PERSHING MAY BE ORIENTAL DIPLOMAT

Ambassadorship to Japan One of Possibilities—Other Fields of Activity Suggested.

Washington, April 5.—Secretary Weeks' statement that he would shortly announce a detail to duty for General Pershing, "commensurate with interest and speculation in the war department. Several possible assignments for the general, whose rank as general of the army places him above any routine detail, have been discussed by officials. It was said today. It has been rumored he would retire to accept a diplomatic post, probably that of ambassador to Japan to succeed Roland Morris, whose resignation President Harding accepted. It is understood this would be the most acceptable diplomatic post General Pershing could be offered. His service there years ago as military attaché would tend to qualify him for the position. It has been pointed out. Another diplomatic post mentioned is Paris, but it is believed that if given his choice he would prefer Tokio.

On the other hand, many army officers believed General Pershing will either be made chief-of-staff to succeed Major General Peyton C. March, or that Secretary Weeks will seek from congress legislation placing the army on a field basis with him as general of the army at the head of the organization. In that event, it was pointed out, the general would have a chief-of-staff exactly as he had Major General Harbord as his principal assistant and chief-of-staff in directing the A. E. F. during the war.

Another assignment frequently mentioned in connection with General Pershing is that of governor-general of the Philippines, but it is not believed such a detail would be acceptable to him. A tour of the world as an envoy extraordinary similar to the tours made by other allied leaders after the war also has been mentioned.

General Pershing has never broached the subject of retirement to the new administration as far as can be learned. More than a year ago, in a letter to Secretary Baker, he indicated his desire to go on the retired list when he had completed important duties on which he was engaged. Most of those duties are completed. Under the law the general may retire at any time with full pay and all-waives of his rank amounting to about \$12,000 a year.

PASSPORTS NO LONGER NEEDED

Washington, April 4.—American citizens entering or leaving the United States no longer will be required to obtain passports or permits, the state department announced today after receiving an opinion by Attorney General Daugherty. Aliens leaving the country may also do so without permits, but passport control remains in effect in the cases of aliens entering the United States.

The opinion was called for to clarify the situation resulting from the inadvertent action of the last congress in terminating the passport control act of 1918.

The state department, however, was said to consider it advisable for Americans planning to go abroad to inquire of foreign diplomats and consular officers what documents, if any, would be accepted by their countries in lieu of regular passports.

HARDING HEARS LABOR VIEWS

Washington, April 4.—President Harding, in continuing his inquiry into the railroad situation, heard today the views of labor, which were presented by A. B. Garretson, former head of the order of railway conductors, and B. M. Jewell, president of the railway department of the federation of labor. Both men, who had come at the president's request, said they had discussed the situation generally, but had received no indication from the president last week in a telegram, that the wartime wage agreement had not been automatically abrogated by the return of the roads to private control. Mr. Garretson said he had also discussed the wage question in connection with a review of the transportation question.

No indication was given at the white house today as to whether other railroad labor leaders would be asked here.
