They know that systematic saving promotes prosperity. And they know that money deposited in this bank has sound protection.

If you haven't opened an account with us yet, do it now, before you forget.

Great Oaks from Little Acorns Grow

Four per cent interest on time deposits. Our deposits are protected by the State Guaranty Law.

MURRAY STATE BANK

All business transactions held in strict confidence
Your Personal Bank.

We are keeping in line with all decreases in the prices of lumber. See George Nickles at Murray, for figures and estimates of costs.

BANNING & NICKELS

Mr. Kelly Rhoden, who was kicked some time ago and from which he received some severe injuries, is making good progress and while somewhat sore yet, he is able to get around.

Frank Marasek went to Omaha last Monday evening to bring W. H. Homan home, where he had gone with his son, Sanford, who was injured by having fallen on a pitchfork that afternoon.

Charles C. Carroll and wife were the guests last Sunday at the home of his son Earl Carroll and family near Union, driving down and spending the day in an outing, returning home in the evening.

Albert Young completed his threshing last Tuesday morning and feels like he has a load off his shoulders. He had some forty five acres of oats and when the returns were in, found that they yielded just 2,243 bushels and 29 pounds, which is just two pounds less than fifty-five bushels to the acre.

Hiatt & Tutt,

MURRAY, : : : NEBRASKA

Ray McMaken was down from Plattsmouth assisting with his truck in hauling wheat to market from the threshing machine.

A. L. Baker, the salesman at the Gansemer General store, was a visitor at Lake Manawa last Sunday, where he spent the day with friends and seeing the sights.

Mrs. John Hendricks and son Verne, returned home Monday from Grand Island, where they have been visiting Mrs. Hendricks' brother, W. F. Chalfont and wife.

Mrs. T. S. Barrows was a passenger last Tuesday morning for Omaha, where she was visiting for the day with friends and looking after some business matters as well.

A card from Glen Boedaker who is in the west tells of the two hundred acres of wheat which he has in the average of thirty bushels to the acre. Mrs. J. H. Butser departed a few days ago for Hadar, which is in the northern part of Nebraska, where she is visiting at the home of her daughter, Mrs. John Cook, for some time.

Last Saturday W. A. Scott and J. W. Berger, were in Plattsmouth, where they secured a load of ice for the use of the two firms, the hotel and store which is conducted by Mr. Scott.

Ralph Kennedy and J. A. Scotten, the carpenters, have been kept pretty busy in the threshing season, the former as tender of the separator while the latter has been the engineer.

Mrs. J. W. Berger and daughter, Mrs. J. H. Brown, and her two daughters, were spending some time with friends in Omaha last Saturday where they also looked after some business matters as well. They returned home via Plattsmouth last Saturday evening.

Oliver Davis and family, who have been making their home in a business room on West Main street, have moved to the residence which was recently purchased by Mrs. J. W. Berger of Mr. J. Baxter, prior to her departure for the west. Mr. Davis who is employed with the Missouri Pacific railway, will, by this move, be much handier to his work.

Mr. and Mrs. Joe Woodard, Misses Mable and Dorothy Johnson, all of Omaha, and Glen Johnson of Prescott, Arizona, were visiting for the past few days at the home of their sister, Mrs. Phil Lambert, and her estimable husband. While here they all took their dinners and went to the woods where they enjoyed the day by having a picnic. They departed for their home in Omaha last Tuesday afternoon.

Touring the West.

W. G. Boedaker who has a large acreage of wheat in the western portion of the state, being located near Grant in Perkins county, departed with his family in their Hudson Speedster car for the west last week and after looking after some business matters regarding harvesting of the wheat, departed for the mountains where they will spend some time at the famous summer resorts of the west. They visited at Estes park, and from there will visit at Denver, and Colorado Springs and other points in the west and will enjoy an extended visit.

Visitors Return Home.

Miss Etta Nickels was a visitor in Plattsmouth and Omaha last Tuesday driving there in her car. At both places she was looking after some business matters and also accompanied her sister, Mrs. J. D. Worthman and husband and their son of Leigh, who have been spending some time in Murray and vicinity. They traveled in their car and have been in Murray for a week.

Entertained Friends Last Sunday

Last Sunday at the home of Mr. and Mrs. H. C. Long, they with Geo. Nickels and wife, entertained for the day and at dinner, a number of friends and relatives. Those present were Wm. Nickels, father of George Nickels, Lee and Etta Nickels, a brother and sister, all from east of Murray. Mr. and Mrs. J. D. Worthman and their son Trafford, of Leigh, the former being ETAMONHT Leigh, the latter being a sister of Mr. Nickels, are visiting for a short time in Murray.

