SOLDIER BONUS BILL IS GIVEN A BOOST

General Agreement at White House Conference to Push It Thru in the Near Future.

Washington, Jan. 7.—A general agreement for the enactment of a bonus bill for former service men early in the present session of congress, it was indicated, had been reached at the conclusion of a white house dinner conference tonight between President Harding and a number of senators, representatives and members of the cabinet.

The plant contemplates, it was understood, that the cost of the bonus will be defrayed, if possible, from receipts of the allied debts to the United States. If these are not sufficient, it was said, it was tentatively suggested that a sales tax might be supported by the administration.

All the agreements reached were provisional, it was emphasized by those who attended, and subject to revision if a further canvass of sentiment among republicans in the house and senate makes it necessary.

Other items of legislation under discussion included the permanent tariff and the refunding bill for the allied debt.

The conference lasted from 7 p. m. until midnight and those present said that every possible detail of the legislative situation was discussed although it was not the intention to draw up definite plans or a definite program until the other conferences have been held. It was indicated that President Harding would call in other representatives and senators later to give a broader scope to the discussions. The bonus bill, it was said, would probably be brought up in the senate in the very near future as a result of the negotiations tonight.

CASS CO. FARM BUREAU NOTES

Holidays Spent in Conference The annual conference of the county agricultural agents was held in Lincoln during the Christmas holidays. Both agents from Cass county attended and Miss Wilkins was on the committee to work out the projects for filling records and follow up work for the office. Also clothing.

Mr. Snipes was on the committee for horticulture and farm engineering.

The conference was the best ever held by the agricultural agents. It was divided entirely into committees. Each committee made splendid reports and many changes were made in the work for the coming year. All agriculturists and home agents will be known hereafter as county agricultural agents.

Whenever a new project is worked out by the Extension workers it will be submitted to the county agents for their approval.

Dr. Hedges gave five splendid lectures on Child Welfare. Mr. Graham of the Agricultural Department at Washington gave four fine instructive lessons. He also took part in many of the committee meetings.

The Extension Director, Mr. Brokaw, was more than pleased with the conference.

Tuberculosis in Cattle The following will tell a story of T. B. in cattle in Cass county: 30 farmers raising some or all pure bred cattle had 635 tested. During the first test 37 head reacted and five were suspects, this is 6 1/2%, not as large as some counties but too large to be allowed to continue. In the second test which came six months later 613 head were tested, two reacted and three suspects were found. This is not 1% so you see we are eliminating T. B. These figures do not include the dairy cattle tested in the county.

Wheat and Oats Cost The following will give you the cost of raising wheat and oats in Douglas and Otoe counties. The wheat averaged 21 bushels and oats 29 bushels per acre. Horse labor figured at 12c per hour and man labor at 25c per hour. Wheat cost 70c per bushel and oats 41c per bushel for each bushel raised in 1921.

MEETING OF INSURANCE CO.

Saturday afternoon the stockholders of the Farmers' Mutual Fire & Live Stock Insurance Co., held their annual meeting at the Taylor school house south of the city and which was quite largely attended by the parties who are interested in the company.

The past year has been one of the most successful that this company has enjoyed in its history and during the past year the losses of the company were only \$400 and at the present time the company has a handsome surplus with which to handle the losses that may occur in the future. This is the result of the excellent management of the organization since its first commencement and during which time it has had the benefit of the most expert management. This showing is despite the fact that the company has rates much lower than the general run of the older companies that reach the insurance of the farmer and his property.

The officers selected for the ensuing year were: J. W. Tritsch, presi.; J. H. Becker, vice president; John W. Falter, secretary; Louis Frederick, manager; Henry Horn, H. A. Guthmann, August Engelkemier, William Rummel, J. P. Falter, W. H. Heil, Louisville; A. A. Wetenkamp and P. A. Hild, directors.

In the selection of the new officers three of these are the sons of men who have filled the offices since the organization of the company, namely Jacob Tritsch, J. W. Falter and M. L. Frederick, and with the worthy example of their predecessors before them the new officers should more than make good.
