### What Edison did during the War

The NEW EDISON

"The Phonograph with a Soul"

THE official announcement is out. Ask us for your copy of "What Edison Did During the War." Write for it, if you can't call.

It tells how Edison left his home and business and went to sea, how Edison's "Yankee magic" foiled the German submarines.

The bulletin tells many other things Edison did while Chairman of the Naval Consulting Board. It explains how Edison kept the price of his phonograph at bed rock during an era of high costs and soaring prices. Since 1914 the New Edison has advanced in price less than 15%—and part of this is war tax.

This bulletin also describes the Budget Plan, which makes it possible for every home to enjoy the benefits of good music without feeling the financial outlay.

# Joliet Power Corn Shellers

"Famous Wherever Corn Grows"

Established 1851 Incorporated 1867 The Cylinder Machines

The Joliet Cylinder Corn Shellers possess all the advantages of other cylinder corn shellers and are free from their defects.

They do not require a man to stand behind them in the dust to keep back the unshelled ears of corn.

In fact, these shellers are as nearly automatic as any machines can be that require adjustment for different kinds of work. We have these shellers in stock. Come in and look them over.