Enjoyed Picnic Sunday.

A. Gansemer and family, W. H. Puls and family, Fred Lutz and family, Herman Gansemer and family, loaded with good things to eat, made a trip in their cars to the home of George Hanson, near Nehawka, where, in the shade of a friendly grove, they picnicked during the day, enjoying the occasion greatly and after the heated portion of the day had passed returned home in the cool of the evening.

Is Selling Many Cars

L. H. Puls and wife, W. H. Puls were visitors in Omaha last Tuesday going with a traveling man who passed through Murray and bring back with them a number of cars which L. H. Puls has for sale at his garage. Mr. Puls has just disposed of two excellent cars, one being a Veile, going to a party near Union, while the other was a Hudson Speedster, was sold to George Wiles of near Murray. They were both delivered last week. Mr. Puls is known far and wide for the excellent cars which he handles and for the fair and courteous treatment which he gives his customers.

Economy Threshing Machine Co.

The Economy Threshing company of near Murray, which has been doing a lot of threshing this season and

which is conducted by A. Gansemer and Will Seyboldt, has just about wound up their work for the season. They had all but one setting done when, for some unaccountable reason the engine gave out and had to be repaired. They were to have threshed at the home of Wm. Sporer last Tuesday, but on account of the accident the finishing of the campaign had to be postponed for a day.

Are Touring the West.

Dr. J. F. Brendel and wife with their son Richard, and T. J. Brendel and wife, departed last Saturday for the west and drove toward the setting sun the first day 225 miles, and the following days were approaching the limit of where the mountains could be seen. They arrived at Denver the first of the week and have been enjoying the cool breezes of Colorado during the heat-portion of the past week here. They will put in about two weeks in the west and enjoy what nature has in store in the west at this time of year.

Very Close to an Accident

A short time ago as the little daughter of Mr. and Mrs. Morton Bartlett, the barber of Murray, was playing along the walk and had stepped into the street, an automobile came along at such a rate of speed, that before the little one could get out of the way the car was almost on her and missed the little one less than a foot. At the rate of speed which it was reported the car was traveling, had it struck the child, the result would have been the loss of her young life. Many people think the streets and roads are only for the purpose of trying out the speed of their respective cars. But when they should have struck and killed some one they will look after the matter perhaps in a more careful light. Better be a little more careful now and save trouble in the future.

Business Coming His Way

At the garage of L. H. Puls we noticed a half dozen excellent machines busily engaged in doing the large amount of repair work which has come to the business place of Mr. Puls. Nothing short of the best service has been the plan of this firm and by always furnishing the best materials obtainable and requiring the best work to be done Mr. Puls has enjoyed an excellent quality and quantity of auto repair work. Being a capable mechanic himself, places Mr. Puls in a position to know what should be done, how to do it and how much a man should reasonably do. There are no hidden charges, the following mechanics: Amos Wright and brother, Harry Wright, both good workmen, K. L. Kniss, George Brinklow and Frank Marasek, all capable workmen, while W. Marsh is the man of all work and has been a faithful worker while employed here.

Will Hold Picnic Saturday.

The two Sunday schools of Murray, the Ladies Aid society of the Christian church and the Ladies Missionary society of the Presbyterian church have perfected arrangements for the holding of the picnic at the home of D. A. Young and wife northeast of Murray. They will meet at the Presbyterian and Christian church at 11 o'clock in the morning and will then be conveyed to the grove at the farm of Mr. Young where they will have a solid day of enjoyment. Let every one come prepared to enjoy the day to the limit.

Community Meetings Popular

The community meetings which have been held at the lawn of the Presbyterian church for several weeks past, have grown in popularity very rapidly. At the last meeting which was held last Saturday at Murray, there were some eight hundred in attendance in attendance. A portion of those on the program

did not come and the program was shortened to that extent. The Rev. E. H. Pontius of the United Brethren church of Mynard was present. The meeting which has been arranged for the coming Saturday is replete in good numbers, there being plenty of music and songs. Come and listen to the numbers of good musical songs and also to the discussion of the question of the consolidated school, as it will be spoken to from all angles and is a very live subject. The county superintendent will be present and explain the workings of the plan to all who would like to know more about the matter. Professor Clark of Lincoln, will also be present and make the principal addresses.

