

MUNICIPAL PROBLEMS ARE DISCUSSED

LEAGUE OF MUNICIPALITIES DISCUSS MATTERS THAT PERTAIN TO GOVERNMENT OF CITIES

The session of the Nebraska League of Municipalities at Lincoln this week is one that is filled with interest to the residents of the cities both large and small of the state and the problems of cities of the class of Plattsmouth are receiving particular attention from the state gathering.

The problems of city government and many and in a great many cases very perplexing and laws to make the tasks of the cities easier is one of the things that the state meeting is agitating. Among the matters that was discussed was that of having municipal securities such as warrants and bonds made exempt by law from taxation and it was pointed out that this would have a great effect in making the municipal securities a great attraction for the investors of the state and nation and that the citizenship of a community should be educated in the line of investment in local securities when offered. The tax matter was presented by Commissioner Towle of Omaha, who while in favor of the aiding of the securities recognized the fact that a financial autocracy might arise from the fact that too many tax free securities were placed on the market.

The advertising by all municipalities of any special public improvement was urged by Mr. Towle and he stated that photographs should be made of all the new public improvements and sent to Lincoln to be preserved as evidence of the progress of the state.

A matter that is of the greatest interest in this city was that of the traffic regulations as regards fire equipment at the time of fire and the smaller cities that have modern equipment was especially discussed by the members of the league. A number thought that the fire equipment was driven at too rapid a rate over the streets both in going and coming from fires but it was the unanimous sentiment that the fire equipment must have the complete right of way over all other traffic in times of emergency and a number of interesting stories of the volunteer firemen were given by the members of the convention who have been interested in such organizations. Greater precautions in the small town in the inspection of homes and business houses for causes likely to contribute to the starting of fires was taken up and discussed. A greater part of the cities are not doing as Plattsmouth—having inspection of the city made by the chief of the fire department and the following of his orders will do away with a great many fires in the course of the year. The work in the small town must be largely by the co-operation of the residents of the community and the fire department and through this means many heavy losses are avoided during the year in the way of costly fires.

CARD OF THANKS.

To our many good friends and relatives who so kindly helped us in time of our sorrow and for the many kind words and floral offerings at the time of our brother's death, we extend our most sincere thanks. May God deal as kindly with each of you, as you have with us.

Mr. and Mrs. Henry Born,
Mr. and Mrs. Henry Ahl,
Mr. and Mrs. Chas. Ahl,
Mrs. Mary Ragoes.

Impure blood runs you down—makes you an easy victim for disease. For pure blood and sound digestion—Burdock Blood Bitters. At all drug stores. Price, \$1.25.

Spring will be here before you know it. Bring in your harness to be repaired and oiled. Ben H. Whites, Gorder's old stand. tf-d.

FUNERAL OF HENRY MILLER

From Wednesday's Daily.
The body of the late Henry Miller arrived last evening on No. 2 from Havelock, where he passed away Monday, and was taken direct from the Burlington station to the Elks lodge room where it lay in state up to noon today and a large number of the old and intimate friends of the departed gentleman gathered to pay their last tribute to Mr. Miller and to take their last farewell.

The funeral services were held at the lodge rooms at 2:30 and quite largely attended by the old friends and neighbors as well as the members of the Elks lodge of which Mr. Miller has been a member since 1913. The services were conducted by Rev. H. G. McClusky, pastor of the First Presbyterian church, and who spoke in the bereaved family and friends words of comfort in their sorrow.

The body was conveyed to Oak Hill cemetery, where it was laid to rest beside that of the wife who had preceded him in death three years ago. At the grave the officers of the Elks lodge conducted the beautiful ritual services of the order as the body was consigned to the silent tomb.

TWO GOOD GAMES IN THE CITY LEAGUE

Morgan's Triumph Over Elks and Reserves Run Away With Victory From Eagle Team.

From Wednesday's Daily.
Last evening the followers of the basket ball game who braved the cold and disagreeable evening to journey to the high school "gym" to witness the two games staged in the city league, felt amply repaid in the strenuous exhibition of the art of basket tossing as staged by the local "sharks." The opening game between the Morgan team and the Elks was especially exciting as both teams put forth their best efforts to add a victory to their list and from the start the game was warmly contested. The final result was in the victory of the sweat shop representatives and was the second defeat of the season for the Elks, who were defeated last week by the high school reserves and by the victory of the Morgan's the race grows more intensified with three of the teams all in the running.

In the second game the Eagles suffered another defeat at the hands of the Reserves and while playing in improved form the lodge team was unable to combat the speed and ability of the younger school players and were trimmed by the score of 30 to 15.

The games in the city league are very interesting to anyone who enjoys a good basket ball game and it is to be regretted that larger numbers are not present to witness the contests as they are well worth seeing.

STORM SEEMS TO HAVE PASSED

Snow and Sleet Storms Have Vanished Before the Bright Sunshine and General Clearing Conditions.

