AMERICA GREAT HOPE OF STRICKEN WORLD

The Evidence is at Your Door
Plattsmouth proof is what you want and the statement of this highly respected resident will banish all doubt.

A. J. McFarland, 306 Third street, Plattsmouth, says: "Several years ago I was doing some heavy lifting which strained my back and kidneys. This put me in such bad shape I had to walk with a cane for a number of weeks and I couldn't straighten up. I felt as though there was a heavy weight across my back that was just holding me down. I could not sleep nights and it felt as though I had been struck in the back with a sharp knife. My kidneys acted irregularly and the secretions were highly colored and burned in passage. I was told to try Doan's Kidney Pills and after the first box my condition was much improved. I put my cane away and was able to walk straight. I used four boxes from Fricke & Co's. drug store and they made a cure that has lasted ten years. My back and kidneys have never bothered me since and I believe Doan's will do the same for other people if they will give them a fair trial."

Fish Will be Scarce

J. A. Bauer, in expressing his opinion of fishing prospects this summer, says he is convinced that the catch of this season will not be overly large and will be of inferior quality, attributing his statement to the fact that some of the sportsmen of Murdock while fishing in the Platte river a few days ago accidentally took a foot bath in the river, and the fish will all drive to other parts, it being a good long time before they return.

Will Open Station Here

Henry Inhelder, of Omaha, has secured a room in which to conduct a produce and cream station and will handle all kinds of produce, buying cream for the Harding Ice Cream concern in Omaha and selling his other produce to different buyers according to who will pay the most. Pittsburgh, April 28.—"The greatest hope of a stricken world lies in the sturdy, hard-working, home-loving American," Vice President Coolidge declared in an address at the Founders Day celebration at Carnegie Institute. "Great as were Mr. Carnegie's benefactions in the development of the material and intellectual welfare of his fellowmen," the vice president continued, "his greatest achievement lies in the addition he made to their moral force."
"The question of human welfare," he added, "is not an economic question. It is a moral question. The ability is not lacking. It is the disposition—the moral force—that is lacking."

The Farmers' Grain Prices!

One year with another the farming industry is a prosperous one. Sometimes the prices go unusually low, but those times are usually followed by an advent of higher ones, due to decreased production. The people must eat, and the era of better prices is ahead. Do not slacken production, then, but be prepared to share in the coming prosperity.

To raise the most from you land and get the best returns, improved machinery is essential. We are carrying the best lines and can supply you with what you want. If you wait till prices advance, before you resume production you will have nothing to sell when the reaction comes. Enough others will fall by the way-side to assure a greater demand, and YOU cannot afford to pass up this opportunity. Better get the necessary machinery now and go in for a bumper year.
