One way to put rent down in Plattsmouth is to put up houses.

One way to lay by something for a rainy day is to stay on the water wagon.

When a married man buys flowers, the neighbors wonder what he has done.

Politically speaking, many first term overcoats are sure of re-election this winter.

One trouble with movie stars is that they seem to think that life is all twinkle, twinkle.

It is our unbiased opinion that Spain might win a war if she would pick an enemy she could whip.

What we don't understand about practical business men is that so many of them sell goods on credit.

Three Central American nations have become one, which seems to be a league of nations worth while.

It is said that Thomas Edison invented the phonograph by accident. Tom should have been more careful.

It is next in order for the reformers to wage a crusade against the stars because they lead such a wild life.

The high cost of living is also due to some extent to the high degree of intelligence it takes to be economical.

Of course every housewife thinks she has a hard time, but just suppose she had to shave her husband every morning?

Somebody ought to send Senator Newberry a \$50,000 cushion for that \$250,000 seat he occupies in the United States Senate.

Henry Ford is worth \$75,000,000. In other words he has given the people of the United States a shake-down for that amount.

The growth of the Ku Klux Klan suggests the thought that all the churches need to make them popular is a secret initiation and a disguise.

It would be quite appropriate for some of our teachers to inform school girls that short skirts do not form a short cut to higher education.

Public Mind contributor points that a consumer only receives so much money, and that the more the landlord gets, the less remains for the others lying in wait. That ought to awaken the butcher and the coal man and the clothier to the whereabouts of their true enemy.

It's a poor rule that doesn't work both ways. Many have got into the movies through notoriety, so it is time to get a few out the same way.

The only reason Babe Ruth has not knocked a whole flock of home runs in the world series is that the Giant pitchers won't give him a chance.

A lot of women have purchased new fall hats, but about the only difference we can see between a new hat and an old hat is the facial expression.

If it is true that marriages are really made in heaven, then why not charge the cost of the bride's trousseau and the honeymoon trip to the angels?

In estimating the number of unemployed persons in the United States, the statistical sharps failed to include members of the two houses of congress.

If one American dollar will buy one hundred German marks and one German mark will buy six hundred Russian rubles, no wonder food is beyond price in Russia.

Here's a new idea for an epitaph: "Here lies Ezekiel Abner Jones. May heaven rest his weary bones. He made himself a batch of brew, and then he took a drink or two."

It is difficult to tell which is the most disagreeable feature about a boarding house—the odor of cooked food in the hallways, or the odor of talcum powder in the parlor.

Society women in Tulsa, Okla., horsewhipped a manicurist who had been vamping their husbands. What is the use of being a manicurist unless you can vamp your patrons?

It is hard to describe the feeling of one who reads a book on the urgent recommendation of a man who lends the book with the pages in the last half of the volume still uncut.

"Cider must be hard to sell," remarks a Missouri contemporary. There are two ways of interpreting that sentence. For instance, read with a comma after the word "hard."

A certain married woman in this town whose husband is an enthusiastic golfer, says the brute married her merely to have somebody around to listen while he tells about his game.

Isn't it strange that even yet the whispered name of a 65-year-old, white-haired convalescent who lives on S. street in Washington can stir up consternation and fright in the Republican party.

Scientists tell us that within a very few years our homes may be heated with a few atoms. By that time, going by present tendencies, atoms probably will be selling for around \$24 a ton.

Mr. Arbuckle has been arrested again, but as the charge this time is only violating the Volstead law probably he will be able to show the law is unconstitutional when applied to citizens of Hollywood.

Premier Lloyd George may be able to attend the Washington conference, after all, it is learned. In other words, the prospects for a satisfactory disarmament conference with Ireland is, for the moment, looking better.

Methusalem lived to be nearly a thousand years old, yet he didn't know a darned thing about calories and vitamins, neither did he ever undergo an operation for appendicitis, have his adenoids or tonsils removed, or his teeth pulled out.

Something for nothing is hardly ever worth anything like what it costs.

It is getting cool already, and we may look for almost any kind of weather now.

It begins to look like the time is at hand when even the poor won't stay married.

One of the saddest things about the coming of winter is that the chaps who wear those beautiful silk shirts will have to cover them up with vests.

If the Ku Klux Klan is investigated by congress, as now threatened, the truth will never be known. Congress is not in the habit of finding the truth.

The Mexican government wants recognition and loan from the United States, and seems to have the correct idea of the order in which they must come.

There is no danger of a war between the United States and Canada. The Canadians could never get over the piles of empty whiskey bottles along the border.

Thanksgiving is over a month off, and the turkeys are already beginning to roost on the topmost limbs and hard to reach with less than three silver dollars.

The German mark is now worth eight-tenths of one American cent. Even at that low price, we cannot conscientiously recommend the German mark as an investment.

Foreign countries are not taking enough of our goods because we charge too much for them. And that is chiefly what's the matter with trade, but congress is too blind to see it.

