DEMOCRATS DIVIDE OVER THE TREATY

Sentiment Among Minority Group in Senate Against Pact, Senators State After Meeting.

Washington, Sept. 27.—A sharp division of opinion on the German peace treaty among democratic senators was disclosed today at a party conference which broke up without definite action on what attitude to take toward ratification.

Democratic Senator Underwood announced another meeting would be called for Thursday to discuss the pact.

Sentiment generally among the democrats, according to senators at the conference is opposed to the treaty. Some of them, however, it was said, while criticizing the pact, are inclined to vote for it "as the best of a bad bargain."

Some action is expected at the conference on Thursday after senators have had more time to study the treaty.

Senator Harrison of Mississippi, who is leading the democratic opposition to the treaty, declared that he found a growing support among the democrats.

Borah of Idaho, "irreconcilable," introduced a resolution in the senate asking the secretary of state to inform the senate whether the United States has now "any representative in any way connected with the reparations commission" in Europe.

The resolution is part of Borah's attack on the peace treaties.

POLICE OF CHICAGO REAPING A HARVEST

Proving Themselves Adept in Bootlegging—Get 6 Rakeoffs on Same Case of Whiskey

Chicago, Sept. 27.—A system thru which Chicago policemen were alleged to have obtained as many as half a dozen rakeoffs on the same case of whiskey was revealed today in the government's investigation of the police department, said by Chief of Police Charles Fitzmorris to contain 2,500 bootleggers, in a membership of 5,000. The request of the chief that the federal authorities help him clean house was placed before the federal grand jury with a score of witnesses, most of them policemen, testifying today.

One witness, according to officials, explained the system. Members of the police force organized in bands, he said, would obtain information as to shipments of whiskey to Chicago and then, in uniform, would rob the cars under the pretense that they were confiscating liquor.

The whiskey was then sold at fairly cheap bootlegging prices. When the liquor was delivered, however, a policeman always appeared and demanded a substantial amount from the recipient for protection. After the sum had been paid, other policemen would raid the place and after collecting another fee, would "confiscate" the liquor, resell it and repeat the process sometimes a half dozen times before turning the whiskey over to a favored saloon-keeper for sale at high prices.

Charles F. Clyde, district attorney tonight still was preparing a full report to Chief Fitzmorris in which he promises to name every member of the police force against whom he had evidence.

Replying to the statement by Wayne B. Wheeler, counsel for the anti-saloon league, that blame for lack of enforcement of the prohibition laws in Chicago lay with the city and federal officials, Chief Fitzmorris said:

"There is an old Arabian proverb that will reply to Mr. Wheeler. It runs something like this: 'He that knows not and knows not that he knows not is a fool. Shun him!'"
