal by the Commercial State bank of Scottsbluff.

Jens Nielson, a former member of the legislature, was engaged in bank promotion in 1915, and secured the organization of the Commercial State bank, with F. B. Morgan and Grant L. Shumway, the latter one time state land commissioner, as the principal stockholders. When the application came before the state banking board S. K. Warrick, another banker at Scottsbluff, entered a protest.

One reason he assigned why the bank should not get a charter is that the main stockholders in this bank had been subscribers to stock in another bank sought to be organized in the town in which there had been violation of the law relating to the percentage to be paid for promotion. Another was that one of the stockholders had at one time accused him of fraud. Another that the men behind the bank were not financially adequate and he also attacked the integrity of Shumway as a state officer in connection with the potash industry. For this Shumway filed suit against Warrick for \$100,000.

The complaint of the bank is that the state banking board when it upheld the protest of Warrick, exceeded its powers. It insists that the board being a creature of the statute, can only exercise such authority as the statutes specifically confer on it, together with such incidental authority as may be necessary to carry its expressed authority into effect.—State Journal.

OSTEOPATHIC CONVENTION.

From Thursday's Daily. Members of the Rocky Mountain Osteopathic Association met today in the opening session of the 4th annual convention at Denver.

Dr. H. C. Leopold of this city, in addressing the convention stated that "an examination of the body should be made as thorough as overhauling an automobile. Both should be done to note the exact structural and functional condition of every part. Unless this is done treatment of any kind is little more than gambling against time, besides receiving compensation under false pretenses."

SAYS LEAGUE OF NATIONS A DEAD ISSUE

Otherwise Third Party Candidate P. P. Christensen Would Attempt to Kill It, He Declares.

New York, July 30.—The league of nations is "nothing more than an attempt to establish an international bankers' soviet," declared Parley P. Christensen, presidential nominee of the farmer-labor party, here today.

"The league of nations is a dead issue," he said. "If it were not, I should want to kill it."

Endorsement of Irish freedom was another point on which he expressed himself. "I am one of those who is sufficiently in love with the principles of human freedom to come out squarely for recognition of the Irish republic," he said.

Referring to the attempts of Governor Cox and Senator Harding to persuade Tennessee to pass the equal suffrage law, he said: "If Cox and Harding can't get ratification, I will go down and try the rebels myself."

Mr. Christensen announced that the national campaign of the third party will be launched in New York city, where he said, "are enthroned the powers we are fighting." These powers he explained are collectively "Wall street," for it is Wall street, he added, "that wins, no matter which of the old party candidates is elected."

