PROPERTY OWNERS ALONG MAIN STREET TO MEET

Chamber of Commerce is Arranging Gathering Next Week at the Public Library.

The members of the board of directors of the Chamber of Commerce met yesterday noon at the Hotel Wagner for luncheon and there took up some of the problems that have arisen in the last few months to confront the residents of this community.

Among the matters discussed was that of the paving of Main street and the general opinion was that the property owners along the street that is to be re-paved in the spring, should have an opportunity of getting together on the proposition and fixing on the kind of paving and the manner in which it should be laid. One of the chief considerations relative to the street is that there has been some suggestion that the center of the street be given a little more of a crown and that on each side of the street that there be constructed waterways that will be of considerable depth and in fact serve as small sewers in the conveying of flood water. There will be a number of inlets to these waterways in each block and it is figured that this would carry off a great deal of the water that comes with the heavy rains of the summer season.

Just what the paving should be and how laid and whether or not the street paving should be lowered, are among the questions of which an expression is desired and it is for this reason that the property owners are asked to get together and decide on what they want.

While the exact date has not been fixed upon definitely it is hoped to have the meeting set for next Thursday evening if possible. Those who own property on Main street should be in attendance as it will be a meeting full of interest to everyone who will have a part in paying for the new public improvements.

The members of the party enjoyed the singing of the songs of the days of the Civil War and whose notes had often cheered the boys in blue on the camp ground and battlefield and whose melodies awoke the recollection of the war time days when the members of the G. YOUNG FARMER MEETS DEATH IN AUTO ACCIDENT

WILLIAM NOLTING KILLED THIS AFTERNOON WHEN AUTO RUNS INTO BANK.

WAS ALONE AT THE TIME

Accident Occurred Only a Short Distance From His Own Farm—Found by Neighbors.

From Wednesday's Daily. The community was darkened this afternoon by a tragedy that wiped out the life of William Nolting, one of the young farmers residing just west of the city, and which occurred at 12:30 as the result of an auto accident on the highway only a block or two from the home of the unfortunate young man.

Mr. Nolting was returning home at noon from one of the neighbors and had reached the locality of the William Hunter farm, only a short way from his own home, when the accident occurred. Just what caused the unfortunate accident is not known but it is thought that the steering apparatus of the car in some manner refused to work and the car crashed into the bank near the roadway and the unfortunate man thrown from the car into the roadway. The death was caused by the breaking of the neck of the young man, and he was found lying along the road near the front of the car when members of the family and neighbors reached the scene a short time after the accident.

The deceased young man was one of the best known farmers of this portion of Cass county and a son of Mr. and Mrs. Fred Nolting. He was born and reared in this community and was a graduate of Plattsmouth high school. Mr. Nolting was married on March 19, 1921, in this city to Miss Ella Tschirren, who remains to bear the deep grief that the tragedy has cast over the family. He is also mourned by the parents and several sisters.

In the great sorrow that has come so swiftly upon the members of the family, they have the most sincere sympathy of the entire community, and it is a great loss to all who had the pleasure of knowing Will in his lifetime. The suddenness of the death has prostrated the members of the family and the date of the funeral services will be announced later.

FORD RETAIL SALES GO OVER A MILLION

Show Increase of 105,000 Cars and Trucks Over Previous Year—1922 Outlook Optimistic.

Retail sales of Ford cars, trucks and Fordson tractors have again exceeded the million mark for the year 1921, according to a statement given out today by the Ford Motor Company.

The Ford factory and assembly plant production figures reached a total of 1,050,740 cars, trucks and tractors for the year, with retail sales by dealers approximating 1,093,000 which in the United States alone surpassed the 1920 retail sales record by 104,213 Ford cars and trucks!

The Ford company says the outlook for 1922 is decidedly optimistic. In fact, concrete evidences already exist in that car and truck retail sales for December 1921, exceeded December 1920 sales by almost 25 per cent, and Fordson tractor retail sales for the same period show an increase of over 100 per cent for December, 1921, as well as an increase over the total tractor sales for the month of November.

These facts seem to indicate that not only are the farmers buying more freely, but that the general public is becoming more responsive and receptive.

Another point brought out by a comparison of production figures for the past two years shows that Ford enclosed cars are gaining in popularity, as 23 per cent of the 1921 production were Sedans and Coupes as against a total of 18 per cent for the year previous.

Recent reductions in Ford car and truck prices brought them to a new low level. The Touring car now sells for \$348, the Runabout for \$319, the Coupe for \$380, the Sedan for \$445, the Chassis for \$235, and the truck for \$430, all F. O. B. Detroit.

This is the fourth price cut in the past sixteen months. During that

LESS FOOTBALL AND MORE STUDY

Stand of Harvard President Partly Endorsed by Chicago and Northwestern Officials

Chicago, Jan. 20.—Walter Dill Scott, president of Northwestern university and David A. Robertson, dean of arts and literature at the University of Chicago, today made public statements in which they supported to a certain extent the attitude assumed by President A. L. Lowell of Harvard on football as it relates to college education.

President Lowell in his annual report made public Wednesday, asserted that public interest in football had tended to give excessive importance to college athletic contests. "The general statement made by President Lowell was a bold and courageous one," Dean Robertson said. "The only thing in the statement with which I do not agree is the patronizing attitude of Harvard toward some of the smaller institutions which it meets athletically."

"I do not believe in intercollegiate football for the reason that the trips take too much time from the school work. We have had a good instance of this in the trip made to Princeton last fall. Altho we were pleased with the results of the game, we were not altogether pleased with the way in which it hindered the school work of the men who made the trip."

President Scott declared that the American colleges do not exist for the sake of Latin or of football. "We believe in intercollegiate athletics and intercollegiate Latin," President Scott said. "We judge that if either of these is made an end in itself it assumes a position of importance detrimental to the interests for which our college exists."
