True Happiness

Today the World is in a state of turmoil and unrest—What of tomorrow? — It will be just what "We the People" make it.

—Our lives consist of relations—in the home or in business—so let us all live and work in harmony. It is imperative that we eliminate that personal greed—that "get all you can while the getting is good" idea must go. Selfishness never succeeds; seek to bring happiness to others—that's the art of life.

—Are you one of the fortunates who has found the joy and satisfaction that good credit and banking connections give? If not start in today building up a banking credit. Daily experiences in our bank show the satisfaction it brings to both men and women.

Earl Nottingham, a few days ago found an abandoned still in the creek near his home, which was made of a copper boiler. Not desiring to use the same for the purpose intended, he brought it to town and had a wash boiler made from a portion, while the remainder was left at the tin shop of L. R. Upton. Some one must have gotten scared a little and left the still along the lonely banks of the creek to perish.

He has been working on the kitchen of late and last Monday while attempting to move a ladder had a pail of paint fall from the top which materially assisted in the distribution of the paint whether it was good or bad were he desired it or not. A considerable amount went on the clothing of "Mine Host", but he came up smiling just the same.

He had had a lease with the ball team of Union, furnishing them a park for their games, and with the receiving of the property, Mr. Copenhaver who does not believe in Sunday base ball, refused permission for the use of the property for that purpose. The ball team is up a tree just now regarding what they will do, but are considering a few places and will decide on one in the near future. President Fred Clark says "Tell the world we are going to have a ball team this summer and do not forget it."

A. L. Becker, the merchant prince, while going home last Saturday night, about midnight, found a hollow between two crests in the road where his boat (auto) became almost waterlogged, while he had

DEATH OF MISS CARRIE BANNING

Well Known and Highly Esteemed Young Lady of Near Union Called by Death This Morning.

From Wednesday's Daily.

This morning at 6:45 at the family home south of Union, where she had spent her lifetime, occurred the death of Miss Carrie E. Banning, daughter of Mr. and Mrs. W. H. Banning, pioneer residents of Cass and One counties.

Carrie E. Banning was born December 13, 1883 at the farm home near Union and at the age of thirty-seven years, four months and eighty days answered the final summons of death. She has spent her lifetime amid the scenes of her birth and was a lady who had endeared herself to all those with whom she had come in contact by her splendid christian character and deep sympathetic feeling for her fellowman and her life closing while yet in the full glory of a bright and happy womanhood leaves a deep sorrow not only upon the sorrowing relatives, but the host of friends who had enjoyed her acquaintance since childhood days.

To mourn the passing of the gentle lady there remains the aged mother, and four brothers, Hon. W. B. Banning, Joe Banning and Earl Banning of Union and John Banning of Lindsay, Nebraska. The father had preceded her in death some two years ago.

The funeral services will be held from the Methodist church at Wyoming on Friday afternoon at 3 o'clock and the interment made in the cemetery near that place.

The many friends in this city will regret greatly to learn of the passing of Miss Banning and extend to the family their most sincere sympathy in their hour of sorrow.

Some FACTS About

Ford
THE UNIVERSAL CAR

Here are authentic figures from the Ford factory at Detroit. They show you just how many Ford cars and trucks have been built each month since January 1, 1921, and how many have been sold to retail customers in the United States.

	Produced	Delivered to Retail Customers
JANUARY	29,883	57,208
FEBRUARY	35,305	63,603
MARCH	61,886	87,221
Total Production	127,074	Total Retail Sales 208,032

showing that actual sales for the first three months of 1921 exceeded production by 80,958 Ford cars and trucks!

April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000!

These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly depleted, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.

If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. Phone us or drop us a card.
