Hot, Well I Would Say So!

How would you like to sweat over a roaring hot fire in a kitchen stove, while the remainder of the family could get away where there was a breath of air?

Say, do you not think the wife and mother and the daughter also should have something comfortable to cook a meal on?

Our Perfection and Puritan oil stoves solve this problem. See Joe Banning for one! He can deliver it at once and give the wife, mother and daughter an equal show with the rest of the family.