What the European countries seem to want is the disarmament completely in America, while Germany is secretly preparing for war. That's what visitors in Germany from this country, say.

Congressmen don't have as much say about the selection of postmasters as they used to have. But the opportunity of doing other useful work hasn't been taken away from them, as many seem to suppose.

Anyway, it is thoughtful of the railroad brotherhoods to get ready to go on a strike when there is such a large number of unemployed persons in the United States who would like to take those nice jobs.

The lawyers in an Italian city have gone on a strike because of irregularities in the courts. If that happened in this country some of our most prominent mills of justice would have to shut up shop.

SUPREME COURT FINDS FOR PRESTON

Case From Otoe County Reversed And Charge of Abandonment Held to be Ineffective

From Saturday's Daily.
The state supreme court in taking up the matter of the case of the state of Nebraska vs Elmont Preston, appealed from Otoe county, yesterday handed down their decision reversing the sentence of one year in the penitentiary which had been given Mr. Preston at the trial in Nebraska City.

The case originated in Kearney where the Preston family resided and where the defendant was engaged in the garage business. The wife returned to her parent's home at Nebraska City and remained there and while there the child of Mr. and Mrs. Preston was born. Later charges of abandonment of the wife and child were filed in Otoe county and the young man brought to Nebraska City for trial and after confinement in jail for some time was tried and found guilty. At the trial it was brought out that while Mr. Preston was on a hunting trip the wife purchased a rug that the husband, on his return, compelled her to send back to the dealer from whom she had purchased it and thereupon she returned to the home of her parents and remained there.

The court held in reversing the case that in view of the fact that the wife had gone of her own free will to Nebraska City and remained there instead of at the established home at Kearney that the defendant was not guilty of abandoning the wife or child.

Mr. Preston is well known in this county where he made his home for many years at Weeping Water and his friends will be pleased to learn of his acquittal from the charges preferred against him.

PURCHASE HOME IN THE WEST

A letter to their daughter, Mrs. John Beuschler tells of the purchase of a home at Orange by Mr. and Mrs. J. W. Tulene, which is one well adapted to the needs, having all necessary fruits for home consumption while they also have a ranch of some 20 acres a distance away. They were very fortunate in securing their home in close proximity with the home of Mr. and Mrs. A. C. Tulene, who have been making their home there for some time. They also not far away from Whittier, where Mr. and Mrs. Roll Hampton reside, whom it will be remembered were engaged in the cleaning business where Mr. Lugsch is now located.

This begins to look like another Plattsmouth colony in the Golden State. Their many friends here will be well pleased to know of their securing so pleasant a home in the west.

Financial Loss Due to Colds

It is estimated that the average man loses three days time each year from inability to work on account of having a cold. Much of this loss can be avoided by treating every cold as soon as the first symptoms of the disease appear. Chamberlain's Cough Remedy has won a wide reputation and immense sale by its cures of this disease. Try it. You are certain to be pleased with its pleasant taste and the prompt relief which it affords.

Gasoline that Vaporizes in all Weathers

It makes little difference what a gallon of gasoline looks like or weighs. Its vaporizing qualities determine its value as a motor fuel.

Red Crown Gasoline vaporizes readily in the coldest weather. It is straight-distilled gasoline with a complete chain of boiling point fractions. Even in cold weather you have a quick-starting motor and get big mileage per gallon of gasoline. Red Crown Gasoline meets all U. S. Government Specifications for motor gasoline.

It not only vaporizes readily but it also ignites instantly and burns up completely. It is as dependably uniform as science and modern methods and machinery can make it.

Authorized Red Crown Dealers Everywhere

Wherever you go you can always get Red Crown Gasoline from reliable, competent and obliging dealers. The gasoline and motor oils they sell make motor operation more pleasant, more economical and more dependable. Drive in where you see the Red Crown Sign.

How You Should Figure Your Oil Costs

Automotive engineers and garage men agree that improper lubrication causes 90% of all engine troubles. So when you figure oil costs, add practically all repair and overhauling costs to what you pay for oil.

Plenty of oil is important. So is replacing old oil with fresh oil. But no matter how much oil you use or how often you renew it, you can't prevent engine wear and tear unless the oil maintains correct body.

Polarine provides a cushioning film that protects against wear and keeps down friction-load. In the cylinders Polarine forms a gas-tight and fuel-tight seal that insures full compression and maximum power.

Polarine is made in four grades—light, medium heavy, heavy and extra heavy—but only one quality. Get the proper grade for your car next time by referring to Polarine chart at our Service Stations or dealers—and you will start cutting down motoring costs.

Dry cleaning makes kids' suits spic and span according to Dainty Dorothy

"It don't take a man long to bag his pants at the knees, and to make a finely tailored suit look thoroughly disreputable—that's the man of it," avers Dainty Dorothy.

But she goes on to explain that the man who is making use of our cleaning, steaming and pressing services is keeping his clothes in much more presentable condition than when he got acquainted with us. And it doesn't cost much, either.