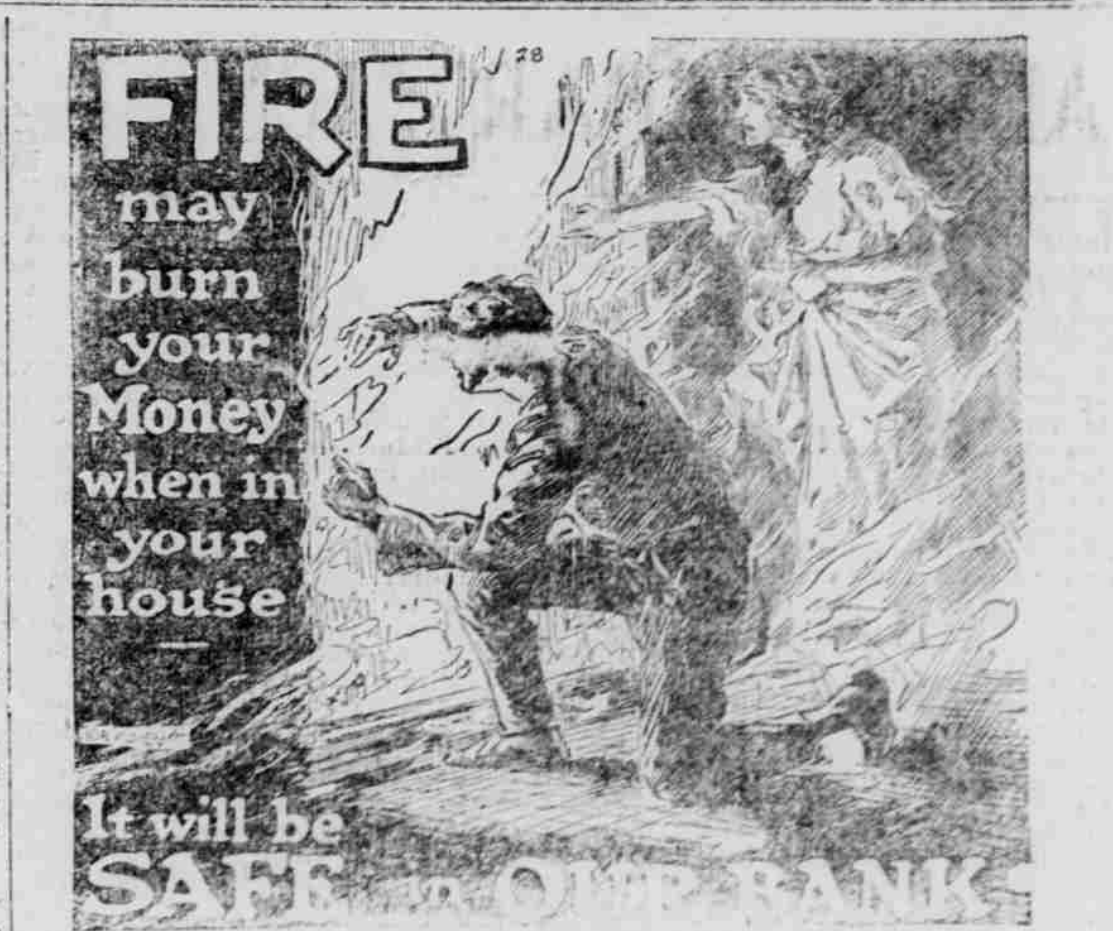

"We are out," he continued, "to restore the government to the people—to make it impossible for Woodrow Wilson to say in the future, as he has in the past, that the government of the United States is controlled by the combined corporations and financiers of the United States." It was true when he said it, and it is true today. We want to make it true no longer.

Both the democratic and republican parties, the candidate declared, "are engaged in a conspiracy to outface the league issue." Their purpose in perpetuating this discussion, he continued, is "to blind the people to the vital issues." The platform on which they stand are "disgracefully empty."

Mr. Christensen charged that "there is a plot on between the reactionaries of the republican and democratic parties to stifle ratification of the nineteenth amendment by the necessary thirty-sixth state."

Third party leaders, conferring here, announced today that they are making progress in whipping into shape plans for a national campaign. The conference will be in session several days.

Mrs. Arthur Moran and children departed this morning for Omaha, where they will visit over Sunday with relatives and friends. Mr. Moran will join his family for a short visit in the metropolis tomorrow.

STUHR TELLS HOW TO PURCHASE MEATS A SAFE TEST!

Lincoln, July 30.—Secretary Leo Stuhr of the state department of agriculture is of the opinion that people in purchasing meat make a great mistake in not first inquiring how much the meat they want is a pound, and then specifying how many pounds they want. "If people will say to the dealer, 'how much is your porterhouse a pound?' and then specify the number of pounds wanted, they will discover that they will get much better treatment in the way of satisfactory weight than if they call simply for a half dollar or seventy-five cents' worth of the kind they want."

For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Plattsmouth people. Ask your neighbor.

E. M. Buttery, 16th and Walnut streets, Plattsmouth, says: "I don't require very long use of Doan's Kidney Pills to prove to me that they are fine. A pain would catch me through my hips so I could hardly raise a shovel of coal. There was also at times, a lameness across my loins. I had reason to believe that these troubles were caused from a disordered condition of the kidneys and hearing Doan's Kidney Pills so highly spoken of, I got some. They gave me quick relief and the relief warrants me in speaking of the remedy in the most favorable terms."

Mr. Buttery gave the above statement June 21, 1907 and on May 12, 1920, he added: "It has been a good many years since I have had the kidney trouble which I told of in my former statement of 1907. My cure is a permanent one but I still think Doan's Kidney Pills are fine and I am glad to recommend them to others."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Buttery had. Foster-Milburn Co., Mrs. Buffalo, N. Y.
