Rouse, of the Adams Paper company, Waterloo, Iowa, or Ward Lucas, of the Haynes-Lucas Lumber company, of Winona, Minn.

### An Improvement Needed Badly.

J. S. Doughty and A. J. Tucker were visitors in Plattsmouth and Omaha last Thursday, where they were obtaining information and cost estimates relative to the establishment of an artificial ice plant in Nehawka.

The ice problem has been a serious

one here this season, as well as elsewhere over the country not having artificial plants. There is no assurance of a natural ice crop again this winter, and in fact the past several seasons have been unproductive of such ice making weather. The establishment of a plant here would add greatly to the town and from it ice could be supplied to Union, Avoca and the surrounding community which now have to import their measure supply from towns much further away.

Everyone interested in this community should encourage the establishment of a plant here. We believe it could be made to pay good returns from an investment standpoint and it would certainly be welcomed from the necessity standpoint.

### They Went to Court

### Nehawka Won from Julian

The Nehawka ball team went to Julian Wednesday and there demonstrated their superiority as players of the national game, when they won, 8 to 5. Griffin was in the box and Kenlon did fine work behind the bat. About all any one of the Julian pitchers could hold out was two innings, when they had to be relieved.

### Enjoyed Musk Melon Party

A good time, as everyone knows, is when you enjoy yourself, and it doesn't have to be on a national hol-

iday either. Last Wednesday there were gathered at the Maple Grove school a crowd of merry young folks bent on having just such sort of a good time as we have described they had come to feast on watermelon, but the fact that none could be secured did not dampen their spirits. Instead they readily substituted musk melons and the slaughter was begun. Before the feast a very pleasing program, and the event proved highly successful along the line for which it was given, namely, to raise some money for the purchase of a new piano for the school house.

### Very Enjoyable Meeting

Music, games and a general good time sped the fleeting hours of the evening all too rapidly to suit the fancy of the merry-makers. A delicious luncheon added to the pleasures of the occasion and was enjoyed by all.

### Conducting a Safe Business

The Bank of Nehawka, which is conducted by two of the most careful business men of Cass county, D. C. West and F. A. Boedecker, is doing a very nice business consistent with

their policy of conservatism. Many instances have come to light during the past few months of banking institution going on the rocks, because, as the reports almost invariably state, of extensive frozen credits on which it is impossible to realize quickly. Nehawka is fortunate in having a bank that is free of this sort of credits and which loans its surplus to worthy local business institutions at a reasonable rate of interest. That is, after all, the prime mission of banks, although many of them prefer to take chances on higher returns by investing their money

in frozen credits and far-off enterprises.  
**Two Busy Blacksmiths**  
Mutt and Jeff, otherwise known as Tommy and Warren, the blacksmiths, have been going some the past few days. Last Tuesday morning there were 137 plow blades piled about on the floor of their shop for sharpening and minor repairs. By evening every one had been sharpened and polished. If you think they aren't two busy blacksmiths just step into the shop, that is if the work isn't piled up so high you can't get in.

**Had Fun at Their Expense**  
Last week some of the fun-loving youths and near-youths about town induced several of the young men to try and acquire a big, luscious watermelon which grew in a nearby field, and while the boys were searching for the melon, the crowd in waiting fired off some guns and at the same time threw beans at the intruders, striking them in the face, and affording the sensation of being peppered with shot, but minus the injurious effect of the latter. The boys, who were not aware of the joke perpetrated at their expense, showed a burst of speed it was never before thought they possessed. No particular harm was done but a hearty was enjoyed by all those "in" on the fun.

**Good Game for Sept. 4th**  
A good game has been arranged for Manley a week from next Sunday—September 4th—when the Omaha Wild-Cats, one of the fast teams of the metropolis, is to cross bats with the Manley team.
