

Firestone

30x3 1/2 STANDARD NON-SKID

The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3 1/2 inch tire over a period of years has given us the volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 10,000 tires and 20,000 cubic feet cuts costs on every operation.

On May 2, we dropped our price to \$12.95 passing on to the car owner the full benefit of this big sales volume and this labor-saving plant. This tire has been our standard for years—four ply long staple fabric—extra gum between plies—heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gun-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and all the many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire history. 30x3 1/2, \$24.50; 32x4, \$26.50; 34x4 1/2, \$34.90.

ON SUCCESSFUL TOUR

Cards from the members of the Original Southern Rag-a-Jazz band, now quartered at 18 Charing Cross road in London, say the orchestra opened the fashionable Paris season with a dance Monday, July 18. The band is touring England and the continent this summer, playing in tea rooms and at theatres.

The orchestra is one of the favorite dance organizations in this country. The band is made up entirely of University of Nebraska students. The personnel follows: Bert Reed, of Kearney, who is manager and plays the trombone; Harold Peterson of Fremont, formerly of Omaha, the saxophone player; Gayle Grubb of Lincoln, piano; Edward Crossell of Buffalo, N. Y., violin; Dan Fairchild of Lincoln, banjo and Harold Schmidt of Elkader, Iowa, drums.

The Rag-a-Jazz organization will be remembered here through having played for several local dances early in the spring.

MERCHANTS' PICNIC TO BE HELD THE 18TH

Day Following the Community Bargain Sale will be Observed as Outing for Clerks Et Al

The plans for the merchants' and clerks' picnic are being rapidly matured and the prospects are that this will be a real event in every sense of the word if the plans of the committee go through.

The exact spot for the picnic has not been decided on as there are three under consideration and the committee finds it hard to make up its mind as to which would be the best. It is possible it is desired to have a spot where bathing can be made a part of the program of the day as a number of the merchants as well as the employees of the stores are enthusiastic devotees of the water sports and desire an opportunity to show what they can do in the swimming line.

It is also expected that a short program of races of various kinds will be given from which the crowd will derive a great deal of amusement and the men and women alike will be invited to participate in this feature of the day.

Each member of the party will be asked to provide their luncheon for the day but the merchants will see that there is lemonade, watermelons and ice cream on the grounds for the hungry and thirsty.

The business houses of the city almost without exception will be closed on Thursday, August 18th, the date of the picnic, in order that it may be made a real holiday for the T. B. M. and their employees. The occasion, however, is not restricted to the business in the city and any one who desires to attend the picnic may do so and the only thing that will be required of them is that they take their lunch along.

If you are looking for a good time remember that this occasion will give you a rare opportunity and is the only real outing that has been held here for many moons.

OMAHA GETS NEXT LABOR CONVENTION

Jonas Wangberg, of That City Also Selected President—Ask that Building be Resumed.

York, Neb., Aug. 4.—The executive meeting of the fourteenth annual convention of the Federation of Labor today selected Omaha as the place for the 1922 conference to be held the second Tuesday in August.

A resolution was passed urging all labor unions and labor delegates to request state, county and municipal governments to immediately make provisions to carry on such public works as they may now have under consideration.

Mrs. Merrile Pries, representing the Women's Trade Union Label league of Omaha, introduced a resolution which was adopted urging on women of Nebraska the great need of organization and the great good which may come from co-operation in efforts to secure just and equitable laws—state, national and municipal.

The assembly extended sympathy and pledged its support to the men and women of Ireland "to shake off the shackles of imperial government which tended, directly or indirectly, to promote these hardships and indignities."

The election of officers resulted as follows: Jonas Wangberg, president, Omaha; F. D. Campbell, first vice president, Hastings; Frank Naracong, second vice president, Lincoln; C. A. Steiner, third vice president, Omaha; W. F. Shubert, fourth vice president, Grand Island; Frank M. Coffey, secretary-treasurer, Lincoln; H. Elwood, assistant secretary-treasurer, Lincoln; legislative committee, T. P. Reynolds, chairman, Omaha; Mrs. Merrile Pries, Omaha and T. C. Birk, Grand Island; sergeant-at-arms, James Whiting, Omaha.

MILLION DOLLAR HAIL LOSS IN SASKATCHEWAN

Regina, Sask., Aug. 5.—Damage estimated at more than a million dollars was caused yesterday by a hail and wind storm which swooped down on an area of from 75 to 100 miles east and southeast of here. With winds down, details were meager to night. In one district, according to reports, a strip of grain thirty miles and five wide was crushed down.

ONLY MEMBERS CAN USE CO-OPERATIVE

Railway Commission Makes a Ruling On Grain Storage—To Refuse Space to Outsiders

The fact that the late legislature passed a law exempting co-operative owned and operated elevators that qualify as storage warehouses for grain from giving bond whenever prompted the state railway commission to require all such companies requesting licenses to amend their bylaws so they will store for members only. If they are not to give bond the outsider is not to be permitted to use them for storage purposes.

