FREIGHT CAR SHOP WINS A CLOSE GAME

DARKNESS BRINGS CONTEST TO A CLOSE IN THE SIXTH INNING OF PLAY.

SCORE RESULTS 1 TO 0

Very Little Hitting by Either Team and Numerous Gifts of Bases by Slabmen of Both.

From Thursday's Daily. By the narrow margin of 1 to 0 the Freight Car shop team of the Burlington league last evening escaped another tie with the Locomotives and the long drawn out struggle was called in the sixth inning by umpire Ed Long as it was so dark as to make it dangerous for the players to continue the game.

It had been hoped to have the game going by 6 o'clock but while all the members of the teams were on hand there was a long delay in hunting up equipment and by the time the tools for the ball players had been secured it was 6:30 and the twilight caught the players in the fourth inning, although they continued for two stanzas in the fast deepening shades of night.

The score was close and the game throughout was an even break as neither team was developing any hitting speed. Fenwick did the slab work for the Freight Car shop and struck out seven, walked four and hit one, while Herold struck out eight, hit one and walked five of the freighters.

For the Locomotives Herold played a great fielding game and many of the outs secured for his team aside from strikeouts were on his excellent handling of grounders from the pitcher's position. Burbridge was in his usual excellent form and assisted materially in holding down his opponents.

Ault of the Freight car shop was the leader in the batting department and his long drive in the game drove in the necessary run that brought victory. Winscott at short did some very effective fielding although getting one error on a bad bounce in his territory and he also secured the only clean hit registered off of Herold's delivery.

In the opening inning Winscott, the first man up for the Freight car shop, hit to the right garden and when Maurer hit to the infield Harry was caught at second on the throw from Herold. Connors was walked by Herold and followed by Newman who struck out and then Ault proceeded to break up the game by a long drive to center that Niel could not hold and on this Maurer scored and Connors made the attempt but was nabbed at the plate and retired the side.

Mrs. F. R. Gobeiman is the retiring president and her efforts have been untiring for the success of the organization and with the wonderful co-operation of the ladies they have made a year's work one that is very effective.

At a suitable hour the members of the party were treated to a dainty luncheon served by the hostesses assisted by her daughters, Mrs. Bert Coleman and Mrs. N. P. Schultz as well as Mrs. Val Burkley. The ladies enjoyed to the utmost the occasion and the delightful hospitality afforded them.

YOUNG LAD IS SEVERELY INJURED

Johnnie, Six-Year-Old Son of Mr. and Mrs. John Hobscheidt, Jr., of Near Murray is Kicked by Colt.

From Friday's Daily. This morning while Johnnie, the six-year-old son of Mr. and Mrs. John Hobscheidt, residing in the neighborhood of Murray, was playing around the horse lot at the farm he was severely kicked by a small colt and badly injured. The little boy it was thought had attempted to ride on the colt and the animal pushed him over and then kicked the prostrate boy, striking him in the forehead and laying open a large gash. The injured lad was hurried to this city to the offices of Drs. Livingston, where the injuries were dressed and it required several stitches to close the wound. While the cut was very painful it was fortunate that the force of the blow had not caused a fracture of the bone.

TRACTOR DEMONSTRATION GIVEN

Held at Farm of Henry Hirz, West of City and Eight Makes of Tractors Are Used in Plowing.

From Friday's Daily. One of the most interesting exhibitions of the modern farm work shown in the county was held yesterday at the farm of Henry Hirz, west of the city, when a tractor demonstration under the direction of L. R. Snipes, state agent, was staged. The field selected consisted of twenty-six acres and one acre was allotted to each of the "bottoms" of the tractors. There were eight makes of tractors on the field and an excellent showing made by all as there was no time allowance given. The working of the machines in plowing was the sole qualification. The makes exhibited were the Titan with three plows, Fordson, two plows, Allis-Chalmers, four plows, Wallis, three plows, Waterloo Boy, three plows, Huber, three plows, Case, three plows, Hart-Parr, three plows. The work of the tractors and plows was excellent and the acreage assigned was soon plowed up in fine shape and was a thorough exhibition of the modern art of farming.

