COLE BRINGS CIVIL SUIT TO RECOVER

Alison B. Cole Demands Judgment for an Automobile Valued at \$500

Apparently Alison B. Cole has been so busy dodging the electric chair for several months past that he had no time to think of a civil cause of action upon which he brought suit in county court Friday afternoon. The defendants named in his petition are the Linsinger Implement company, the Linsinger Automobile company, Riley, first name unknown, and J. A. Cullen. The defendant Riley is alleged to be the manager of the automobile department of the Linsinger company and Cullen is said to be a salesman. Plaintiff asks judgment for \$500 against the defendant.

It is alleged by Cole that in March, 1917, he was the owner of an Overland automobile of the value of \$500. He made a trade with defendants, giving them his car and a check for \$500, signing to this check the name of Allen Vincent Grammer. The check was given with the knowledge, authority and consent of Grammer and was drawn on a Palmer bank. For his car and this check he received from defendants an Oakland six car, which he at once drove to the home of Grammer at Palmer.

Shortly thereafter Grammer told him that he would not pay the check and he had better leave the country at once or the defendant would send him to the penitentiary for forgery. A week later the defendants went to Grammer and demanded that he pay the check, which he refused to do. Instead he gave them the Oakland car.

The plaintiff asserts that he did not learn of this transaction until a year later, when he demanded of defendants that they return to him his Overland car. They failed and refused to give him the car and he now sues for its value, \$500.—State Journal.

This is the year in which we are blessed with a full crop. The small grains have been cared for; some of the wheat you had to put in the corn cribs. Now look for the biggest crop of corn in years. Prepare now to take care of it. We have an abundance of good crib lumber. Do not allow "Husking Time" to find you unprepared to properly care for the crop.
