State Commander Ritchie to be Here for Re-Union of Cass County Ex-Service Men.

The assured presence of State Commander Ritchie together with the probable attendance of Department Commander O'Connell and Earl Cline, ranking member of the national legislative committee, past state commander and Nebraska member of the national executive committee, is adding greatly to the interest in the banquet and should result in a large number of tickets being disposed of to ex-service men over the county.

The price of \$1 per plate is most reasonable and barely covers the actual cost per plate, all incidental expense being taken care of by the Legion post.

Representatives from various patriotic orders of the city whose aims and ideals are similar to those of the American Legion, will be asked to attend and respond with three minute addresses.

Each post in the county will also be asked to send a post representative together with as many others of the members as they desire.

TIME FOR ACTION ON TOURIST CAMP

Action of Other Cities Points the Way for This City to Get Busy on Plans Right Away.

The action of the commercial clubs and other civic bodies over the eastern part of the state relative to preparing tourist camps for the summer, points the way clearly for this city to take similar action and get ready to afford a stopping place for the auto tourists who will in a few months begin their trip through this city over the King of Trails and George Washington highways.

It is a matter that is of much importance to the residents of the city that this should be looked into and if there is any possible way a suitable location for a tourist camp should be secured and placed in readiness for the summer months.

The time for getting this park ready is very short and the matter should be pushed through if we are to have a park here this season.
