FEDERAL RESERVE PUBLICITY.

Washington, June 6.—A resolution inquiring of the federal reserve board whether it maintained a publicity bureau and asked also concerning an alleged fund for the purpose of conducting a publicity campaign, was introduced today by Senator Heflin, democrat, Alabama.

The preamble stated it was charged that such a publicity fund existed and that the board used the money to pay for "propaganda praising its acts and defending its course while condemning senators who disagree with the board."

Mr. Heflin asked for immediate consideration of the resolution, but Senator McLane, republican, Connecticut, chairman of the banking committee, objected and consideration went over until tomorrow.

The Home of the Soul

In olden times, it was believed that the seat of the soul was the stomach, most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles, there is nothing quite so prompt and satisfactory as Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. They only cost a quarter. Weyrich & Hadraba.

RAIL UNIONS PLAN APPEAL TO HARDING

LABOR CHIEFS DECIDE ON LETTER TO PRESIDENT IN EFFORTS FOR JUSTICE.

Cincinnati, June 8.—President Harding will be appealed to by the leaders of 1,200,000 railway workers, part of whom have already received wage cuts from the railroad labor board, due July 1, in an effort to stave off further reductions in their pay envelopes. It was decided at a conference of rail union heads tonight.

Leaders of the 11 railway employment organizations which decided Tuesday to take a strike vote of their memberships, agreed tonight to outline a letter to the president presenting their argument for higher wages or at least no further reductions. A committee of union executives was appointed by B. M. Jewell, president of the railroad labor department of the American Federation of Labor, to draft the letter.

Cut Due July 1

Approximately \$110,000,000 will be lopped from the payrolls of the 400,000 shopcrafts and the 500,000 maintenance of way men under orders of the board July 1. The new rates were branded as "starvation" by union leaders and it is their intention, in a letter to President Harding to demand whether the country's chief executive thinks these wages sufficient "to maintain an American standard of living and properly sustain a family."

It is understood that the letter will contain specific figures on what the railroad men consider an adequate wage and will endeavor to refigure the position of the railroad labor board as set forth in their recent wage reduction decisions.

Plan to Avert Strikes

Is Urged at Convention

Cincinnati, June 8.—Establishment of national agencies to eliminate strikes and solve other troubles of the building industry was favored by John Donlin, president of the Building Trades department of the American Federation of Labor, who told the department's annual meeting here that the "whole nation is tired of strikes and lockouts and disgusted with institutions that make them possible."

"Unless the industry remedies its troubles," he said, "we must admit the industrial court is necessary."

For solving the "whole nation's" troubles, Mr. Donlin advocated a board of labor union officials with responsibility for strikes, and he compared its authority in strike control with that of congress in making war. For other troubles of the industry, he favored periodic meetings of the union chiefs to promote harmony among the various crafts and also the creation, under supervision of a government department, a council of all elements in any way connected with the industry.

"The only way to minimize strikes and lockouts is to minimize such authority as can order a lockout or strike," he said, adding that persons responsible for strikes in cities are "always in the minority" and often include "hired disturbers."

Two other departments of the federation also held their annual meetings, the gathering of the metal trades union delegates being marked by the adoption of a resolution approving President James O'Connell's report complaining that the government administration was hostile to labor and added that "President Harding favored a national board founded on the principle of the Kansas industrial court."

Senator Borah, of Idaho, Declares Investigation Will be Launched If Methods Ineffective.

Washington, June 9.—Congressional investigation of prices charged by bituminous coal operators and retailers was promised by Senator Borah of Idaho, chairman of the senate labor committee, at a conference with Secretary Hoover of the Department of Commerce, if the basic price scale established at conferences between Mr. Hoover with committees of producing operators are made the basis for profiteering.

Secretary Hoover was said to have assured Senator Borah that in further conferences with operators and dealers he would do his utmost to prevent profiteering and to obtain price adjustments to protect the public, and Senator Borah was understood to have agreed to withhold any investigation pending the outcome of Mr. Hoover's action.

The subjects discussed between Secretary Hoover and Senator Borah were said to have been the price agreements negotiated through Mr. Hoover and possible congressional action, including legislation.

It was said that Senator Borah had no desire to interfere with Mr. Hoover's price negotiations, so long as they were made the means for charging excessive prices, but it was said Senator Borah had questioned the legality of the Hoover price agreements.

The conference lasted an hour. It was understood that Mr. Hoover would proceed forthwith to securing adjustment of prices based on a maximum price of \$2.50 a ton and also to take steps to prevent operators from charging unreasonable prices to retailers.