The snow and sleet which raged over the state the first two days of the week seem to have vanished in the clearing and brightening skies and this morning disclosed an ideal winter's day dawning over this part of the state. The snow and sleet in this part of Nebraska did not reach the serious proportions as it did in the western and northern part of the state and very little loss is found in this section. The greatest sufferers from the storm apparently were the telephone and telegraph lines which were damaged to a greater or less extent by the sleet and in many cases the lines of communication were broken down by the weight of the sleet.

NEED OF ELEVATOR ON THE BURLINGTON

Many Residents of This Portion of County Urge Construction of Elevator at This Point.

In the last few weeks there has been a great deal of discussion by a number of those who are interested in the handling of the grain crops as to the need of an elevator at the Burlington tracks in this city and which has been badly needed for the past year.

The fact that it has been practically impossible to secure cars from the small towns on the Missouri Pacific lines has caused a great deal of the grain to be brought to this city and even more would be handled if it were possible to handle it through an elevator, but as it is the shippers have to depend on cars being placed for them before they can bring in the grain. The Burlington here was able during the summer and fall to supply a large number of cars from all over the eastern portion of the county was brought here in trucks for loading into the cars and shipping to the market. The building of an elevator would allow a large amount of grain to be handled all the time and do away with the necessity of awaiting the arrival of cars before the grain could be disposed of to the market. With the supply of cars that the Burlington is generally able to supply at this point the elevator could handle nicely the grain from this portion of Cass county and prove a valuable asset to the farmers of the community.

WILL SECURE PATENT.

Bruce Rosenbergs, who is one of the main stunt pullers in the Business Men's athletic club, is now wearing a look of deep thought as he goes to and from his place of business and inquiry as to the cause of the aforesaid deep thought developed the fact that Bruce is engaged in working on a patented protector that will make indoor base ball and basket ball as safe as a game of high five. At the last meeting of the club, Bruce, who is a catcher on one of the indoor base ball teams became entangled with one of the inshoots of the pitcher and he is now busy getting ready to see that he is protected from any more accidents of a similar nature.

OUCH! ANOTHER RHEUMATIC TWINGE

Get busy and relieve those pains with that handy bottle of Sloan's Liniment
WHAT Sloan's does, it does thoroughly—penetrates without rubbing to the afflicted part and promptly relieves most kinds of external pains and aches. You'll find it clean and non-skin-staining. Dr. G. H. Gilmore of Murray, was among those going to Omaha this morning on the early Burlington train, where he goes to attend the operation that will be performed on Mrs. Ezra Albin of Union, at the St. Joseph hospital in that city this morning.

August Steppat of Calox, S. D., came down Monday from his home with a number of cars of stock for the Omaha market and came down yesterday for a short visit with his parents, Mr. and Mrs. Martin Steppat, returning this afternoon to Omaha to visit his brother Frank, and will then go to his home in South Dakota.

SEEKING WORD OF MISSING BROTHER

Location of Rudolph Engle, Former Resident of Plattsmouth is Sought by a Sister in Canada.

A letter of inquiry as to the whereabouts of Rudolph Engle, an old time resident of this city has been received by Mayor Schneider. This letter was addressed to the mayor of Plattsmouth and stated that the writer had lost trace of her brother and had not heard of him for the past twenty years and was very desirous of getting in touch with him.

An inquiry among the residents of the city failed to disclose anyone who was acquainted with the address of the above person, although a number recalled the family well, as they made their home for a number of years in the north portion of the

city and while here were well known. One brother, it is stated, located in the west while the two sisters on marrying removed from the city and one of them is now residing in Canada. Rudolph Engle was an employe of the Burlington in the shops while here but has not been a resident here for the past twenty-five years or more and seemingly has severed all connection with the friends of former years in this locality.

When baby suffers from croup, apply and give Dr. Thomas' Electric Oil at once. Safe for children. A little goes a long way. 30c and 60c, at all drug stores.

The price of our dry cleaning cuts down the price of clothes. Dainty Dorothy says that she has found out that we take most excellent care of the garments entrusted to us and that our charges should make friends for this house. Our dyeing proves satisfactory, as we use the latest approved methods and the best dyes.

Philip Thierolf
VALUE GIVING CLOTHIER

You have been watching prices lately; you know there is a general lowering in all lines—

Clothing should be no exception! Wool is down. In time, garments made from lower priced wool will come thru and should reflect the drop.

As it looks to us, this will probably come by Spring or Early Fall. If it does, our heavy stocks bought last fall can never be moved at their rightful prices. We decided some time ago to take our loss now, instead of later.

We have gone thru the entire stock, re-priced everything—not according to present market, but what we believe it will cost this spring.

Make Your Dollars Do the Work!

Dress up! Many items in this store are now on sale, at pre-war prices, and all articles are materially lower. If its lower prices you're waiting for, don't put off having a new suit another day. You won't find better goods for less money anywhere this Spring.
