SHOP CRAFTS REJECT RULES OF RAIL BOARD

MEN ADVISED TO REMAIN AT WORK, BUT "IN PEACE TO PREPARE FOR WAR."

Chicago, Aug. 26.—Rules governing the payment of overtime rates, promulgated by the United States railroad labor board last week to supplant the overtime rules of the national agreement covering shop crafts employees, were rejected as "unjustified" by a conference of regional executive boards of the railway employees' department of the American Federation of Labor today.

The letter today reviews the rules controversy, pointing out that notwithstanding the railroads' request for separate negotiations with their own employees, only three small roads had completed agreements with their men. The unions had contended for a national conference and adoption of a uniform set of rules for every road in the country.

Dissatisfaction that but seven of the 186 rules of the national agreement had been passed upon by the board was also expressed.

Intention to urge the board to dispose of all general rules immediately was expressed. "Until all the rules are promulgated, the executive boards decided to adjourn before taking any final action."

If "A satisfactory settlement is not obtained and the membership by vote supports the position of this body, there will be need for the use of the full power and strength of these organizations in collective action," the letter said.

"With this conclusion firmly fixed in our mind, we hold it to be the duty of each individual member to 'in time of peace prepare for war' and each of you are, therefore, requested to carefully conserve your personal finances, secure supplies of food, clothing, fuel and other household necessities."

The signatures of all the presidents of the six shop crafts unions appear on the letter.

A letter was sent today to all locals, conveying the results of a three-day conference just concluded.

"By no conceivable line of reasoning," the letter said, "can Section 222 be justified and this body declines to accept it."

All union members were warned, however, to remain at work until further official action is taken by union officials. The letter advised that it was considered best to wait until the labor board had issued suitable rules for the entire national agreement before taking a referendum vote on the matter.

The seven rules announced by the board last week cover payments for overtime, Sundays and holidays. A number of radical changes were made and labor leaders declared the

FORMER PLATTS-MOUTH MAN SUED

Frank S. Gorton Defendant in Divorce Action Filed in Otoe Co. District Court.

The following from the Nebraska City Press of Friday gives an account of the matrimonial differences of a former Platts-mouth man, who is well known to a large number in this community:

"Mrs. Julia A. Gorton, of Dunbar, yesterday filed her petition in the district court asking for a divorce from her husband, Frank S. Gorton."

"In her petition she alleges that they were married August 29, 1919; that no children were born to them; that defendant had been guilty of extreme cruelty by talking abusively to her, by refusing to allow her to take care of her children by a former marriage when said children were seriously ill, by rudeness and coarseness of manner and language toward her in the presence of her said children, thereby causing plaintiff great embarrassment; by false accusations against her, accusing her of theft and stealing; by threats of physical violence against her, threatening that he would shoot her; by ordering her to pack up her clothes and leave and go to her former home and by a course of such excessively vicious conduct toward her that she was no longer able to live with him, and left his said home as a result of said unwarranted and cruel treatment on or about February 8, 1921."

"She prays for suitable and proper support during pendency of suit, suit money and attorney fees, and prays for a decree of separation or divorce from bed and board from the defendant and judgment for support of plaintiff."

"Both parties are well known in this community, where they have resided for years."

Mrs. Neal held on charge of murder. Auburn Woman Bound Over to District Court—Bail Fixed at Fifteen Thousand.

Auburn, Nebr., Aug. 26.—Mrs. Luella M. Neal, 35 years old, was held to the district court this afternoon by Justice of the Peace S. W. Eustice, charged with the murder of her husband, Bennington Neal, 62, the night of August 11.

Justice Eustice fixed her bond at \$15,000, which her attorney said would be furnished.

Mrs. Neal was taken into custody by Sheriff Charles Davis until the bonds were approved by the court.

Attorneys Lambert and Hawky, representing Mrs. Neal, made impassioned pleas to the court that Neal had committed suicide.

Elsie Turner, 17, daughter of J. J. Turner, Wood Siding, Neb., identified the gun which Mrs. Neal is accused of using as the one she saw in the bedroom of Ava Neal, 15, July 17, when she visited the Neal home with her sister, Zetta.

"Can you identify this gun," Ernest Armstrong, county attorney, asked the little girl.

"Yes," answered the girl boldly and clearly.

Maintains Her Story. On cross examination by H. A. Lambert and Fred Hawky, attorneys for the defense, Elsie's story could not be shaken.

"I went to the Neal home July 17," she testified, "to get some paint brushes for my father. My sister, Zetta, went with me. We went into the home, talked with Ava awhile, Ava asked Zetta to put her name in a little book. She went into her bedroom for a pencil and opened a box. In the box I saw the gun."

Chamberlain's Colic and Diarrhoea Remedy

This is unquestionably one of the most successful medicines in use for bowel complaints. A few doses of it will cure an ordinary attack of diarrhoea. It has been used in nine epidemics of dysentery with perfect success. It can always be depended upon to give prompt relief in cases of colic and cholera morbus. When reduced with water and sweetened it is pleasant to take. Every family should keep this remedy at hand.

REAL HOT WEATHER

The cool spell of a few weeks ago had led the long suffering population of this section of the country to trust perhaps that the hot weather was over but it seems that this was a mistake and for the last week the weather has been as hot as at any time during the summer. The temperature has ranged from 95 to 97 all this week and the prospects are that that record may be even surpassed.

RETURNS FROM STAY AT EASTERN SCHOOL

Miss Mathilde Soennichsen Has Been Taking Special Course at New York University.

After a course of study covering a period of several months, Miss Mathilde Soennichsen has returned from New York, where she was in attendance at the New York University summer school. The course taken up by Miss Soennichsen was a pioneer in its line—that of store organization, management and the handling of textiles, which is an important part of the buying end of the present day store management.

The course of study was very interesting throughout and provided Miss Soennichsen with many helpful ideas as to the conduct of the retail dry goods trade that can readily be applied to the big Soennichsen store in this city. The university of New York is the first to make this line of instruction one of their listed courses of study and it proved more than attractive to the members of the classes enrolled.

After completing the school work, Miss Mathilde enjoyed a few days outing by visiting Boston and other points in New England before returning to her home in this city.
