Will Have New Bridge.

The work is being done by the Monarch Engineering company, under the direction of O. W. Kinney as foreman.

Making Some Special Low Prices.
In order to aid in the readjustment of business which has been going on from the peak of the high prices during and following the war, to the pre-war standards, Joe Banning, the hustling furniture and implement man is making some very low prices and in some cases a holiday season is here he is offering some very substantial goods which at the same time make elegant presents and furnished servable and lasting necessary household articles as well. Step around and see what he has to offer and at prices which will surprise you.

Things Are Looking Better.
The smile came back to the elevator men and to the farmers as well with the receiving of the market for grain last Monday afternoon, when it was announced that corn had shown an improvement of 4 cents and wheat 9 cents, this enabling the shippers to pay 55 cents for the corn and all the way from \$1.45 to \$1.50 for wheat, according to the grade. This is congratulatory and we are pleased to note the fact of brighter prospects for the farmers.

A New Industry for Union.
Charles Bordman, who has been preparing for the opening of a dairy for Union, had his cows tested last week and state inspector being here and out of the seventeen which he had, fifteen were in excellent condition. The remaining two have been separate from the herd and will be butchered and the ones pronounced as in the best condition will be kept. His first day he disposed of 36 quarts of milk in Union and it is a thing which the town has needed. It would be well of other towns were so favorably conditioned. He ships what he does not sell at this place and thereby has no loss when the herd produces more milk than the market here demands.

Manifest Some Enterprise.
The ladies of the Methodist church are active and greatly interested in the matter of a bazaar which they have planned to give at the church in a short time. They are busy working at fancy work and many other things which they will have when the time comes. They have placed the time of holding the entertainment on December 15th, when they will expect to serve supper as well as sell their goods consisting of fancy work and other goods, such as aprons, bonnets and baked goods for the table. The coming Sunday they will have services at the Methodist

church in which many will take a part. They will devote the morning preaching hour to the program which will be given by the ladies of the Womans Christian Temperance union and in the evening speakers will be provided and the entire day will be made most interesting for all who may choose to attend. The Epworth League will assume a portion of the day's services.

Are Offering Solid Bargains.
Johnson Brothers, the general merchants of Weeping Water, of whose ad will be found in this paper, are offering some very attractive bargains, and of lines the most staple and the best of goods at that. See the attractive lists that they quote and at prices which cannot be duplicated elsewhere. These goods are all serviceable and just in time for the cold weather that is coming, as well as the list of groceries which is an advance step in the readjustment of prices from the high prices which have prevailed during the past few years. Unless you see and know of the real values which this firm is offering, you are taking a direct loss in the goods you are needing. Better take a look and save some money. This is the dollar bill sale and you have no idea how much the dollar will purchase.

HOME GUARD FUNDS GO TO THE LEGION

Remaining Balance Vested in Officers of Hugh Kearns Post for Use in Outfitting Rooms.

From Tuesday's Daily.
Ex-members of Plattsmouth Home Guard company No. 1 last night in called session to reconsider disposal of remaining funds on hand, voiced an expression of confidence in the officers and members of Hugh Kearns Post No. 56, American Legion, when a motion carried without dissenting vote to turn the funds over to the Legion to be used in buying furnishings and otherwise equipping their new club rooms in the Leonard building.
Prior disposition of the funds had been made by the Guardsmen when they voted last June to give the money—some \$339—to the Legion to be applied on the purchase of a home. A tightening money market and prevailing high prices made this step inadvisable, however, and with the leasing of the present rooms, Ex-Commander C. A. Rawls consented to again call the Guards in special session to reconsider their former action.
In this connection it is pointed out that no lodge in the city at its inception or during the early years of its existence owned the building in which its meetings were held. Yet time has witnessed their growth and the acquisition of property holdings of much value.
A goodly number of Guardsmen responded to the call and were present at the meeting held in American Legion hall where opportunity was given them of observing first hand the needs of the Legion, as well as the improvements already underway, much of which are being done by the members themselves in order to hold expenses at a minimum.
Following the vote to reconsider, L. G. Larson introduced a resolution providing that the committee holding the funds in trust be instructed to place them at the disposal of the Legion officials, and after some discussion of the question, none of which came within the sense of opposition, the vote was taken resulting in unanimous approval.
The Legion boys are very grateful, both of the compliment paid their ability to administer successfully the duties of keeping alive the organization, and of the gift itself, which will aid materially in the furtherance of their club room plans.
