## Assets That Interest Everyone!

What are the greatest assets of every community? They are the children of the community.

There is but one way to make the most of these assets and that is by education.

Keep them in school and start their economic education by opening an account for them in this bank. Teach them to save and they will have the principal element of success ingrained in them.

We welcome Children's accounts.

This looks good to us and we are convinced that the work of carrying his school studies and mastering the radio required much hard work, but we are assured that the young man has a great capacity for hard work, working when he works and then playing when he plays. We are sure pleased to know of his success and expect that he will make good in his chosen avocation.

On Monday he was called to Weeping Water, where he made the principal memorial address before a large crowd that had gathered to pay honor to the heroes of three wars. Alumni Enjoy Banquet. The Alumni of the Union high school enjoyed a banquet at the parlors of the Baptist church last Saturday evening when the ladies of that church served a four-course supper to the forty-three who were invited to attend.

A most interesting program was prepared which was well worth while and was enjoyed by all who attended. The address of welcome was given by Miss Fannie McCarroll, who was one of the graduates of the class of 1915, or the first class to graduate. Miss McCarroll extended to all the members a hearty welcome which was responded to by Miss Marie Frans who is one of the graduates of this year, thus binding the series of years together. Miss Verna Harris had been chosen as the toastmistress and presided with dignity and efficiency and always has a word of encouragement for all. The program had been designed to give more light and the first speaker, Miss Neomi Maugay, spoke on "Light" and was applauded repeatedly, for her witty applications of her subject to ordinary life. She was followed by Mrs. Mary Austin Applegate, who spoke on the topic of "Headlight," and further explained by percept and illustration the necessity of a better light. Mrs. Robert Roddy had been assigned the subject of "Flash Light" and brought more light on the subject of light, than it was thought there was in it. She was followed by Miss Delorus Dvart, who spoke on the division of "Spot Light" and illustrated her story of the light question by many an apt allusion of the matter and drew attention to how many were endeavoring to get into and stay in the spot light of public favor. Ralph Pearsley was allotted "Electric Light," and let the audience along from the candle to the most perfect artificial light which the age has known. He also brought the listeners along from the darknesses of the past to the enlightenment of the present. The last speaker was that of the superintendent, C. E. Severson, who summed up the excellent addresses made by the previous speakers under the subject of "Sun Light."

The tables had been decorated with colors of the Alumni, which were red and white. Those in attendance at the Alumni banquet were the class which is graduating this year, and which consisted of Misses Marie and Eula Frans, Fern Deles Deyner, Alice Todd, Winona Doyard, and Messrs. Have Two Teachers. The board of education has elected a number of teachers for the coming year, but as yet there has but two signified their intention of accepting the positions.