The commission has been receiving many inquiries about the present provisions of the law and has been impelled to make a public statement concerning it. This statement says: The 1921 legislature made drastic changes in the law, which are important, and the effect of which might be far reaching. It is presumed that the amendment was passed for the purpose of relieving co-operative companies from the inconvenience and expense of supplying bond. The amendment which is of importance, introduced by Senator Warner of Lancaster, provides as follows:

"Provided that any warehouse owned and operated by a co-operative company association, partnership or corporation which stores grain for more than ten days for members of the aforesaid company, association, partnership or for such corporation, and for such member only, shall not be required to give the bond aforesaid."

The amendment did not carry the emergency clause and did not become effective until July 28.

This means that all co-operative companies storing grain must make application to the commission for warehouseman's license, must submit monthly reports of grain held in storage to the commission, but need furnish no bond, of course, the real value obtaining from the law comes from the furnishing of a strictly co-operative companies should know that their grain is stored in a protected way and is not required by law and on file with the railway commission. It is understood that some such companies require bond be furnished by the manager. However, the requiring of such bond from the manager is optional with the company. The commission is requesting license, without supplying the bond, to adopt appropriate bylaws providing for the storage of grain for members only.

"The present law is very specific and defines storage grain as any grain which is held by the elevator or warehouse for a period longer than ten days without payment therefor being made. At the present time, forty-five warehouse licenses are in effect. Perhaps, nine of these are issued to co-operative companies which under the old law were required to furnish bond. The commission has been in the field who are constantly checking on grain elevators and warehouses for violation of the law. The greater number of licenses are held by stations in the southeastern part of the state.

"Since many violations have been discovered, usually due to the fact that grain has been held for more than ten days without payment for same being made, and it not being regarded by the company or grain owner as stored grain. In such cases the elevator has made application for license, or has immediately adopted the policy of making payment for grain within the ten day period."

NOVEMBER 11 SET FOR THE BIG PARLEY

Delegates to Convene That Day Unless the Unexpected Should Develop, Japan May Accept

Washington, D. C., Aug. 4.—Unless unexpected opposition develops, the international conference on disarmament and Far-Eastern subjects will begin November 11, Armistice Day.

Great Britain's formally expressed willingness to accept any date agreeable to United States led today to the extension of the definite suggestion to all the invited powers that they convene on that day.

It is understood unofficially Japan will offer no objection, although Tokyo would prefer a slight delay merely to facilitate compilation of material for its representatives.

France and Italy, it is understood will join the British government in prompt acquiescence.

Press dispatches indicating Great Britain's willingness to leave to the United States the determination of the subjects to be discussed were said to be indicative of the spirit of accord manifested.

The American government has made it plain that it has felt that the nature of the agenda should be outlined in advance of the conference if possible.

The foreign representatives here are in consultation with their home offices and are expected to continue the interchange of communications with the state department concerning the subjects to be brought before the conference.

It is possible that the question of Yap may be solved before the conference.

It is understood the Japanese ambassador has indicated to Secretary Hughes that he is prepared to proceed with the discussion and negotiations have been at the state department that Yap might be eliminated by prior adjustment.

Poultry Wanted!

THURSDAY, AUGUST 11

A car load of live poultry wanted to be delivered at poultry car near the Burlington freight house, Plattsmouth, on Thursday, August 11, one day only, for which we will pay the following:

STATE LABOR BODY RAPS GOV. M'KELVIE

Criticizes Executive For Creation of Expensive Capitol Commission For Capitol Building

York, Neb., Aug. 5.—Governor McKelvie was severely criticized in this morning's session of the fourteenth annual convention of the State Federation of Labor for the creation of the capitol building commission which hired a New York architect at a salary of \$25,000 a year to draw the plans for the new capitol and allowed the same concern seven years to complete the contract.

The federation further alleges that the office of the architect is maintained in New York which necessitates a great expense to the state when consultations and information pertaining to the plans and construction must be had immediately.

The federation argues that Nebraska should be equipped with machinery and labor to handle it.

The federation claims the governor should have used his influence and power to prohibit such action of the parties who had charge of this business.

The federation further alleges that the governor allowed the state to hire a man at an enormous salary in Missouri to revise the statutes when Nebraska is "full of capable lawyers."

The printers' forty-four hour a week question was referred to the resolution committee.

A resolution was introduced relative to goods manufactured by the convicts at the state pen, and urged the assembly to indorse the action as given out in the house roll and bill under consideration by the last legislature.

The bill deals with merchandise being transported from one state to another and the federation claims that convicts' goods should be controlled according to the laws governing the state in which the goods are transported.

