Married at High Noon
Last Sunday at the home of the bride's father in Beatrice Mr. John Dodd, his daughter, Nellie Dodd, who formerly was a teacher of the school at Maple Grove was united in marriage to Mr. James Stone of Nehawka, son of Mr. and Mrs. R. E. Stone. The ceremony was one of the utmost simplicity and none but the immediate relatives of the contracting parties were present. The newly married couple arrived at Nehawka on Wednesday and are for the present making their home with the parents of the groom. They will probably make their home in or near Nehawka. The young couple are both well and favorably known in the community and are the recipients of the best wishes of the numerous friends here and with whom the Journal joins in expressing the wishes that their life may be one of happiness and service.

AS MODERNIZED
Thirty days hath September, April, June and November, All the rest are thirty, too. Unless you make your own home brew.—Ann. Legion Weekly.

The Community Spirit Triumphant
The citizens of Nehawka and community have in the past demonstrated that there is much in team work if whatever line of endeavor the effort may run. In the past they have solved many hard and knotty problems by reason of their working together and throwing to the winds the selfish interests which in many communities have prevented any advancement of the community spirit. This rallying around the central theme and that for the thing which is best for all built the auditorium and then made it possible to have one of the first consolidated schools when the city and country alike would benefit by an opportunity to secure a liberal education for every one who has the ambition to strive for it. This is the spirit which built the pyramids, that sustained the American army at Valley Forge, and in fact that accomplished anything of moment in which it requires the concerted efforts of the people to bring success. Last week on Tuesday a meeting was held which was the initial to caring for the welfare of the community and the central idea being the doing away of some little inconvenience which had been drawn from the matter by the care of business life. Arrangements were made at this meeting for another which was called for Friday evening and all the business houses closed their doors at 8 o'clock and by the community come together. Like in the town meetings of a century ago they considered the matters looking to a better Nehawka and with a determination which brooked no interference they went after the work and devised plans which will in the near future make Nehawka a better town and will clear the auditorium from the incumbrance which so lightly clings to it.

Will Give a Picture Show
The Junior class of the Nehawka schools are at this time making preparations for the giving of an excellent show on April 23rd, Friday, at which will be present "Lone Star Ranger" with William Farnum and which will be filled with many exciting episodes. The class will also supplement the play with an excellent program of their own production. The proceeds of the entertainment is to go to the payment of the expenses incurred at the giving of a banquet to the seniors and what is known as the Junior-Senior banquet, which will be announced later.

Is Departing For Iowa
Lester Wunderlich, who has been in business at Nehawka for some time and who has served the people of this city and community well in the capacity of manager of the battery station, has purchased a business at Valisca and is departing for that place where he will take up the work in his chosen vocation and where we are sure he will make good.

Is Improving His Place
Mr. C. W. Snyder the affable caretaker of the Nehawka auditorium, has been making some substantial improvements at his home just recently last week he had the contracting firm of Miller & Gruber cement and concrete workers construct for him a run of one hundred and twenty-five feet of concrete walk, which will be an added convenience to the home.

Looks To a Good Crop
With that care and forethought which produces results E. M. Pollard is with a force of men spraying his orchards in order that the usual pests which so often either kill or mar the crop of apples, may be obliterated. Working upon the theory that "the luck of the man of today is the ine who exercised thought and put forth an effort well directed yesterday," he is preparing for that harvest which is to come in the months that are to follow. He has in the work at work, Wm. Eastrich, F. R. Cunningham, Thomas Mason and Eugene Hicks.

Their Hearts Are Right
Actual live business men do not often go to the cemetery to locate in business but prefer a place where the men congregate and their surroundings are such as will encourage them to make that place their home. A man has to prosper to be a good customer, the one who does not feel that he is getting a fair show in the game does not longer care to continue there. The business man with a keen insight in the equitable distribution of the things of this life have contributed to the furnishing of the city with a six months services of the excellent moving picture service which shall be of a wholesome character and of educational nature. The business men have raised some thousand dollars for this purpose and for also the lessening of the obligations which the community is held in reference to the auditorium. The loyal men are surely doing their part in this matter and no community

ALLIES STAND PAT ON REPARATIONS

Note Says Germany Must Meet the Payments Due on May 31—To Exact Penalties.

Paris, April 13.—The reparations commission adopted tonight the text of a note to Germany informing it that the commission's decisions of March 21, notably as regards payments to be made until May 31 are maintained and that if Germany does not take necessary measures to get its finances in order, the commission would be obliged on May 31 to exact penalties.

The reply, which comprises nearly 1,000 words, begins: "The commission notes with surprise and regret that the principal conditions under which the commission granted a moratorium to Germany are categorically rejected. It suggests that the German government make a better demonstration of fiscal courage, for example with regard to taxation of current industry and commercial profits.

The note declares that Germany's reply with regard to new taxation and the provision of foreign exchange for reparation purposes is tantamount to a refusal to make any serious effort to supply foreign currencies for payment.

NEBRASKA WOMEN TO D. A. R. MEETING

Delegation Headed by Mrs. Spencer, of Lincoln, Leaves for Washington Last Night.

Headed by Mrs. Charles Spencer, of Lincoln, state regent, a dozen delegates from Nebraska chapters of the Daughters of the American Revolution departed last night in a special car over the Northwestern railroad to attend the thirty-first continental congress of the D. A. R., which opens April 19, for a week at Memorial Continental hall, Washington, D. C.

Delegates from all parts of the country are expected to attend the congress which opens every year on the anniversary of the battle of Lexington. Anne Rogers Minor, of New York, is general president.

ALLIANCE SCHOOLS TO LOSE TEACHERS

Sixteen of Forty-Two Fail to Renew Contracts—No Complaint on Salaries that are Paid.

Alliance, April 13.—Sixteen of forty-two teachers in the Alliance public schools have failed to sign renewal contracts for next year and their resignations have been accepted by the board of education.

Five of those who will not return are high school teachers, ten are grade teachers and the other is the penmanship supervisor. A number of the vacancies have already been filled and applications for the remaining vacancies are on hand and these places will be filled within a few days, the school board announces.

Superintendent W. R. Pate, who has been head of the schools here for fourteen years, and F. C. Prince, high school principal, are among those who will remain. Mr. Pate has been given a three-year contract at a salary of \$4,000 a year. Satisfaction is felt over the fact that not a single complaint of the salaries paid was advanced by the resigning teachers as a cause for their leaving. Several out-of-town teachers will seek positions nearer to their homes, two are quitting the teaching profession altogether because of ill health, while several others prefer to teach in states further west. The salaries of all teachers will be the same next year as they are this year.
