FROM LYCEUM COMMITTEE

There remain two numbers of the Lyceum course this season. The first is the Zedeler Concert company which will appear at the high school auditorium tonight at 8:15.

We urge attendance upon these two last numbers as they are both high class and are in every way rare musical treats.

The support of the public generally of these remaining entertain-

ments will determine the future of Lyceum course engagements in our city.

If you enjoy them and want them continued, now is the time to express it. Respectfully, LYCEUM COMMITTEE

STOCKMAN SUES THE BIG PACKERS

Alleges That Defendants Have Conspired to Monopolize Trade and Injured Him.

Charging the defendants with conspiracy and with attempts to monopolize the live stock trade, John W. Jack, a farmer and stock raiser of Frontier county filed a suit in the United States district court Tuesday asking for damages in the sum of \$75,323.52 against the five big packing corporations, Swift & Company, Armour & Company, Morris & Company, Wilson & Company and the Cudahy Packing company.

The plaintiff states that he has been engaged for twenty-five years or more in the business of farming and fattening cattle and hogs for the market. In his petition he makes a number of specific charges against the defendants in support of allegations that he has been financially damaged through the monopoly exercised by the packing concerns.

As a result of the monopoly and conspiracy, Mr. Jack sets out that on the shipment of thirty-two cars of live stock during the year 1896 to March 17, 1920, he has been injured in the sale of his live stock in the sum of \$25,107.84. The plaintiff asks the court for three-fold damages or the sum of \$75,323.52. State Journal.

After the business session dainty refreshments were served that added to the enjoyment of the occasion.

RETURNS FROM HOSPITAL

Yesterday afternoon Gilbert Meisinger, son of Mr. and Mrs. J. J. Meisinger of this city, returned home from the Immanuel hospital, where he has been for the past month recovering from the effects of an operation for appendicitis. The patient is feeling somewhat improved, and is doing as well as could possibly be expected under the circumstances.

MRS. ALICE GRESHAM DODD, mother of first American soldier killed in France, who gives entire credit for recovery of her health to the well-known medicine, Tanlac.

The following remarkable statement was made recently by Mrs. Alice Gresham Dodd, the mother of Corporal Jas. B. Gresham, who was the first American soldier killed in France. The statement was made at the Gresham Memorial Home, which was presented to her by the patriotic people of Indiana as an evidence of their appreciation of the services rendered to his country by her son.

The shock of her son's death resulted in a serious breakdown in Mrs. Dodd's health, but every one will learn with interest and pleasure that she is now in splendid health again. Mrs. Dodd gives the entire credit for her recovery to the celebrated medicine, Tanlac.

She said: "After my dear boy's death, I had a general breakdown in health. At first it was just indigestion. My food would upset me and I had to diet myself very carefully. I also had rheumatism with severe pains in my shoulders, back and arms and at times I would suffer greatly and my joints would become swollen and stiff. I was hardly able to do but very little about the house and at times could not even cook a meal. I became very nervous and restless and at night would lie awake for hours.

"A friend of mine advised me to try Tanlac. I am glad I did, for it proved to be the best medicine I have ever taken. It soon gave me a splendid appetite and relieved me entirely of indigestion. My rheumatism also disappeared and I am now able to do my housework with the greatest ease. My nerves are steady and strong. I sleep well at night and my health is better than in years. I should never be grateful for what Tanlac has done for me."

Tanlac is sold in Plattsmouth by F. G. Fricke and Company; in Murray by the Murray Drug company, and the leading druggist in every town.

JAPAN TOOK YAP MANDATE WITH SOME RESERVATIONS

Washington, D. C., March 7.—Japan accepted the mandate for former German possessions in the Pacific north of the equator, including Yap, with the reservation that Japanese citizens should not be subjected "to a discriminatory and disadvantageous treatment" in either mandated territories. This was disclosed in the text of the mandate granted Japan by the league of nations, obtained today at the state department.

The reservation was similar to one advanced by the American government in reference to Mesopotamia and its note to the league of nations, in which exception also was taken to the declaration in the preamble of the mandate that it was conferred in accordance with an agreement between the principal allied and associated powers.

The United States has maintained that it was never a party to the agreement by which Yap was conferred to Japan, and it also has insisted on equal commercial opportunities for all nationals in the mandated territories. Japan's contention for equal opportunities is believed to apply to the mandated territories south of the equator in the Pacific awarded Australia.

McClung of Pawnee city, who brought him back to Table Rock, and when arraigned, he agreed to settle the affair and was married to Miss Josephine Trustos, a 17-year-old girl of Table Rock.

BURLINGTON INAUGURATES "NO LOST PACKAGE MONTH"

The month of March has been designated by the Burlington Railroad as "No Lost Package Month." Lost packages are the source of great inconvenience on the part of the shipper and heavy claim payments on the part of the railroad. During the year 1920, 21,293 claims were filed covering packages which disappeared between the time when they were received for shipment and should have been received by the consignees.

Losses are due to many causes, of course. Thousands of packages go astray because of improper marking, no markings at all or other errors, but by far the greater number disappear owing to the operation of thieves.

The purpose of the campaign is to materially reduce the number of lost packages. Employees have been instructed, and great results are expected. Shippers advised asked to cooperate.
