Washington, May 9.—Attorney General Daugherty in a statement prepared at the request of President Harding and transmitted by the president today to Representative Mondell of Wyoming, republican house leader, declared "the record of the department of justice in connection with war contract cases calls for no apology and none is intended."

Apparently referring to recent changes in the house of inaction in prosecution of war fraud cases, the attorney general asserted "the plans are laid and all cases will be energetically prosecuted. He added that every substantial progress had been made to date by the department despite lack of adequate facilities in men and money.

## SAYS VETERANS' BUREAU REFUSES AID TO THE SICK

Ashurst Declares Tubercular Ex-Soldiers Required to Go Where Directed—No Relief.

Washington, May 6.—An attack on the veterans' bureau and the special senate hospitalization committee was made today in the senate by Senator Ashurst, democrat, Arizona, who said that the "narrow, reactionary policy" of the bureau was thick sick veterans who had gone to Arizona could die there without aid or go where the bureau directed for treatment.

Senator Ashurst said more than 1,000 veterans suffering with tuberculosis, who had gone into his state believing that the climate there would aid them, were in need of hospitalization, and that he had taken the matter up with the president and the veterans' bureau, but that little relief had been given. He asserted that the bureau offers to take care of the men elsewhere, but that they preferred the dry climate in Arizona and New Mexico and refused to leave.

## NO CHANGE IN COAL STRIKE,

Washington, May 7.—Weekly production of coal apparently has now struck "a temporary level a little above the four million ton mark," the United States geological survey announced tonight in connection with its weekly summary of the industry. Early reports for the week ending May 6th, the statement said, indicated that production of coal would aggregate 4,150,000 tons, approximately the same as in the previous week. Production was confined almost entirely to bituminous, it was declared, "production of anthracite remaining practically at a stand still."

Based on its reports of production, the survey said, the strike situation appears to be "essentially unchanged."

"No significant break in the ranks of the striking miners has occurred," the report declared, "although a small number of men have gone back to work in Texas. The number of non-union men on strike has not changed materially. The accumulation of unbilled cars of coal is slowly decreasing, but still is above normal."

"Demand is stiffening and the latest district to report improvement is the middle west, but the market still is not active enough to call out full production from mines remaining at work. Consumption is being met largely from storage."

### CARD OF THANKS

To our kind friends and neighbors we take this means of expressing our deepest appreciation of their kindness and sympathy and to these friends as well as the B. R. C. of A. the employees of the upholstery shop of the Burlington and the Columbian school children, for their beautiful flowers.—Mr. and Mrs. Frank Harris and family; Mr. and Mrs. Webster Warthen.

### An Attack of Lumbago

Albert A. Young, who is busier than a hen with one duck, has had to be troubled with an acute attack of lumbago, which has nearly put him out of the running as far as doing the work on the farm is concerned, and he has a plenty of it to do just at this time. Last Monday Guy White went down to Albert's place and took him in the car to Plattsmouth where he is taking treatments for the ailment. Albert says he is feeling just a little easier. We are hoping that he may be himself again in a short time and able to look after the work as well as being free from the suffering incident to the attack.

### Had an Excellent Time

Last Sunday being the thirty-sixth birthday anniversary of Mrs. Alfred Gansmeier, her friends who are a host assembled and surprised that good lady, and celebrated the event by a dinner which the ladies of the crowd which numbered eighty-six brought. The time was very pleasantly spent in social conversation by the ladies of the assembly, while the men and boys reported to pitching horseshoes and had an improvised ball game as well which was a very interesting amusement for both those who played and those who watched.

## No More Green Straw Stacks

DID you ever see a green straw stack in your community? Yes, many of them, but always where the large commercial rig had threshed and they were thrashing to get bushels into the wagon rather than grain from the straw.

Let the Fordson and Wood Brothers' Small Individual Separator thresh for you this fall and the grain will go into the bin.

It is guaranteed to take the grain from the straw, under suitable threshing conditions.

When you thrash with the Fordson and Individual Separator, you have an outfit that will thresh your entire small grain crop: wheat, oats, rye, barley, speltz, alfalfa, timothy, clover, Feterrita, Lespidera, Kaffir corn, Milo maize, and the sorghum crops. Thousands of owners have endorsed the value of this equipment. We want to explain its value to you.

THE LITTLE GIANT TRACTOR BELT, manufactured by the United States Rubber Company to fit the exact belt requirements for the Fordson, gives most efficient power transmission.
