### MOVE LAUNCHED TO RECALL HARVEY

Representative Ryan Introduces a Resolution Aimed at Ambassador to Great Britain.

Washington, Feb. 23.—A resolution designed to bring about the recall from England of Ambassador Harvey was introduced today by Representative Ryan, republican, of New York. The measure proposes a congressional investigation of statements made by the ambassador abroad with a view of having him detached from his post in London.

Mr. Ryan quoted extracts from press reports of Mr. Harvey's address at the dinner recently given in London, in honor of Arthur J. Balfour, a British delegate to the arms conference, and also referred to remarks made by the ambassador soon after his arrival in England in reference to the motives which prompted the United States to enter the war.

Containing that various statements of Mr. Harvey "reflect discredit upon the aims and ideals of the spirit that

actuates the citizens of the United States and constitute an attempt to cast aspersions upon the patriotism and ideals of American citizens." Mr. Ryan asserted that "the attitude of the American ambassador has "at all times shown him to be a proponent of England's aims and ambitions rather than those of the country he is supposed to represent."

## NEBRASKA CITY WINNERS OF HARD FOUGHT BATTLE

Contest Between Two High Schools There Last Night Results in a Score of 23 to 22.

From Saturday's Daily. Was it some battle that the Platts-mouth and Nebraska City basket ball teams held last evening on the floor of the high school gym at the latter place? The verdict of the spectators is that it certainly was all of that and then some.

The final score of 23 to 22 in favor of Nebraska City does not half describe the thrill and excitement of the game and the closeness with which the two teams played for the entire contest from the time the ball was first put in play until the last basket was thrown.

The team work of the Nebraska City quintet was much better than that of Platts-mouth in the game and they enjoyed a better break of the luck, or what little there was in the game.

The locals were unable to connect with nine foul goals, any one of which would have given a tie.

At the close of the first half of the game the score was 11 to 11 and the members of the two teams going their best and the excitement at its height. The two teams continued a neck and neck fight all through the game and in the closing minutes of the contest the Platts-mouth boys battled nobly to land a safe one in the baskets, but without result as the Otoe county team seemed favored by fortune to win the game.

The members of the local team are loud in their praise of the fine manner in which they were treated by the people of Nebraska City and the impartial manner in which the game was handled.

Last night's defeat is the third admitted by the locals this year, they having been beaten twice by Creighton high. In the recent game with the Nebraska City team here, the locals took the game by a much more decisive score than that of the hard fought battle last night.

I had heard so much about Doan's Kidney Pills helping other people who had been troubled as I was I tried them with the best of results. ## REDUCES THE PAY OF FIREMEN AND OILERS

Chicago, Feb. 23.—Another pay slash, this time hitting 10,000 railroad stationary firemen and oilers, was made by the United States railroad labor board today when it announced rates effective March 1st, eliminating extra pay until after the tenth hour and setting up a "split trick" of eight hours within a spread of twelve without any overtime pay. The board's new rules supplant the national agreement made during federal control, which has been in effect heretofore.

## NORTH STATES HIT BY VIOLENT STORM

Four Deaths as Result of Visitation in Minnesota—Many Places are without Communication.

St. Paul, Minn., Feb. 23.—Reports from the northwest tonight indicate that the snow, rain and sleet storm that prevailed for the past two days has subsided, the wind dying down late today.

The precipitation had ceased at almost all the points in the territory affected and efforts were being made to restore the demoralized railway, highway and wire traffic.

Four deaths had been reported as a result of the first storm, two in St. Paul, one at Rochester and another at Dilworth, in Minnesota.

Cold weather was following cessation of the storm with weather below zero reported from North Dakota and upper Minnesota cities.

The head of the lakes country appeared to have had the greatest amount of snow, Duluth and Superior recording thirty-two inches. To the west, while the snowfall was not so heavy, it was piled in great drifts by high winds, which filled the railroad and highway cuts so that travel by train or vehicle was impossible.

Many places were entirely cut off from communication by wire and rail throughout the northwest. The Green Bay district reported 500 telephone poles down.

Denver, Feb. 23.—The greater part of the Rocky mountain region today was in the grip of a cold wave of moderate intensity extending from Montana and Wyoming south to Colorado, Wyoming, with temperatures hovering between 12 and 16 below zero, bore the brunt of the wave,

which was accompanied over the Rocky mountain area by a general snowfall.

### A Judicious Inquiry

A well known traveling man who visits the drug trade, says he has often heard druggists ask a customer who wished to buy a cough medicine, whether it was for a child or an adult and if for a child, they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it and for colds, croup and whooping cough it is unsurpassed. # The Fordson Farmers' Calendar

THERE'S PROFIT EACH DAY THE FORDSON WAY

1922 SUN Bigger Yields on Fordson Farms RI SAT 1922

THE big yields Fordson farmers enjoy are the envy of the community. The only reason other folks don't get as many bushels is because they don't work the land so well. Plow and disc and culti-pack without delay. That's what makes the perfect seed bed that brings big yields. Every farmer knows that is the thing to do, but those who farm with horses can't seem to find the time.

The difference is all due to one simple thing; the man who uses a Fordson Tractor and an Oliver No. 7 Plow will plow seven or eight acres while his neighbor is plowing two acres with a team. The Fordson farmed land can be plowed at just the right time.
