Curie, pioneer of radium, Italy and Yugoslavia with their pioneers of electrical science, Volta and Tesla, Bavaria with the X-rays pioneer Roentgen. We see here also Joseph Triner, pioneer of the American Elixir of Bitter Wine. The Calendar is a fine decoration for every home. CELEBRATES 52ND BIRTHDAY.

Yesterday Edward C. Ripple, the Fifth street grocer, celebrated his 52nd birthday, having been born in Plattsmouth December 6, 1869. He has lived in Cass county during all but nine of these 52 years, having resided at Nebraska City three years and in Oklahoma six years.

During his earlier life Mr. Ripple attended the high school here, being a student in the old central building at the time it was wrecked by the earthquake and in the rush to get out, fell and was trampled by the other children, sustaining a severe face cut on the edge of a scraper. Mr. Ripple was born near the pumping station of the water company, which was at that time the location of a flourishing brewery long since passed out of existence.

Mr. Ripple would like to meet all those who were born in Plattsmouth in 1869 or prior thereto, and will stand treat to all those claiming such distinction to the amount of 25 cents worth of anything in his store, if they will but call.

Now let all those who assisted in digging the Missouri river please step forward and claim the distinction.

Despite the fact of it being his birthday, Mr. Ripple spent the day quietly at his home in the west part of the city, sawing wood, while his good wife looked after the business at the store.
