FORD MAY RUN FOR PRESIDENCY

Some Members of Cabinet Believe He is After High Executive Job at White House.

Washington, D. C., Oct. 21.—Henry Ford is grooming himself for the presidency of the United States, some members of President Harding's cabinet believe. One official here who is convinced the Detroit automobile wizard wants to use the Muscle Shoals project as a stepping stone for 1924. Ford, this official thinks, has evolved an ambition of becoming the patron saint of the farmer by taking over the Muscle Shoals plant, turning out millions of barrels of fertilizer at an unheard of low price, and thereby making himself such an outstanding figure in both industry and agriculture that he will be called to the political leadership of the nation.

One official here who scents presidential ambitions in Ford's activity declares he is receiving propaganda thru the mails daily from widely scattered points, which, he believes, is being circulated with a view to presenting the availability of Ford to the public.

Another close friend of President Harding, however, has just returned from a ten days' visit with Ford. Though his visit is alleged to have been strictly personal, this visitor declares Ford denied positively having political ambitions of any kind.

OVER A SCORE DEAD IN PACIFIC FLOODS

Between Thirty-five and Fifty Lives Lost and Great Property Damage in British Columbia.

Vancouver, B. C., Oct. 29.—Between thirty-five and fifty lives lost and property damage of several millions of dollars tonight was the estimated toll of the floods that swept away parts of several towns north and east of here last night and today.

The most damage was at Britannia Beach, a mining village with a population of 350, eighteen miles north of Vancouver. There last night a cloudburst broke thru a hill and released a torrent which rushed down to the ocean, carrying away about half the houses in the town. Late in the afternoon meager advice placed the number of dead and missing at thirty-five. A ship bearing medical aid has gone from Vancouver.

A portion of Port Coquitlam, fourteen miles east of Vancouver, was destroyed by flood waters of the Coquitlam river. Several buildings, unrooted, went floating down the river. No mention was made of casualties in reports from this district, but fourteen families were said to be marooned. Communication with the stricken area was impossible, except by boat.

The Canadian Pacific railway reported extensive damage to its property. Several bridges and miles of track were washed away on the main line paralyzing transcontinental traffic. The Canadian Pacific estimated the damage at \$1,000,000.

At Britannia Beach several bodies had been recovered and at an improvised morgue the work of identifying them was proceeding tonight.
