UNIONS BEGIN OFFENSIVE

New York, Sept. 16.—A counter offensive against the "open shop" movement, to center in the southern textile district was being mapped out here today.

The united textile workers of America, with the backing of the American federation of labor, will launch a campaign the last of the present month to organize the southern textile mills.

In the face of wage cuts in practically all industries, the textile union will seek not only to eliminate reductions already effected in the south, but to force wage increases in many instances.

OPPOSITION TO THE TREATY DEVELOPING

Some Republican Senators Opposed to German Pact on Ground that it Entangles U. S.

Washington, Sept. 16.—Opposition to the Harding treaty of peace with Germany was understood today to have developed in republican senatorial ranks on the ground that the pact entangles the United States in European affairs almost as much as the league of nations covenant.

How far this opposition will be reflected in votes of republican senators is uncertain. Criticism of the pact is not confined to senators who were irreconcilables on the Versailles treaty, however.

Senators have been studying the new treaty for several weeks. In several instances they have consulted their colleagues about its provisions. A number are convinced that the treaty ties the United States into the Versailles treaty as surely as if the senate had ratified that instrument.

It is significant, however, that no republican senator, irreconcilable or moderate, is ready at this time to state his opposition publicly.

Democratic opposition is expected as a matter of course.

BRYAN PLEADS FOR FARMERS.

New Orleans, La., Sept. 16.—Because of the sudden fall in prices of farm products, and because other prices have not fallen in proportion, the condition of the farmer is worse today than it has been in thirty years, declared William Jennings Bryan in an address before the interstate farm congress today. Mr. Bryan declared the farmers "must stand united against the present efforts to shift the burden of taxation from the privileged few on the masses. The obvious purpose of the revenue bill now under discussion in congress is relatively to decrease the taxes of the rich and relatively increase the taxes of the poor."

"The revenue bill, as it passed the house, removed the tax from excess profits; that is, profits that are excessive, and bestowed upon the profiteers a gift estimated at \$450,000,000," said Mr. Bryan.

GOVERNOR SMALL ASKS FOR CHANGE OF VENUE

Springfield, Ill., Sept. 16.—Petitions for a change of venue alleging prejudice and inability to obtain a fair trial were filed today with Circuit Judge Smith by attorneys for Governor Small and Vernon Curtis, a Grant Park banker. The governor is charged with embezzlement during his term as state treasurer several years ago and with Curtis also is charged with conspiracy to defraud the state.

ANNIVERSARY DAY IN MEXICO

Mexico City, Sept. 16.—The one hundredth anniversary of the proclamation of Mexico's independence was celebrated here today with parades and other festivities such as have marked the centennial festival in progress since the early part of the month. The celebration was ushered in at midnight by the usual anniversary demonstration in the downtown district, culminating in the ringing by President Obregon of the historic bell of Hidalgo and reading the independence proclamation.

The daytime festivities were begun with a visit by President Obregon to the cathedral, where he deposited wreaths on the urns containing the ashes of national heroes. Shortly before noon he reviewed a parade of thirteen battalions of infantry and presented each unit with a flag.

Bargain Wednesday!

Sure we have fine bargains in anything you want in our line, at the—

The Dusterhoff Shops,

MURDOCK -- -- -- NEBRASKA

As host to the delegates to the Washington disarmament conference it will be up to the United States government to pay the expenses. It is impossible to estimate what the cost will be, but it is certain to run into big figures.

Each delegation will be accompanied by dozens of experts, secretaries, etc., totalling several hundred. It would not be surprising if the conference lasted three months. According to one state department official, six months is not outside the possibilities.

One of the big items of expense will be the printing bill. The printing for one of the Pan-American conferences cost over \$100,000, and that was just a side-show compared with the conference that will start in Washington November 11.

The government charges that coffin makers have been guilty of profiteering. Well, anyway the folks who are in coffins won't kick. All of them are willing to let well enough alone.
