Revival Meetings in Progress
The revival meetings which are being conducted at the Baptist church has aroused some interest and the evangelist, the Rev. Dabney, has been delivering a very telling discourse every evening. However, he is continuing the work with much vigor and consecration, and is being able assisted by the pastor, Rev. A. Miller. While the interest is manifest the meetings will continue and it is hoped that much good will result from the effort.

Union Schools Visit Omaha
Last Tuesday the pupils of the Union schools from the seventh grade up visited Omaha, where they inspected the smelting works, some of the principal bakeries and the packing plants of the city. This is for the purpose of securing by observation the exact knowledge of the plan of operation of these plants, and as a matter of fact, it is giving practical illustrations of the things which are learning in the schools. These occasional visits to some industry is a thing which adds much to the learning of the students, which is practical, and along with the knowledge which they get in schools, adds much to the real education of the students. The people of Union are very loyal in the matter of furnishing cars to convey these ninety students to Omaha, the board of education bearing the real outlay for gas and oil as well as the bridge toll.

REPORT IS UNFOUNDED
The report was received here this morning from Omaha of the death at Lincoln of Joseph McCoy, veteran Burlington engineer, following a stroke at Ashland yesterday morning while he was coming east on No. 24 to Pacific Junction. The report very fortunately proved unfounded as far as the death of Mr. McCoy was concerned altho he is still quite sick and confined to his home, but the many friends here will be pleased to learn that it is not as serious as first reported.

MEETING OF D. A. R. AT THE NEWELL HOME

State Regent Mrs. Charles S. Spencer Gives Talk to Members of Fontenelle Chapter.

From Tuesday's Daily
The members of Fontenelle chapter, Daughters of the American Revolution, were very pleasantly entertained last evening at the home of Miss Bernese Newell on North Fifth street. The evening was marked by the presence of Mrs. Charles R. Spencer, state regent of the D. A. R., and who has made her first visit to the Plattsmouth chapter.

The first part of the evening was devoted to the opening exercises of the chapter and followed by the review of the D. A. R. magazine by the local regent, Mrs. W. S. Leete, and was followed by the reading of the message of the President General of the society, who has just recently returned from Europe and in which she told of the conditions there. Mrs. L. O. Minor, leader of the local chapter, gave a short account of some of the early explorations and discoveries on the North American continent.

The address of Mrs. Spencer was very inspirational to the members of the society and covered the subject of the preservation of family records, and the research work to establish the family traces so that they might be preserved for future generations.

Mrs. Anna May Wooley was present at the meeting and exhibited an enlarged portrait of Mrs. Alvera M. Tewksberry, the only original daughter of the American revolution residing in Cass county, and whose death occurred a few months since. This handsome picture was enlarged at the factory of the Eastman Kodak company through the efforts of the local representatives, Messrs. Weich and Hadraba, and is a fine piece of art work in every way. It will be turned over later to the state society to hang among the historic pictures of the state.

The members of the local chapter have been divided into four groups, who will endeavor to secure records, entertainments, the funds for the purchase of a memorial tablet for the heroes of the late world war who were killed while in service. The ladies also received a very pleasing donation to the good cause from one of the prominent residents of Omaha, which was most gratefully received.

At the close of the evening refreshments were served by the hostesses to add to the pleasure of the ladies present.

BIG TYPE POLAND CHINA HOG SALE NEXT SATURDAY

Frank Anderson, Well Known Pacific Junction Breeder Offering 44 Head of Boars and Gilts

Fellow Breeders and Farmers:
I have always tried to be a constructive breeder of hogs. I have spared neither pains or expense to bring my herd up to the very highest standard of efficiency. I believe I have succeeded fairly well.

This offering I am selling Saturday, October 15th, will be as good as ever went through a sale ring in the corn belt. They are the real utility hogs—the easy feeding, quick maturing kind, but will keep on going until they get as big as cattle if you want them to.

A man said to me last winter that he did not like the Big Types; that they get too big and did not bring so much in the market. He would like to see them all to come of mungrel hogs and that they weighed 205 pounds and brought the highest price for that day. I asked him how old they were and he said ten to eleven months. Now, I would like to know why he fed that car of hogs five months for nothing. If they had been Big Types, they would have been twice that size and on a lot less feed, at that.

Now, listen: The 1st of August I cut 20 head out of this bunch I am selling. They were mostly barrows that I had used the knife on and were February and March pigs. They weighed 165 pounds in South Omaha and brought the highest price for that day. Yet, they had no extra fattening feed. Simply ran with the rest of the herd.

Now friends, don't you think it would be good business to come to this sale and get you some good seed stock? They are going to sell cheap—so cheap you cannot afford to let the opportunity pass. I have had some good patronage in the past from the Cass county boys and I wish to thank them for the same.

Would like to see them all with a lot of new ones at this sale, whether you care to buy or not. Come over, one and all, see the hogs and have dinner with me again. You will be made welcome.

Everything vaccinated.
FRANK ANDERSON,
Pacific Junction, Ia.

JOSEPH SCHLATER PASSES 90TH YEAR

A Pioneer of Cass County Where he Has Resided Since 1858, and Now Hale and Hearty

In the month of October, 1831, Joseph Schlater saw the light of day in his home in the old world, being born in Germany, and while a child of tender years, with his brother Conrad, was left an orphan by the death of the parents. The two children were cared for by an uncle during their early years and when eighteen years of age both the brothers decided to come to America and accordingly in 1854 they left for the land of promise in the new world, arriving at New Orleans on May 15, 1849, after a voyage of two months on the Atlantic. After reaching the port of entry the two brothers embarked on a steamboat and made their way to Cincinnati, Ohio, then one of the main cities of the river section and it was there they decided to locate. Joseph entered an apprenticeship as a watch repairer, having learned the trade of jeweler in his home in Germany, while the elder brother, Conrad, located at Richmond, Indiana, where he made his home for a number of years. In the year 1858 Joseph Schlater decided to seek his fortune in the state farther west and accordingly came to Plattsmouth, Nebraska, traveling by the usual steamboat route of the pioneers.

On locating in the city he established himself in the watch repairing business in the building now owned by Charles Martin and occupied by his law offices. Mr. Schlater sold the eastern portion of his lots to a Mr. Matthews, who erected a brick building and was for year engaged in the hardware business, the site of the store being where the Donat building now stands. After a number of years here Mr. Schlater removed to Hayes county, owning a farm there and established himself at Hayes Center, where he followed up his trade and rented his farm. In the meantime the brother, Conrad Schlater came west in 1859 and located near Louisville and some ten years ago Joseph Schlater returned there and resided in that city until a sister, Mrs. Mary Holt of Chatham, N. Y. was present as well as the two brothers, J. F. and John Miller of Omaha. Mrs. Ben Schlater and family who have just recently returned from a trip to Germany were also among those to enjoy the occasion.

One of the features of the banquet has been kept secret and this is one of the biggest events of its-kind that has been given in the city at any gathering and one that will bring the greatest pleasure to the young men of the class and the community at large. What this feature is cannot at this time be made public, but we assure the people of Plattsmouth that they will have a real treat such as they have very seldom enjoyed in the past.

Remember the date and make your plans accordingly to keep Tuesday, November 15th clear of all engagements.

CELEBRATES BIRTHDAY

From Wednesday's Daily.

Y. was present as well as the two brothers, J. F. and John Miller of Omaha. Mrs. Ben Schlater and family who have just recently returned from a trip to Germany were also among those to enjoy the occasion.