SUCCESSION TO REAVIS PUZZLE TO CANDIDATES

Lincoln, June 8.—Announcement today by Governor McKelvie that he intended to have the special primary and election to elect a successor to Congressman C. Frank Reavis of this district held at the same time the regular primary and election are held, has caused much concern among the five republicans and two democrats seeking the nomination.

They don't know whether to file for the unexpired term and the regular term or whether to file merely for regular term and permit someone who wishes to have the word congressman attached to his name for the remainder of his life, to get the honor unopposed.

The fear is that if their names appear as candidates for two offices, it will confuse the voters.

Lieutenant Governor P. A. Barrows, one of the regular candidates for the nomination, took the bit in his teeth and filed for the unexpired term. Other candidates were consulting with political advisers on the wisdom of the Barrows course.

WILLYS PROPERTY AT AUCTION

Elizabeth, N. J., June 9.—Properties of the Willys corporation here were bid in today at auction by the Durant Motor car corporation for \$5,525,000. The second highest bid was made by the Maxwell Motor car company and was for \$5,500,000. Sale of the Willys plant which covers thirty-seven acres and had an estimated value of approximately \$11,000,000, must await the confirmation of Judge Bodine in the federal district court at Newark.

NEW HEAD OF THE ROTARIANS

Los Angeles, June 9.—Raymond Havens, of Kansas City, Mo., was chosen president of the International Association of Rotary clubs at the final business session of the thirtieth annual convention of the organization this afternoon.

The selection was made unanimous by the delegates after the election committee had announced the result. Mr. Havens' closest rivals were H. J. Letcher Stark of Orange, Tex., and William Coppock of Council Bluffs, Iowa.

Revised figures showed Havens received 581 votes, Stark 291 and Coppock 137.

SEEK COMMON SENSE IN SHIPPING RULES

Freight Rates and Railroad Wages to Be Dealt With from Standpoint of Patrons.

Chicago, June 9.—Freight rates and railroad wages will be dealt with from the point of view of shippers and carriers by the newly organized associated traffic club of America, in an effort to influence public opinion and policies, according to an outline of its objects made by the officers here today. Those who have promoted the organization say that its work will be much the same as that contemplated in recent proposals of a national transportation institute, supported by both shippers and carriers, "for the education of the public and the support of wise transportation policies."

They announce that the organization hopes to impress upon the president and congress "the kind of men that should be appointed to the interstate commerce commission," although it will refrain from recommending individuals.

Some of the questions to be considered will relate to the value of the United States railroad labor board; proposals to amend the rate-making section of the transportation act so that "there shall not be a mandate to the interstate commerce commission to make the level of rates such that the carriers will earn an adequate revenue; restoration of power of the state policy in respect to a merchant marine, and the proposed St. Lawrence canal.

It is estimated that there are twenty-five or more "industrial" traffic clubs in which shippers, but not carriers, are represented.

The association which was organized at a meeting attended by fifty representatives of twenty-five of the seventy-five or eighty traffic clubs in which both carriers and shippers are represented, will seek to induce the industrial clubs to become eligible to membership in the association by admitting representatives of carriers.

CHICAGO BANKER TELLS FINANCIERS TO USE PUBLICITY

Praises Newspaper Advertising as the Best of All—Suggests Supporting with Other Forms.

Aberdeen, S. D., June 8.—Competition in business is coming back into the world with a vengeance, and the merchant, manufacturer or banker who expects to get ahead from this time on must realize that he must fight his way upward. These four things may be easily remembered because written in acrostic style, they spell the word "idea."

"The four words for which the letters stand are Interest, Desire, Enthusiasm and Action."

Newspaper advertising must be supported by more direct advertising, he continued. This, he said, can be done through house organs, personal appeal letters, blotters, folders, booklets, calendars and novelties.

"Bankers who do not believe that advertising pays are steadily retiring to the advantage of our country, for bank publicity is daily turning spenders into savers and creating that spirit of universal thrift upon which the future economic stability of America must necessarily be based."

SHRINERS BREAK SOD FOR CHILDREN'S HOSPITAL

Portland, Ore., June 9.—Representatives of Shrine temples from many parts of North America were gathered in Portland today to witness the turning of the first sod for crippled children by W. Freeland Kendrick, past imperial potentate and "father" of the hospital movement in the Shrine fraternity.

Assisting Mr. Kendrick at the ceremony today will be the bands and patrols of Holy temple of Dallas, Tex., and Al Kadon temple of Portland and three of the national trustees—Dr. Sam Cochran of Dallas; Bishop Frederick W. Keator of Tacoma and Dr. Oscar M. Lanstrom of Helena, Mont.

As soon as the hospital is completed any crippled child in the northwest, regardless of race, color or creed, whose parents are unable to defray the cost of medical attention, will be admitted for treatment.