President C. P. Birk of Grand Island delivered his address this afternoon and appointed committees to report at tomorrow's session.

The election and closing session will be held tomorrow.

DISTRICT JUDGES WITHOUT POWER

State Constitution Cited by Attorneys Upholding Fort Crook Paving and Bread Enactments.

Asserting that the district court of Lancaster county has no jurisdiction to pass upon the constitutionality of a law passed by the legislature, Attorney General Clarence A. Davis and Assistant Attorney General C. L. Dert have filed an answer in which they point out that article five, section two of the new state constitution provides that no legislative act will be held unconstitutional except by the concurrence of five judges of the supreme court, and that the judges of that court sitting in division, shall hear and determine all cases involving the constitutionality of a statute.

"Wherefore, the district court of Lancaster county is without jurisdiction to pass upon the constitutionality of H. R. 623," concludes the answer. The same answer is filed in the matter of H. R. 24, the article five, section two of the new state constitution provides that no legislative act will be held unconstitutional except by the concurrence of five judges of the supreme court, and that the judges of that court sitting in division, shall hear and determine all cases involving the constitutionality of a statute.

MAKES COMMENDABLE SUGGESTION

Friend of Movement Urges Washington Avenue Park be Known as "Hero Park" when Ready

Editor Plattsmouth Journal:

While so many suggestions regarding the proposed new city park are being made, perhaps one more would not be amiss.

Why not make this a memorial park as is being done in so many places? Let every man, woman and child here have a chance to help. Take the winter to raise the funds, and those in charge can ascertain just what would be the best plan for this special location, and make it something really worth while. It is not very large and with proper handling could be made a little gem.

Let the school children help. The Boy Scouts and the Camp Fire girls, and perhaps the ladies of the Red Cross, who had so much experience in organization, would help. Take the time to raise sufficient funds and do it right.

A granite slab could be placed in the hillside with the names of Plattsmouth heroes on it, and the travelers who might find shelter and comfort there and the little children growing up, would thus become familiar with the names of those who fought and died not for strangers in a foreign land, but that the little children could always play in peace in the little old home town. Now every body—all together for "Hero Park."

A PLATTSMOUTH MOTHER.

LEAVES FOR WEST

Mr. R. C. Hitehman, who has been connected with the T. H. Pollock Auto Co. for the past five years leaves for Blair this week to enter the banking business with his brother, Chas. Hitehman formerly cashier of the Live Stock National Bank of South Omaha.

The Hitehman brothers have purchased the controlling interest in the Farmer's State Bank of Blair and have removed to the fine building formerly occupied by the Castetter Banking House.

"Brownie's" many friends in Cass county will wish him success in his new venture regretting very much at the same time to see him leave Plattsmouth where he has made a host of friends.

GOVERNMENT TO AID MERLE HAY'S PARENTS

Glidden, Ia., Aug. 5.—The bureau of war insurance came to the aid of the parents of Merle Hay, Iowa soldier who was killed in France November 3, 1917. The father is a nervous wreck, the aged mother is bending over the washtub to earn money to buy food.

At the instance of Senator Kenyon back compensation for \$450 is granted the father, with \$15 a month compensation. The mother will receive \$15 per month and \$25 per month for insurance money, or \$55 per month for the family.

J. B. Hungerford of Carroll recently visited the family and wrote Senator Kenyon telling of their pitiable distress.

FREE TRIP TO CONVENTION AT FREMONT

Legionaire Securing Most New Members Before Sept. 7th to Have All Expenses Paid.

Some member of the local American Legion post is going to get a free trip to the state convention with all expenses paid. In addition to this he will have the honor of representing the post as delegate at large at the big gathering at Fremont.

At the meeting of the Legion executive committee last night it was voted to give this trip to the person securing the most new members to the post, beginning tomorrow and continuing to and including September 7th. At the post meeting of that night the name of the successful contender will be announced.

There are a considerable number of ex-service men in the community who do not belong to the Legion and it is hoped the contest will result in further increases in the membership which is now well over that of last year. The names of those wearing a list of these eligibles, which will be displayed on the bulletin board tomorrow for the benefit of those who enter the contest.

If the drive proves the success it should the Plattsmouth post will go to the convention with as many delegates as any in the state with the exception of Omaha and Lincoln.

Bulletins will be issued at frequent intervals showing the standing of the contestants and displayed on the post's bulletin board.

and grown-ups are on sale at the Journal office.

LODGE MEMBERS HELP IN SEARCH FOR MASON

Ogden, Utah, Aug. 4.—Members of the Elks lodge and the Kiwanis club of Ogden were to assist in the search today for Roland R. Mason, secretary of the Kiwanis club of Idaho Falls, Idaho, whose wrecked sedan was found partially submerged in the river on a thirty foot embankment in Weber canyon. Arrangements were made to close the gate of the dam to lower the level of the stream.
