Get Rich Quick-- Get Wise Quick!

It's human nature to want to get rich quick.

That's why thousands of people lose in the aggregate hundreds of millions of dollars yearly through some scheme labeled, "Get Rich Quick."

If those who foolishly invest in unproven schemes or who place their money in irresponsible companies offering high rates of interest do not get rich quick they at least get wise quick.

Keep your money at home in a home bank and invest after consulting your banker.

Since the operation which Mr. Matt McQuinn underwent some time ago at a hospital in Omaha, he has been making fair progress, but last Monday morning a turn came for the worse and his condition grew rapidly serious. Mr. McQuinn's condition is very grave, but he is getting the best of care and medical attention.

Was in the Missouri Pacific Wreck. Mine Host, C. W. Clark, who had

been looking after some business in Omaha and was returning home last Sunday morning had the novel experience of being on the train which was wrecked when the Union Pacific passenger hit the Missouri Pacific train at Gilmore Junction. Mr. Clark said when the wreck was over that the cars were strewn over the tracks and that many of the people were quite badly tossed about. Mr. Clark does not desire any more such experience.

Have Sold Many Cars.

The new firm of Propst and Burbee have been rustling and as a result have disposed of a number of cars. They sold to the Appertine Brothers of South Omaha, a touring car and one to John Ruhge of the same place, and immediately followed by selling one to Henry Wilson, three going to the packing town. They also sold one to Leslie Everett and one to Ray Becker, which have been delivered. They received another shipment of cars last Tuesday. Besides they received a car of Fordson tractors which went to their store house and from which they sent three to Papillion and two to Eagle. They also purchased two used cars, one from James Roddy and one from Orville McQuinn. These dealings speak well for the enterprise of the new firm.

business to look after and then on Saturday night started home, and on his way had three punctures, and notwithstanding this fact, and putting in the time repairing them on the road, made the trip in just seventeen hours. Gets Bumped in a Car.

Coming so closely on the wreck of the Missouri Pacific at Gilmore Junction last Monday, while L. G. Todd was making some repairs in a car preparatory to loading the same with grain, he heard an engine coming, and endeavored to get out of the car and had just gotten to the door when the engine struck the car, sending Mr. Todd to the side of the car and had he gotten two feet farther before the engine struck, he would have been hurled out and under the car. While bruised some and frightened more, he felt pretty thankful that it was no worse.

Send Flowers and Good Wishes.
