MAY TRY TO BLOCK A RECALL ELECTION

Non-Partisan League of North Dakota Talking of Going to Court with Case.

Bismarck, N. D., Sept. 19.—Decision on important questions bearing on the recall election campaign which opens in this state is expected to be made early this week by state officials. Among the first questions expected to be considered is whether court action will be taken by the non-partisan league to block the recall election, aimed at the governor, attorney general and the commissioner of agriculture and labor, which is set for October 28. Governor Frazier tonight said possible court action was a matter for the attorney general's office to decide, after investigation of reported misrepresentation and fraud said to have been used in obtaining signatures to the recall petitions.

Negotiations by the Bank of North Dakota of a loan of a half million dollars during the month ended September 15 was shown in the monthly statement of the condition of the bank made public today. The statement shows \$275,000 realized thru liquidation of claims against private banks and a slight increase in individual deposits. Registered checks were reduced by \$30,000 and liquid assets comprising deposits in correspondent banks outside the state and cash on hand increased \$122,599.

VOTE FOR SENATOR IS RUNNING CLOSE

Result in New Mexico Not Definitely Determined—Democrats Lead in the Southern Part.

Albuquerque, N. M., Sept. 20.—Returns received by the Albuquerque Morning Journal up to 9 o'clock tonight from the senatorial election today indicate that the southern part of the state is showing strength for Richard H. Hanna, democrat, and republican majorities are being cut down, while in the northern counties Senator H. O. Bursum, republican, is running strong.

On the basis of partial returns from a majority of the counties, O. L. Phillips, republican chairman, claimed the election of Holm O. Bursum by a plurality of 5,000 in a statement late tonight. Practically complete returns from the city of Albuquerque in the senatorial election today give: Bursum, republican, 1,652; Hanna, democrat, 1,986. Last year Hanna for governor carried the city by more than 1,000.

Silver City, N. M., Sept. 20.—Practically complete but unofficial returns indicate that Hanna, democrat, for United States senator, has carried this (Grant) county, by 250. Last year when he ran for governor, he lost the county by 221.

Roswell, N. M., Sept. 20.—Four precincts in Roswell give for United States senator: Hanna, democrat, 1,347; Bursum, republican, 646.

MOST ENJOYABLE DANCE

Last evening the Musical Merri-makers paid this city a visit and furnished the music for a most delightful dance at the Eagles' hall and which was attended by a large number of the young people of the city also the roads prevented a number from out of the city being in attendance.

This orchestra was formerly known as "West's Ballroom Boys" of Amesbury, Illinois, and have for the past season been playing at Brown's park in Nebraska City as well as at one of the parks at Falls City. They are one of the best orchestras that have visited the city and their selections while in the last and most jazzy time are all very pleasing to the music lover and the young men comprising the orchestra certainly are artists in their various lines and kept the crowd of dancers last evening at the height of enjoyment all evening.

They will play here for a dance on Wednesday, October 5th at Eagle Hall.

NEBRASKA CORN IS READY FOR A FROST

Harvest of the Crop in State will Begin Soon—Seeding of Winter Wheat is General.

Nearly all of the Nebraska corn crop is ready for a killing frost and the gathering of corn will soon begin. The seeding of winter wheat is general except where rains have caused delay and some of the earlier planted fields are up. Sugar beet harvest will start this week. Recent reports on the United States potato crop offer but little encouragement. This summarizes the weekly crop report of the state and federal bureau of markets and crop estimates. The report follows:

"About 95 per cent of the Nebraska corn crop has matured beyond danger of damage from frost. Husking or harvest of corn is expected to begin at any time within the first two weeks of October, depending upon the time of arrival of the first killing frost. There has been no change in condition except some damage caused by hail and high winds.

"The planting of winter wheat is general, altho the recent rains have caused some delay. Some of the early sown wheat is up. The average price of No. 2 wheat on the Omaha market last week was \$1.20, and the average price received by the farmer was 94 cents.

"The time of completion of plowing for winter wheat was somewhat earlier than the average, except in counties where severe drought caused delay. The time of plowing is one of the most important factors in wheat production and the rule is, the earlier the better. Last week's reports on the condition of the seed bed indicate insufficient moisture in a number of counties.

"The harvesting of the late commercial potato crop is progressing slowly but the rush will come before long. The summary of conditions of the late potato crop for the United States which follows does not offer much encouragement:

"Late potatoes show some improvement in northern and central states, due to recent rains, but it is feared that the setting of tubers is light. Recent frosts have killed the vines in Montana, but a fair to good crop is expected. No frost damage is reported elsewhere. The early crop is practically all harvested thruout the country and to yields have generally been reported. Harvesting of the late crop is in progress in some sections and very unsatisfactory yields reported.

"The average prices received by farmers for products during the past week are as follows: Corn 22, wheat 9.4, oats 23, potatoes \$1.38, eggs 23, cream 30, hogs \$7.10, grain fed cattle \$7.70, other cattle \$4.83. These averages are based upon the returns of weekly crop reporters."
