They were Ernest Norris and Everett Rutledge, who while they were there also attended a ball game between the University of Nebraska, and that of Oklahoma, enjoying an excellent game. They are both interested in ball and were glad to have the opportunity to witness the game.

Paul Murdock smiles.

It would be no surprising thing that joy should reign throughout the household of John W. Murdock, when there arrived last Thursday at their home one of the liveliest young Americans, and who has given fair notice

that he will be a member of the household. The proud parents are overjoyed at the arrival, but nothing to the look of satisfaction with this Master Paul the elder brother is overwhelmed. All doing nicely and happiness reigns supreme in the household.

After the lodge was closed, they were all entertained by songs and readings, by the more talented members of the organization, after which a lunch of excellence, was served and enjoyed by all, which tuned them up to an important dance which followed. This organization is one of the best of its kind, the local lodge in conducting an intensive campaign to make it second to none in the village. Those in become members at the last regular meeting were Mr. and Mrs. Paulos, Waldo and wife, and Mr. Henry Feltes.

Nehawka Wins Over Murdock.

There were doubtful balances of right and wrong, there were enthusiastic rooters with endless tongues. When the two teams, one from Murdock, composed of a crowd of excellent fellows and the other the fit young men of Nehawka, met on the local diamond last Sunday. The game was one well worth witnessing. During the first part of the contest the visitors plainly had the best of the fight, but with the realigning of the forces of Nehawka, the gain was dissolved and an additional score to clinch the victory, which resulted in a score of nine for the visitors and ten for the home team. At the first game which these two teams played, the record shows, Murdock 29, Nehawka 9. The line-up of the Nehawka team was Griffin, pitcher, A. Johnson, first; Leland Hodge, center; Fred Miller, short; Hennings Johnson, third; Carper, right; Whitman, center; Kembion, catch; Everett Rutledge, left.

All Cars Selling Lower.
Among those who have recently made deep cuts in the price of their cars, the Chevrolet company are leaders for both the lesser and larger cars. This company which has built up a large national trade, is handled in Plattsmouth by W. W. Wasler, and who is offering this excellent auto at greatly reduced prices notwithstanding the same excellent work has been always kept in view in its manufacture.

Miss Boedeker Has Arrived.

A young lady weighing ten and a half pounds, arrived via the stark route last Tuesday to the city of Nehawka and immediately made inquiry for the home of Mr. and Mrs. E. A. Boedeker and took up her home there. She said she understood that the father had just purchased a new automobile and manifested a lively disposition in all its workings, expecting to enjoy the car a good deal, but also saying a small cab would be nice as well. Happiness in that household, well we should say so! Frank and the fond mother are pretty well pleased with the new auto, but nothing like the brightness and the smile which lights up their faces as when the little one coos and endeavors to communicate to them.

Science Class Visit Lincoln.

Last week the domestic science class of the Nehawka school, made a visit to Lincoln where they visited the state farm and many other notable places. They and their teachers, making fifteen in all, were taken in autos by Messrs. R. C. Pollard, E. M. Pollard, and Delbert Switzer in their cars. They all enjoyed the outing as well as the instruction they received.

Juniors Give Class Play.

Last Friday evening the Junior class of the Nehawka high school, gave their class play, known as "A Chance For Everyone," at which there was a large crowd to witness, hear and laugh at the excellent work the class put over. The faculty are to be congratulated in the excellent way in which they have succeeded in getting the proper training and understanding to the members of the cast. The members besides the play, participated in their grasp of the scheme of the play and their determination to master each essential of the entire play. The house was crowded notwithstanding the capacity of the auditorium in which the play was given. The program which was well given included besides the play, a number of very interesting specials. Following the overture by the orchestra, Miss Eva Burke favored the audience with an excellent solo which was followed by a reading by Miss Hazel Carper. Another solo by Mrs. John Hansen, followed by a class given by Miss Thomas history class, which was set in 1901. This was unique in the fact that it was a telling of where the members of the class would be at that time.

The cast for this was Lloyd August, Alta Duckworth, Merrill Sheldon, Edith Hansen and Ronald Schlichtemier, this making a decided hit with the good natured audience.

Mrs. Max Schaefer gave an excellent reading, which was followed by a solo by Miss Luella Black and a reading by Isadore Stone. The three possessed much merit and were given in a manner which pleased all who heard them.

POSITIVE PROOF

Should Convince the Greatest Skeptic in Plattsmouth

Because it's the evidence of a Plattsmouth citizen. Testimony easily investigated. The strongest endorsement of merit.

The best proof. Read it: Wm. Hassler, proprietor blacksmith shop, corner 5th and Main streets, says: "I know the straining work I have had to do most of my life as a blacksmith is what caused my back to weaken several years ago. Many times I have been down shoeing a horse, when a sharp stitch would take me through my kidneys and hurt me severely. My back was stiff and lame at times, too. I started to use Doan's Kidney Pills and they soon corrected the trouble and made my back strong again. About two boxes of Doan's Kidney Pills from Weirich & Hadraba's drug store was all I had to use. I can work every day now and give Doan's the credit for my good condition. I always keep Doan's on hand and take them occasionally to keep my kidneys well and they never fail."
