Arrived Last Thursday. A young American weighing just ten pounds, and calling Mr. and Mrs. Eli Smith father and mother, arrived at their home last Thursday, January 15th, hale and hearty, and received a glad welcome. The young man promises to keep the home happy to which he belongs, and is starting out in excellent shape.

Ladies Have Excellent Time. Mesdames Glen Perry, Charles Spangler, and Oscar Gopen, entertained the missionary society of the Presbyterian church last Tuesday afternoon and an excellent time was had, with some splendid work done as well. The program which was rendered was one of much interest, and enjoyed by all in attendance. Mrs. Rankin of Mindar, delivered an address on the church and the community, which was a very able one. The Bible study was from the old testament and was conducted by Mrs. Albert Young.

Library Association Will Meet. There will be a meeting of the library association at the library rooms on Tuesday afternoon, January 25th, and all who are interested in the matter are urged to be in attendance. The matter of the running of the library and the expenses thereof are subjects which will be discussed. Some new books are also needed, so come and let us talk it over and arrive at some conclusion as to what is the best thing to do.

Entertainment for Next Winter. The matter of providing entertainment for next winter is one which is gripping the attention of the community club and is one which we should look after immediately. We all want a real live entertainment and now is the time to make the move. All who are in favor of something worth while, please call up Mr. C. D. Spangler and tell what you think. He is in communication with a real company and would like to have an expression from all interested.

Passes 75th Milestone. Last Sunday, J. W. Berger celebrated his 75th birth anniversary in the case of life. Mr. Berger was born January 16th, 1846, at Savanna, Mo., and when about two years of age, removed with his parents to Iowa, where he with them, remained for eleven years, and then came to Nebraska and Cass county in 1857, and with the exception of during the Civil war, has made his home here since, making a residence of 62 years in Nebraska. Mr. Berger is well and favorably known by a host of friends who are wishing this grand old man many more years of usefulness and happiness, and which it is desired will be prosperous.

Will Make a Quilt. The ladies aid society of the Christian church of Murray and vicinity will meet at the home of Mrs. Wm. Seybold, when they will make a quilt, and at the same time have a very enjoyable time. They will also look after the business matters of the society. Come out and spend the day with them and have a good time.

Elevators Are Well Filled. Last Tuesday filled the Wilson elevator which is managed by M. D. J. Pitman, and now contains some 14,000 bushels of corn, 4,000 bushels of oats and 1,000 bushels of wheat, making in all some nineteen thousand bushels of grain and the car situation in a very bad condition. The price of corn is 44 cents, and while that is way below the cost of producing the grain, still the farmer cannot get rid of his crop on account of the scarcity of cars to move the grain, and there is lay off after lay off which is attributed to

lack of work. It looks like something was badly out of joint, when the conditions are thus. During the past week Will Cook, T. V. Davis, O. K. Yardley, C. C. Tucker, O. T. Leyda, Searl S. Davis and many others have been shelling.

Just in the Nick of Time. Ray Henry, W. I. Lloyd, Frank Marler, sr., and Frank Marler, jr., Ivan Deles Dernier, Glen Todd, and Conrad Johnson were getting in their ice the first of this week, and were not to fast about it either when one considers the slippery condition of the weather.

Community Club Held Meeting. The Community Club meeting, Wednesday, January 12th, was well attended, road and weather conditions considered. Mr. Jones of Lincoln, explained the operation of the calf and pig clubs over the country and a great deal of interest was shown by those present, so much in fact that it was decided to form a pig club here and several names were enrolled at the meeting.

This is something in which the parents should encourage the boys and girls, as it gives them a personal interest in the farm and home, the lack of which usually is the cause of their becoming dissatisfied and drawing them to the towns and cities. The list is still open and any boy or girl over 10 and under 18 years of age may enroll by handing their names to Lee Kniss, secretary.

Some method of financing the young contestants will be worked out, so any boy or girl within the prescribed age limit can get in, all that is required is ambition and enthusiasm.

It was also decided to organize a cooking and baking club. Any girls interested, hand in your names to Mr. Kniss. Remember these things are only limited, by the amount of interest shown. If you are interested in either of these clubs, get your name in and get as many others as you can, the idea of the community club is to do the most good for the most people and the only means of judging is by the interest shown in these projects.

We have been indeed fortunate in securing again the services of Mr. Gaines, a real live wire, brim full of pep and enthusiasm. Mr. Gaines needs no introduction to our people as he was here last fall and gave us a talk that we can still remember with profit and pleasure. Mr. Gaines is not a single barrel man, but a repeater and can return again and again to the same place and the same people and make good each and every time. It has not been decided, along just what lines he will speak, but it will be something of community interest and not one should miss it.

We need some of Mr. Gaines' pep and optimism and if anyone can sit through Mr. Gaines' lecture, without that impulse to get up and get in the game, that person is indeed a dead one and arrangements should be made for his interment. Everyone come out and try this test. See if you are worthy of living in a wide awake community or should move to a cemetery.

Remember the date, Wednesday, January 26th, 1921, at 8 o'clock. You'll be sorry if you don't come, and your neighbors won't send you any flowers or follow you to the grave should you prove a dead one. No admission charge.

WEATHER PULLS SURPRISE

After several days of threatening weather and the mercury hovering dangerously near the zero mark, the weather conditions pulled a surprise during the night and on awakening this morning even the oldest inhabitant was surprised to find a mild soft climatic condition facing them. Late last night the dampness threatened icy and sleety traveling for today but the weather man was evidently in a good humor as today the weather was more like a spring rain than anything else. However, Nebraska weather is the most uncertain in the world and any sudden change may be looked for.
