There is every indication of a great shortage in desirable furnaces this fall. Materials are scarce and hard to obtain. Factories are sold to capacity.

We have just received a car-load of Ideal Wrot Iron Pipe and Pipeless Furnaces. The order for these was placed last January when furnaces were a great deal cheaper than they are now.

On account of buying these furnaces early and in carload lot we are able to give you a great deal better furnace for the price charged than you can obtain else-·where, but at the rate they are going we will not be able to supply the demand when the rush season comes.

See us now and place your order for installation at the time desired. This will protect your interests and insure a Happy, Healthy Heated Home next winter, with a saving of a third to half your fuel bill.

These furnaces are guaranteed to give absolute freedom from gas, soot or smoke. It adds moisture to the air and gives you Health Heat, protecting you against the pitfalls of antiquated furnace design that often lead to Pulmonary diseases.