The farmers from many miles around were present at the scene and quite a number from this city were in attendance to enjoy the exhibition.

One of the factors of the demonstration was the cost per acreage of the fuel consumption and in this the Titan tractor of the International Harvester company secured the lowest figures, using six gallons and three quarts of kerosene while the Hart-Parr tractor, the next lowest used seven gallons, three pints of kerosene. The cost of the plowing per acre by the lowest machine was given as 34c per acre.

Mrs. Dalton came to Mills county forty years ago and has lived there almost continuously since that time and reared to manhood and womanhood a family of six children. Mrs. Dalton was twice married, both of the husbands having preceded her in death. For some months previous to her death Mrs. Dalton had been staying with her daughters at Council Bluffs but as the hour of parting drew near the mother was brought to her old home to spend the last few days of life. To mourn her passing this splendid pioneer lady leaves to mourn her loss four daughters and two sons, Mrs. James R. Higley, Plattsmouth, Mrs. Rhoda White, Mrs. Minnie Baldwin, Mrs. Rosa Jackson, all of Council Bluffs, Iowa, John and Mahlan Richardson, Plattsmouth. The funeral services were held this afternoon at 2 o'clock from the home on the east side of the river and largely attended by the relatives and friends of this lovely lady. The body was brought to this city where it was laid to rest in the Oak Hill cemetery.

STATE FARE NOT RAISED

While the fare over the railroads were raised yesterday for all interstate business, there has been no increase in the fare between points in the state of Nebraska and the fare remains as prior to the raise. The changes in the interstate rates has caused more or less confusion in the minds of travelers but the Burlington as well as other railroads of the state announce that there is no boost in the state rates. The state railway commission has decided that the state fares on and after September 1st, shall be governed by the two-cent fare law but what action will be taken by the railroads has not been determined.

RED CROSS MAGAZINE TO BE NO MORE

October Number Will be the Last—Paper Costs Chief Reason for Its Discontinuance.

From Friday's Daily. Rising costs of publication, particularly the famine price of white paper, have resulted in the decision of the executive committee of the American Red Cross to discontinue publication of the Red Cross Magazine. These have reached a point at the announcement from national headquarters, where further publication would involve either considerable increase in the subscription price or a subsidy from the general funds of the society, which deems either course inexpedient. Accordingly, the October number will be the last.

"The Red Cross is now developing an extensive peace-time program and in addition must carry on the responsibilities assumed during the war to the limit of its resources available for that purpose," said an announcement. "Had the Red Cross Magazine been the only means of communication with the public and its workers it would have been necessary to continue the magazine, even at a loss. Through the medium of its other publications, however, such as the national headquarters and division bulletins, Junior Red Cross News, pamphlets on special subjects and with the co-operation of the press and through the Red Cross motion picture service, a machine for distributing information has been developed, so that even with the elimination of the magazine this work will continue."

Attorney C. E. Tefft of Weeping Water, arrived this morning to spend a few hours at the court house looking after some of his cases in court.

Albert Bauers and Steven Lewis of Murdock were in the city yesterday for a few hours looking after some matters of business at the court house and calling on their friends in the county seat.

SNAKE SWALLOWS GLASS EGG

One day last week a large bull snake crawled through a small hole in the hen house on the farm of Mrs. Emily Gonzales and chose a large glass nest egg for a meal and succeeded in swallowing it. It did not act right and when he tried to crush the egg by twisting his neck there was nothing doing. This alarmed him and he tried to get right out of there so he made a dive for the hole, getting as far as where the egg had lodged—he was trapped and so when they went to the hen house there he was. The snake was immediately dispatched and an autopsy revealed that he had swallowed the glass egg. Elmwood Leader-Echo.

READY TO ENFORCE TWO CENT FARE LAW

Attorney General of State Will Try to Maintain Rate According to Law on Statutes.