The program for Saturday is as follows:

Address by Professor Clark.
Flute solo by Miss Olga Minford.
Vocal duet by Misses Neva Latta and Helen Todd.
Whistling solo by Miss Elizabeth McCracken.
Vocal solo by Miss Helen Todd, which will be accompanied by a flute obligato.
Piano solo by Mrs. Roy Cole.
Trio by Mrs. Pitman, Misses Latta and Todd.
Vocal solo by Miss Neva Latta.

Good Truck Record.

Earl Lancaster has been making an extra good record with his big Reo truck for the past few days in delivering wheat to the Plattsmouth market from near Murray. One day last week he hauled seven loads in one day averaging 63 bushels to each load, and on each round trip covering a distance of twenty-eight miles which would consider a pretty good days work. Earl is well pleased with the Reo in the handling of his farm work and heavy hauling.

Goes West for Horses.

S. L. Wimmer, who came here from his home in Virginia to attend the 84th birth anniversary of Uncle Geo. Shradler last Sunday, departed Monday in company with Homer Shradler, for Riverside, Oregon, where they will load a couple of cars of horses, that will be shipped to this county some time about the first of August. The horses will be sold here at a sale, the date of which will be announced within a couple of weeks. Mr. Wimmer is a nephew of Uncle George Shradler, and has attended several of the birthday celebrations of this excellent old gentleman.

Death of Mrs. Jane Lloyd Totten

Tuesday evening at the home of her brother, George Lloyd, southwest of Murray, occurred the death of Mrs. Jane Lloyd Totten, one of the old and highly respected residents of the county. Mrs. Totten was seventy years of age and has been in very poor health for some time suffering from a complication of diseases that has made her recovery a matter of grave doubt. The deceased lady leaves three brothers, Joe Lloyd of Plattsmouth, George of near Nehawka and John who resides in Nehawka. Two brothers, Stephen and David, have preceded the sister in death. Mrs. Totten was the widow of Chilton Totten, a former well known farmer of near Murray, and since the death of the husband thirteen years ago, she has been making her home with the brothers.

The funeral of Mrs. Totten was held this morning at the Presbyterian church, Rev. Buchanan in charge and the interment made in the Murray cemetery. Owing to poor health Joseph Lloyd of Plattsmouth, was unable to be present at the funeral as he is not in the best of health at the Masonic home.

To Clean Up Cemetery

Wanted: A man to clean up the cemetery at the Lewiston church, southeast of Murray. Will pay good wages. Call phone No. 1811, Murray, Nebr.—Miss Etta Nickels.

Road District Number Ten

All who reside in road district number ten, will take notice to cut the weeds and grasses growing along your lands before August 15th. Anyone who fails to do so, the weeds will be cut and the expense thereof assessed against the property abutting.

HENRY CREAMER,
Road Overseer.

Free Specials This Week!

The only way we can get you to realize what a wonderful difference there is between the "GOLDEN THROATED" Claxtonola and other makes of "talking" machines, is for you to come in and hear it play. It is in a class by itself, but you will never know its real excellence until you hear it with your own ears.

Electricity on the Farm!

The United States government is advocating the use of electricity more extensively on the farms. It is pointed out that where electricity is used laborious farm work is reduced and better results are obtained. Many things can be done on a farm with electricity, such as churning, grinding grain for live stock, food for poultry, washing dishes, lighting the buildings and other necessary tasks that now require brawn and sap vitality.

Farm life should be made as pleasant and easy as possible, to increase its popularity. The work of the women folk on the farm would be much less arduous with the installation of electrical appliances, say the government investigators, for on their shoulders falls much of the most trying work on the farm. The average farm woman works a few minutes more than thirteen out of twenty-four hours during summer, and her daily average for the year is eleven hours and eighteen minutes. Half of the women on farms, say the government reports, are at work at 5 a. m. and get practically no rest until they retire at night. Of every 100 women on farms thirty-six of them help with the milking, while seventy-nine of them trim and fill lamps, and all but four do the family washing.

As a labor-saver electricity, says the government, has no equal, while the saving of vitality to both man and woman is astonishing where it has been tried out.

Many farmers of Nebraska and Iowa have installed electricity and few of them would do without it now.

Silent ALAMO

FARM ELECTRIC POWER AND LIGHT PLANT

There are many good makes of farm light plants on the market now that will speed up machinery, and illuminate the buildings by the simple touch of a button.
