## STATE FILES CHARGES IN RE BANK FAILURE

### CHAS. C. PARMELE HAS INFORMATION FILED AGAINST HIM THIS MORNING.

From Tuesday's Daily.  
This morning in the county court information was filed by A. G. county attorney of Cass county, charging Charles C. Parmele, former president of the Bank of Cass County, with violation of the state banking laws while the defendant was an officer of the above named bank.

The complaint charges three counts covering different instances of what the state contends constituted violation of the law covering the operation of banks and the borrowing of funds by officers.

It is claimed that on October 29, 1919, the defendant while president of the Bank of Cass County, did, while a member of the firm of "Will Jean and Company," borrow the sum of \$1,000 from the Bank of Cass County in the name of the company.

The second count is of the same nature, giving the sum of \$9,293.83 as the amount borrowed on February 10, 1920, and the third count is for the similar offense on the date of April 19, 1920, when the sum of \$3,000 was borrowed from the Bank of Cass County.

This case is the outgrowth of the liquidation of the Bank of Cass County, following the decision of the board of directors of the bank on December 13, 1921, to place the bank and its assets and liabilities in the hands of the state banking board.

At that time Fred E. Bodie of Lincoln was named as the receiver of the defunct bank, and has since been in charge of the cleaning up of the affairs of the institution. In the report of the result of the work of the receiver the accounts of the bank listed were \$200,020.49, good; \$167,747.61, slow and doubtful, and \$32,272.82, bad.

The matter of the action in the case has been pending for some time and last week the representatives of the attorney general's office were here to discuss the matter with County Attorney Cole Jackson, assistant attorney general, as well as Mr. Bodie, being here to look over the situation and to prepare for the filing of the complaint.

This matter is one that will be generally regretted by everyone who has any interest in the city and the business life of the community, as he has been largely instrumental in the development of the city through his aid to the business men as well as the farmers of the community and it is in the light of his special services in the past for Plattsmouth and its people it is hard to believe that these charges preferred can stand, as they seem of a nature that can be explained away when the matter is brought to its hearing.

Mr. Parmele has always been deeply interested in the city and its welfare and to a great many he has proven a real friend in need on many an occasion and in view of his past services there comes the expression of the host of friends that the offense charged is one that may be forgiven without discredit to the former bank president.
