How about brides in March? A wrinkle is a smile gone wrong.

The Nebraska penitentiary is too full for comfort. It is about time for city candidates to come to the front.

James Fenimore Cooper wrote 70 books in 30 years. Competency in office is what speaks in glowing terms.

No wonder babies cry when some men look at them. In these days of ultra styles we have to admit figures don't lie.

Queen Elizabeth of England used to wear a wrist watch. If ignorance is ready bliss, then why are so many of us unhappy?

Princess Mary promised to obey, but that's what they all say. As an illustration of mingled hope and fear, the lazy man looking for work.

Roman Catholic population of England and Wales is nearly 2,000,000. So far there are but two candidates for sheriff, and both republicans.

Navy blue was a fashionable color for women's clothing 2,000 years ago. What a lot of fellows would like to see invented is a fireless employer.

The St. Joseph Gazette thinks they better change Hollywood to Hollywood. When a girl builds an air castle she doesn't put any dishpans or washtubs in it.

Graphite from which pencils are made is imported from Mexico and Ceylon. Custom of drinking toasts is derived from the ancient religious ceremony of pouring libations to heaven gods.

During the first year of life the human heart beats 115 to 120 times a minute. Another reason why spring poetry should be better and more cheerful than it used to be is that very few poets pay income tax.

Germany is exporting sewing machines small enough to be held in one hand. How do the ultra feminists feel about those college boys in the east giving up smoking because it has become too effeminate.

Wood boring insects are said to communicate with one another by means of taps. "The man who waits for posterity to do him justice will not be in a position to experience those bitter pangs of disappointment.

A little investigating now and then will show the true character of many a man. Plattsmouth is not only a pleasant place to live in, but a good place to make money. No city in the north offers better opportunities.

It was a wise thing to place Smile week on the calendar a week ahead of Song week. "Every man should have a hobby," says the St. Louis Globe-Democrat. The most useful hobby nowadays is hard work and plenty of it.

Wood boring insects are said to communicate with one another by means of taps. Here is a question to put up to our school debating clubs: "Can America compete with foreign markets?" It is a matter worthy of debate.

Marshall Foch, during his recent visit here, traveled 13,000 miles and made 164 speeches. "Obnoxious chaps quickly removed," says a patent medicine ad. But some of the bottleleggers have been putting out some stuff that does it more quickly.

Crocodiles, like ostriches, swallow pebbles and small stones for the purpose of grinding their food. It is reported that divorces are on the increase in Nebraska. But so long as it is about an even break on marriages and divorces, it don't make much difference.

There is a vigorous demand for a device that will compel a man to shut up when he has said enough. A Florida man shot his wife and then cut his own throat. He should not have stood back on etiquette. It would have been quite proper to cut his own throat first.

The man who has learned to keep his mouth shut generally draws a healthful breath as well as a good salary. In the race of life the winners get into the newspapers and the losers are forgotten. This is true of most other races except the ones with the train at the grade crossing.

According to the weather man, March is going to be a bum month. So far Nebraskans have no complaint to make. A Tennessee woman now in her 83rd year has just married for the seventh time. Perhaps she doesn't know that every seventh marriage in this country is a failure.

There are people who pride themselves the year around on their worldly possessions, except on the first of March. Then their still small voice is so low that even the assessor can't bet on the message that comes across. Governor Alf Taylor of Tennessee wants to revive the sport of fox hunting. Good idea, but Alf. is too old to follow the hounds. He will have to linger behind and hunt rabbits.

A NATIONAL DISGRACE

Many who read this would have died on the battlefields of France, or been permanently crippled, had it not been for the American soldiers now known as "disabled veterans."

They stopped the enemy and his bullets. That shortened the war—ended it before more of the folks back home were drawn into the casualty lists.

The lucky ones who came through the war uninjured are enjoying peace. But the war goes on forever for the disabled soldier.

In most cases his battle will last until his death.

And it is a battle that he is fighting largely alone.

More than three years have passed since the armistice. The disabled war veterans, far from enjoying the comforts that are rightly theirs by all laws of decency, again are compelled to fight for fair, square treatment by the national government.

The details of this fight are being told in the news columns of the daily papers.

The situation discloses gross neglect and an almost criminal stupidity in mishandling the disabled soldiers.

It is becoming an old story. And it is shadowed by talk of "national ingratitude."

There is, however, no ingratitude. The American people are fully aware of the tremendous debt they owe their crippled and maimed war heroes.

The American people stand ready to foot the bill whatever is necessary to give these men a square deal.

Responsibility for this national disgrace is somewhere in Washington.

Pot will call kittle black. The buck will be passed freely between congress and the Veterans' bureau.

The unscrupulous will coin political capital out of the situation.

After all is said and done, the real trouble is nothing but red tape and stupidity. It is unbelievable that any American official or representative is voluntarily throwing obstructions in the disabled veteran's path.

What is needed in Washington is a little common sense.

In all the history of our republic, there never has been as black a disgrace as the neglected disabled veterans. The public refusing to believe that Uncle Sam's efficiency has fallen to zero, demands action, fast and thorough.

Dry cleaning makes your clothes look like new according to Dainty Dorothy

"It don't take a man long to bag his pants at the knees, and to make a finely tailored suit look thoroughly disreputable—that's the man of it," avers Dainty Dorothy.

But she goes on to explain that the man who is making use of our cleaning, steaming and pressing services is keeping his clothes in much more presentable condition than when he got acquainted with us. And it doesn't cost much, either.

Found a Cure for Indigestion.

"I use Chamberlain's Stomach and Liver Tablets for indigestion and find they suit my case better than any dyspepsia remedy I have ever tried, and I have used many different medicines. I am nearly fifty-one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to, now," writes George W. Emory, Rock Mills, Ala. These tablets contain no opium, but strengthen the stomach and enable it to digest the food naturally. Weyrich & Hadraba.

Grandfather's Advice

"SOME tough soil! There sure wouldn't be much disc plow left if I hadn't been using this sturdy Oliver disc plow behind my Fordson tractor. And if I didn't have the tractor, this land wouldn't be plowed at all. I'm glad I took Grandad's advice.

"He told me that the Oliver plow he used 51 years ago never failed him. They didn't have disc plows in those days, but he said that a man like Oliver who would make as good a mouldboard plow as the one he used, would make everything good that bore his name.

"Grandad was sure right because this Oliver D-72 disc plow certainly does stand the tugging the Fordson tractor has to give it to get it through this tough soil."

Fordson tractors and Oliver tillage implements are doing the hard jobs on the farm these days.