From Friday's Daily. Attorney General Clarence Davis is said to be preparing to do everything in his power to enforce the two-cent fare law in Nebraska, but there are many who believe he is facing a losing fight. Numerous other states however, which have a two-cent fare law upon their statute books, have refused to approve an advance in passenger rates. Under power given to the interstate commerce commission it is difficult to see how the states can succeed in preventing the advance both in freight and passenger rates approved by the interstate commerce commission. The railroads are at liberty to file a complaint with the interstate commerce commission alleging that freight and passenger rates in Nebraska, approved by the state commission, are lower than interstate rates and therefore discriminatory against interstate commerce. In such a case the interstate commerce commission can direct the railroads to correct the discrimination, and this will be done by an increase of state rates to an equality with interstate rates.

From Friday's Daily. Sheriff C. D. Quinton in company with a government representative was out in the vicinity of Cullion on Wednesday and secured several gallons of the liquid known as "white mule" or prohibition whiskey. It is stated the booze was found at the residence of a family named Huddleston, but the parties claiming the ownership was not secured by the sheriff. The "mule" was of the usual high power and calculated to create much steam by the consumer but it is to be destroyed and removed from the temptation of those who enjoy a bracer.

TELLS OF FROST

From Thursday's Daily. C. C. Despain, one of the old residents of this city and who has spent his life time in the west was in a reminiscent mood today and related a story of one of the severe frosts that visited the west on August 26, fifty-eight years ago tonight. At that time Mr. Despain was living at Albia, Iowa, and states that the corn and other crops were all killed by the intensity of the frost. On the day following the frost Mr. Despain had occasion to drive to Missouri, a distance of some sixty-five miles and all day he rode through the country where the corn lay dead in the fields as the result of the biting frost. This was one of the earliest cases of frost in this country in the recollection of Mr. Despain.

From Thursday's Daily. The members of the Presbyterian Sunday school enjoyed a splendid treat yesterday afternoon in their annual picnic which was held at the farm of John Larsh, east of Union and which is one of the most attractive spots in the county. The members of the party assembled at the church at Seventh and Granite street at 1 o'clock and there several carryalls and some ten touring cars were waiting to convey the party to the scene of the festivities. The drive to the Larsh farm takes one through some of the prettiest scenery in eastern Cass county and the ride over the hills from which a view over miles of the fertile and heavily laden harvest fields is afforded was very pleasing. Mr. Larsh has a most charming place on his farm, the house being large and commodious and the surroundings such as to charm the lover of nature as it is located in the heart of the hills that lie along the Missouri river and he has a large pond near the house that is kept stocked with fish and makes a very pleasant place to spend a warm summer afternoon.

The committee headed by C. A. Rawls, superintendent, had provided swings and other means of entertainment for the young folks and the game of the party staged a base ball game that produced much healthy amusement for them. Refreshments of ice cream and cake and dainty lunches also assisted materially in the delights of the occasion.

YOUNG LAD HAS LEG MANGLED BADLY

ROY WRIGHT, FIFTEEN YEAR OLD BOY, MEETS WITH A TERRIBLE ACCIDENT

MAY BE UNABLE TO SAVE IT

Direct Contact with Mowing Machine Sicke Bar Results from Stubbing Toe in the Field.

From Friday's Daily. This morning a very serious accident occurred at the farm of Roy Johnson four miles east of Bartlett, Iowa, when Roy Wright, a young man employed on the farm fell into a mowing machine and had his left leg mangled very seriously.

It seems that the boy was engaged in picking some sweet clover out of the sickle bar of the machine as it was in motion and while doing so stubbed his toe and fell in such a position that the left foot came directly in the path of the sharp knives, almost severing the leg and inflicting a terrible wound.

The wound bled very freely and it was some little time before an automobile could be secured and Mr. Johnson, with whom the lad had been making his home, with two other neighbors drove to Plattsmouth where the injured lad was hurried to the office of Drs. Livingston. An examination was made and a temporary dressing made to check the flow of blood and to make the patient as comfortable as possible. The leg was in very bad shape, the tendons being severed and the cuts had almost severed the bone as well, but it is hoped that it may be possible to save the injured leg. The boy was taken to Omaha by Dr. J. S. Livingston, where he will be placed in the Immanuel hospital and where the leg will be dressed and every effort made to save it.

The injured boy is an orphan, and has been making his home with Mr. Johnson for some time, assisting in the farm work and, so far as known, has no relatives in this portion of the country.
