 A reformer shrieks loudly to the effect that beer has no medicinal value. Well, perhaps not, but we know a church deacon right here in Plattsmouth who carries a buckeye in his pocket to ward off rheumatism. The man who wants beer as a medicine has just as much right to imagine it will do him good as that deacon has to believe that a buckeye will keep away aches and pains. :—:—:

Dry Cleaning
makes his suits spic and span according to Dainty Dorothy

"It don't take a man long to bag his pants at the knees, and to make a finely tailored suit look thoroughly disreputable—that's the man of it," avers Dainty Dorothy.

But she goes on to explain that the man who is making use of our cleaning, steaming and pressing services is keeping his clothes in much more presentable condition than when he got acquainted with us. And it doesn't cost much, either.

THE GERMAN MARK
 One of the outstanding features in the United States today is the amount of investment—or perhaps it would be more correct to say gambling—in foreign currency. This is carried on in the money of all the European countries, of course, but an overwhelming proportion of it is in German marks. This is due chiefly to a curious and almost childlike faith in the power of Germany's efficiency to work miracles. For ten long years the world had the efficiency of the Teutonic race fanned in to its ears, until at last it became a sort of a dogma.
 Faith is defined in the Shorter Catechism as "the substance of things hoped for, the evidence of things not seen." This somewhat nebulous and Delphic definition is a fairly good description of the state of mind of the average man who gambles in German currency. That this gambling is carried on, on an enormous scale is beyond all doubt, though anything like exact statistics are impossible to obtain. One New York banker estimates the amount invested, or gambled, in German marks at \$1,000,000,000. Another estimated the investment at more than \$5,000,000,000 marks.
 And yet beyond blind faith there does not seem to be much to justify the belief in the power of the mark to "come back" to any great degree, at least in the immediate future. It was only in mid-summer after the armistice was signed that quotations of the German mark were resumed on the money market of the world. These started at 7 1/2 to 8 cents a mark (nominal par value 23.8 cents) but as fast as the first deliveries were absorbed tidal waves of German currency began to pour into foreign countries. The result has been that the value of the mark has shrunk to less than 1 cent.
 There was no reason why the flood should cease or even slow down, seeing that the only limit to the supply was the speed with which the German government printing machines could turn out paper money. In the two weeks preceding Germany's recent payment of 1,000,000,000 gold marks to the reparations commission the printing presses of the German reichsbank ground out 3,500,000,000 paper marks, raising its note circulation to 1,960,000,000 marks. The very fact that billions of marks are held by speculators in the United States will prevent any serious rise in the exchange value, for as fast as there is any improvement in the quotation the rush of holders of German currency to take profits will immediately flood the market and drive prices down again. Even supposing the printing presses in Germany are shut down for good, the task of absorption and deflation will tax Germany's every energy for many a long year, and the rehabilitation of the currency will be a long and painful affair.

THE MASTER-KEY TO HEALTH
 Every automobile owner will tell you that if you have carbon in your cylinders, your machine will not run perfectly. It follows that you must clean the carbon out of your engine. The master-key to your health is the same; you must clean the waste poisons out of the tissues of your body. If your blood is kept free from dangerous wastes you cannot catch cold, Catarrhs, rheumatism, neuralgia, bronchitis, etc., are born in the sluggishness of your stomach and intestines. No remedy can regulate your bowels better than Triner's Bitter Wine. It acts surely and without any unpleasant symptoms. Everybody who tries it finds it fully reliable. Mrs. W. Lasco wrote us from Genoa Junction, Wis., on October 6: "I have tried some of Triner's Bitter Wine and I think it is fine." Almost at the same time, on October 5, 1921, wrote us Mr. James P. Vail from Rosary Hill Home, Hawthorne, N. Y.: "I have taken four bottles of Triner's Bitter Wine and I can recommend it." Buy it at your drugist or dealer in medicines and you will surely agree with the above opinions.

GIVES FRIEND SURPRISE
 From Wednesday's Daily.
 The twelfth birthday anniversary of little Miss Florence Kaufman was observed a few days ago very pleasantly at the Kaufman home after the young folks had returned from school and in which a number of the young friends joined in assisting the guest of honor. Mrs. Kaufman had arranged the affair as a surprise to Florence and it proved a very pleasant one, in deed, to her. The afternoon was spent in games and at an appropriate hour Mrs. Kaufman assisted by Mrs. Fritz served a very dainty luncheon. Those who were in attendance were: William, Martha, Charles, John and Violet Lamphere, Dorothy and Harriett Hunter, Eleanor and Margaret Vitersek, Violet Sutton, Glenn McBride, Orin Rogers, William Galloway, Antiansia and Merel McCrary, Richard Elliott and Raymond Tritsch.

LOOKS LIKE WINTER
 From Tuesday's Daily.
 The first snow of the season this morning caused the householder who has spent the summer months waging a battle to pay for ice and other necessities of the hot weather, to look over the coal pile and prepare for the strenuous labor of keeping the furnace going in the good old winter time.
 The cold spell started yesterday in the western part of the state and more or less snow is reported from Alliance and North Platte and with the storm driving eastward. While the snow here did not amount to anything of a serious nature it was a fore taste of what the weather man has up his sleeve for the winter months.

Buy a pipe— and some P.A. Get the joy that's due you!

We print it right here that if you don't know the "feel" and the friendship of a joy's jimmy pipe—GO GET ONE! And—get some Prince Albert and hang a howdy-do on the big smoke-gong!

For, Prince Albert's quality—flavor—coolness—fragrance—is in a class of its own! You never tasted such tobacco! Why—figure out what it alone means to your tongue and temper when we tell you that Prince Albert can't bite, can't parch! Our exclusive patented process fixes that!

Prince Albert is a revelation in a makin's cigarette! My, but how that delightful flavor makes a dent! And, how it does answer that hankering! Prince Albert rolls easy and stays put because it is crimped cut. And, say—oh, go on and get the papers or a pipe! Do it right now!

LOOKS LIKE WINTER
 From Tuesday's Daily.
 The first snow of the season this morning caused the householder who has spent the summer months waging a battle to pay for ice and other necessities of the hot weather, to look over the coal pile and prepare for the strenuous labor of keeping the furnace going in the good old winter time.
 The cold spell started yesterday in the western part of the state and more or less snow is reported from Alliance and North Platte and with the storm driving eastward. While the snow here did not amount to anything of a serious nature it was a fore taste of what the weather man has up his sleeve for the winter months.
