MUCH WINTER WHEAT ABANDONED IN NEBRASKA

Spring Plowing and Planting Backward—Livestock Losses Greater Than Last Year.

The abandonment of winter wheat is approximately three times the usual and very severe in a few counties. The condition is 82 per cent. The condition of rye is 89 per cent. Spring plowing and planting is not as far advanced as it was a year ago this date. Losses of livestock, particularly pigs, are considerably greater than last year. These are the leading points in the May report released today by A. E. Anderson of the bureau of markets and crop estimates, and Leo Stuhr, secretary, Nebraska department of agriculture.

About 11.5 per cent of the winter wheat crop is abandoned as compared to 4.2 per cent the average for the period 1915 to 1922, excluding 1917, the year of extreme loss. This leaves approximately 3,499,000 acres for harvest as compared to 3,457,000 acres, the average harvested area of the past four years.

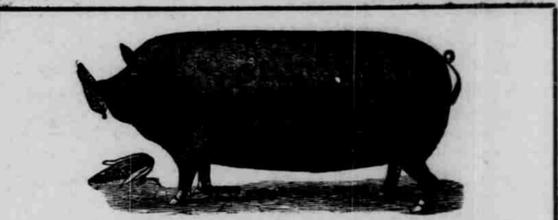

The condition of winter wheat is 82 per cent as compared to 92 per cent a year ago and the ten-year average of 89 per cent. The present condition forecasts a production of 54,514,000 bushels as compared to 57,399,000 bushels last year.

With a few exceptions the abandonment is very light in the counties east of Merrick, Hamilton, Clay and Nuckolls counties. West of these counties, the losses range from average to very severe. The reported losses of important counties having the heaviest abandonment are as follows: Kearney, 70 per cent; Adams, 60 per cent; Buffalo, 35 per cent; Lincoln, 35 per cent; Keith, 35 per cent; Deuel, 35 per cent; Cheyenne, 32 per cent; Kimball, 30 per cent. The remainder of the important wheat counties in central and western Nebraska usually report losses up to 10 per cent, a few reporting from 10 per cent to 20 per cent abandonment.

RULES OF GRAIN INSPECTION OUTLINED

Department of Agriculture Arranges to Put Into Effect Greatly Improved Market System.

Washington, May 10.—Plans for putting into effect the revised rules governing licensed grain inspectors, inauguration of a new grain market news service and a "know your own wheat" campaign among farmers in the spring wheat area were announced today by the department of agriculture.

The changes in the inspection rules, it was explained, were designed to meet requirements in the northwest without establishing any new grades. They provide for reporting in addition to the actual grade, those factors which determine the grade in the spring wheat classes.

Thru the new market service, it was said, quotations on wheat will not be confined to price ranges and averages for grade No. 1, 2 or 3, but will also quote the price of groups with grades, such as "No. 3, 15 per cent moisture, otherwise No. 1."

These price quotations are expected to indicate the true market of any sample of wheat. The market service is expected to cover ultimately all important markets and will be inaugurated, it was announced at Minneapolis, in co-operation with the administration of the future trading act and the grain standards act.

Wheat price quotations are to be gathered in the market and distributed to farmers through the press, by wire and by radio.

The "know your own wheat" campaign will be conducted in co-operation with the extension agencies of the spring wheat states to instruct farmers and country buyers in the utilization of the new information made available through the revision of the grading rules and marketing service so the milling value of their

wheat may be reflected in the prices they receive.

LADY SLICKERS GET AWAY WITH GOODS

Shoplifters Secure Dress from Ladies Toggery and Package from Wurl Store Today.

From Saturday's Daily.

This afternoon the business part of the city was much aroused over the operation of two very attractive appearing ladies who succeeded in getting away with a lady's ready-to-wear dress from the Ladies Toggery as well as a package of goods at the E. A. Wurl store belonging to Mrs. E. E. Gooding.

As soon as the trouble arose at the Wurl store over the taking of the package by the two women, an investigation disclosed the fact that the ladies were suspected of making away with a dress from the Ladies Toggery valued at something like \$25.

Before the two slick fingered ladies could be apprehended by the police, they made a quick disappearance and although the chief of police made the rounds of the passenger stations they seem to have made a clean getaway and are now thought to have escaped by auto.

The two women were in the C. E. Wescott's Sons store about 1:15 and looked over a number of silk shirts, but the watchful eye of Emil Hill, the clerk, was on them and they did not succeed in getting away with anything there.

From the Wescott store they apparently visited the Toggery and Wurl's store and then escaped. Fred Busch states that he was sorry he was not at the Toggery when the ladies visited there.
