The pure bred hog is one of the most profitable pieces of farm machinery the farmer can buy. He may get a fiver or a tractor for a thousand or less. But it will not work unless he is in the field with it, and sometimes not even then. He may use it for many years, but when it is old it leaves no litter of young tractors on the farm to take its place.

The good old sow is equipped with a self-starter. She is as near automatic and fool-proof as any machine the farmer will ever buy. She works rainy days and Sundays. When hands are scarce she will harvest the corn or other crops and pay well for the chance to work.

"Possibly we farmers are not lazy enough. We work too hard to make a little, when live stock would do much more."

"Can a farmer afford a pure bred sow? Possibly he cannot afford to be without one."

The cattle averaged 1665 pounds and brought \$8.15 per hundred. They had been fed approximately nine months, gaining an average of 620 pounds each and it was estimated by the experts at the stockyards would make 64 per cent dressed weight. ## FORD IS BEHIND THE DISARMAMENT PLAN

Expects to Aid Harding in Removing War Causes—Lays Blame on the Munition Makers.

Washington, July 25.—Henry Ford is solidly behind President Harding's disarmament program. The automobile manufacturer plans to assist the president in removing the causes of war with every resource at his command.

This developed as the result of a frank informal talk between the two during the week-end camping expedition in the Maryland hills.

Ford outlined his disarmament views in an exclusive interview during a quiet hour at the camp.

Munition makers and international bankers, Ford believes, are trying to keep the war game alive. His plan is to turn the spotlight of publicity upon them and bring the force of public opinion to bear down on anyone who attempts to obstruct the disarmament program.

"The munition makers were responsible for Germany's arming to the teeth," Ford said. "Now they are trying to do the same thing with Japan. With Germany gone they are trying to find another reason for keeping up the war business and at present they are trying to use Japan as an excuse."

Ford was sitting on the edge of an old broken down bed in a deserted log cabin on the camping enclosure. He had thrown off his coat revealing a stout pair of old fashioned spectacles. His lean figure became tense as he talked.

"If we get anywhere with this disarmament business every man has got to put his soul into it," Ford declared. "I think the president is taking exactly the right course. I'm for him absolutely in this."

Ford discussed the alleged "banking ring," but declined to mention names for publication.

"But there is a ring of bankers—a world ring—that is causing all the trouble," he said. "They work in Washington, in London and all around the world. It was that kind of a ring around the kaiser that got Germany into trouble. They put up the money, munition makers make the guns, powder, and the people get killed and maimed."

Ford took opportunity to indicate that he felt his views regarding the Jewish race had been misstated.

"I have hundreds of Jews working in my plant at Detroit," he said. "I'm not talking about that kind of people. It's those who are in the international banking ring that I'm fighting."

## SMALL SEEMS TO HAVE WON CASE

Sheriff Declares He Will Not Use Force to Bring About Arrest of Illinois Governor.

Springfield, Ill., July 25.—Governor Linn Small today apparently had won his fight to force postponement of his arrest and trial on charges of juggling \$10,000,000 in state money until after his term of office expired.

Sheriff Henry Mester of Sangamon county, on whose shoulders will fall the duty of serving the warrants declared he would not use force in efforts to arrest the indicted governor.

Mester's statement brought relief to the state capital, where pictures of armed clashes between state militia called to protect the governor and sheriff's deputies, vividly drawn in reports and rumors, has kept the populace on edge.

The sheriff asserted he would make an honest effort to serve the warrants, if so instructed by the court.

May Worry Governor  
"I may cause the governor some worry," the sheriff said. "I will try to use diplomacy and tact, but I will not use force."

As it will be necessary for force to be used to bring Small into court so long as he continues his present attitude, it was apparent the situation would rest at that rather indefinite state until the governor has completed his term of office or is willing to submit to arrest.

Even if the sheriff or his deputies should reach the governor personally and read the warrant to him, the executive would probably ignore it and not go to court unless he was forcibly taken. This the sheriff stated he would not do.

Sheriff Mester, a huge man who could probably pick the governor up with one hand and carry him into court, if he wished, said he was sure there would be no trouble.

Judge E. S. Smith is expected to hand down his decision tomorrow holding Small subject to arrest and ordering the sheriff to take him into custody. The sheriff will probably notify the governor that he holds a warrant for his arrest, and there the matter will drop, if the governor doesn't change his mind and decide to stand trial.

## MAY ACCEPT HOOVER'S TERMS

Riga, Latvia, July 25.—The telegram sent by Herbert Hoover, as head of the American administration with reference to aid for the starving and sick of soviet Russia was handed to M. Ganetaki, soviet minister to Latvia, and forwarded by him to Moscow this morning. Altho the decision rests with Moscow, the opinion is expressed in soviet circles here that Mr. Hoover terms probably will be accepted.

Soviet officials in Riga resent the offer as being conditional on the release of prisoners. One characterized it as "weighing seven or eight prisoners against a million lives." But he expressed the opinion that the soviet government probably would accept.

## HOOVER FOR BROAD-ER FINANCE POWERS

Secretary of Commerce Suggests Law to Effect Readjustment—Sub for the Norris Bill.

Washington, July 25.—Legislation to broaden powers of the war finance corporation, enabling it to handle the triple financing problems of the railroads, farm credits and export financing was suggested today by Secretary Hoover in effect economic readjustment throughout the country. Mr. Hoover said he had recommended such a step with the approval of Secretary Mellon and Eugene Meyer, Jr., managing director of the war finance corporation.

It was believed in administration circles that President Harding, in his note to congress tomorrow on the railroad financial situation would present a proposal of this nature.

A substitute for the Norris bill was introduced by Senator King, democrat, Utah. It would increase the war finance corporation's revolving fund to \$1,000,000,000 and authorize loans for agricultural exporting. Such loans also, under the substitute bill might be made by bankers upon secured collateral.

Another substitute for the Norris bill by Senator Sterling, republican, South Dakota, designed to broaden similarly the war finance corporation's powers to make agricultural financing loans, also is pending and discussion of substitute legislation is expected to develop tomorrow in the senate.

## AMERICA BAD AS RUSSIA

Tokio, July 24.—The Hochi Shimbun, referring to the deportation of Japanese workers from the harvest fields at Turlock, Cal., declares that "such organized crime is a disgrace to America, which stands for humanity and justice." The newspaper adds that it is "barbarous, uncivilized."

The Yozou Choho urges the government to negotiate the situation with the United States, pointing out that Japanese have the right to live in safety as provided by the treaty. "If the American government cannot be held to responsibility for this outrage," says the Yozou Choho, "it is no better than the Russian government."
