WHEAT CROP REPORTED GOOD

The Burlington crop report summary for the period ending June 7, in Nebraska reads as follows: "The condition of winter wheat throughout the territory is good, with the exceptions of the west end of the Cordia branch, and Adams, Kearney and Phelps county, as per our previous report, indicating considerable wheat plowed up and put into corn. With these exceptions the winter wheat crop may be considered good."

"Spring wheat—good, very small acreage but reported in good condition. "Corn planting throughout the territory has been completed and in the central and eastern part of the territory large per cent of the fields have cultivated once. The growth, however, has been somewhat retarded on account of very cool weather that has prevailed during the past two weeks."

"Hay and pastures throughout the territory are in excellent conditions and the alfalfa crop first cutting is now under way with very heavy yield. Potato crop fair. Fruit crop in the southeastern part of the state still remains in excellent condition. During the past two weeks all parts of the territory have been favored with good rains. The soil is in excellent condition."

Does a Nebraska Insurance Company Protect You Against Loss?

Did you ever have the sad experience of awakening in the early morning to find that your favorite milk-cow, or the family horse had been killed by lightning during the night? Possibly they were blooded animals highly prized by both yourself and family.

You can protect yourself from financial losses by lightning at a small cost. More than \$9,000,000 of dollars was sent out of the State to foreign Insurance Companies last year. Insure that your local agent place your insurance in a Nebraska Company.

CLAIM UNDER- WORLD KING WAS CASS COUNTY MAN

"Big Fred" Roberts, Killed in Gun Fight in Kansas City, Son of Greenwood Family.

"Big Fred" Roberts, 25, former Omahan, who of late years has been known as "The Midget King of the Kansas City Underworld," was shot and killed in Kansas City by Dan Ahearn, sharpshooter of the city department at 3 a. m. Saturday, as he was in the act of leaving a downtown coffee store with \$200 in loot taken from the firm's cracked safe in his pocket.

In response to a telegram from Kansas City, Robert's girl-wife, the daughter of Mr. and Mrs. Otto A. Hansen, 3919 North 22nd street, Omaha, who has been in the city since her husband's parents, Mr. and Mrs. William Roberts, respected citizens of Greenwood, Nebraska, left for Kansas City Saturday night to bring back the body of the slain bandit, according to a long-distance telephone report from Greenwood.

Besides his wife and parents, Roberts is survived by a bright little 2-year-old son, Stewart.

Roberts' name has figured in police records since 1920, when he went to Kansas City. He was arrested in October, 1920, on charge of having aided in the murder of Miss Florence Barton, Kansas City society girl, killed on a lonely road by three bandits, Roberts' pal, "Denise Chester," arrested with him, was arrested and acquitted. Then the case against Roberts was dismissed.

In all his arrests, Roberts guarded the identity of his parents. Not even his underworld pals knew of his family. He told them that his father was a cattle buyer in Omaha, and that his folks were "all to the good."

Residents of Greenwood state that Mr. and Mrs. Roberts are among the town's most highly respected citizens. For the past eighteen months, they have given a home to the wife and child of their erring son. The baby boy is a general favorite in the little town, and was characterized as the "cutest, brightest little boy that ever lived."

Without berating her son-in-law, Mrs. Otto Hansen made an appeal for her daughter, Florence Roberts. "Oh, I didn't want her name to be dragged into this," she said. "She has suffered so much. She is just a miserable, sick little girl. She hasn't been living with Mr. Roberts for two years."

Ike Walston, detective chief of Kansas City, recently gave Roberts the title of "the brains of the middle west criminals."

"Police are certain that he has been the master mind in many of the recent payroll robberies here," he said.

Funeral services for Roberts will probably be held the first of the week in Greenwood.—Omaha News.

CHILDREN'S DAY SERVICE IS ONE OF GREAT ENJOYMENT

Methodist Sunday School Children Give Program that is Greeted By Packed Congregation

From Tuesday's Daily.

One of the most delightful programs that has been given at the Methodist church in a number of weeks was that given Sunday evening by the children of the Sunday school when they presented, "Hearts of Gold," a playlet of the flowers and springtime. In the role of the "Flower Angel" Miss Clara Johnson appeared. Miss Marjorie Arn as "Dew," Joan Hayes as "Sunbeam," Mildred Jahrig as "Rain," as "Mother Earth" Gladys Elliott appeared and the various flowers were represented by a bevy of young ladies in handsome costumes. "Apple Blossom" by Sarah Becher, "Water Lilly" by Florence Cecil, "Heartease" by Harriett Peacock and Olive Bonge, "Rose" by Miss Helen Wescott.

The scene was one of the greatest beauty as the ladies of the Philathea class had arranged the interior of the church auditorium very artistically with the summer flowers and made a most charming scene. The little boys of the school as "Johnnie Jump Ups" and the girls as "Daisies" made a pleasing part of the program.

In addition to the operetta there was a number of songs by the pupils of the primary and department sections of the Sunday school, under the leadership of Mrs. C. T. Peacock and Mrs. Helen Heinrich, and Miss Mable Lee Copenhaver and Mrs. Frank Sivey.

The chorus of the program was formed by the Sunday school choir of the church which was stationed at the rear of the platform and under the direction of Mrs. E. H. Wescott gave a very pleasing rendition of their part of the program.

The whole program was under the direction of Mrs. John Calvert and showed the greatest skill on the part of this talented lady in getting the affair so well organized.

BUILT BETTER than Cars that Cost More-

A CAREFUL analysis of the construction and complete equipment of the Light-Six will convince you that it has no duplicate in value in the light car class.

For instance, the machining of the crankshaft and connecting rods on all surfaces is a manufacturing practice that is found only on costlier cars.

This particular operation is mainly responsible for the fine balance of the Light-Six motor and its remarkable freedom from vibration at all speeds. It also has an important bearing on the wearing quality of the car and on its long-lived dependable service.

The exceptional values in the Light-Six are possible because practically every part that goes into the car is manufactured complete in the most modern plant in the world. Parts-makers' profits are practically eliminated. Important savings through better methods and bigger volume permit greater value to the buyer.

From the standpoint of shrewd investment you should find out why the Light-Six offers you so much more for your money in performance, service and economy.

This Is a Studebaker Year

STANDARD EQUIPMENT

Includes cowl ventilator operated from the instrument board; cowl parking lights at base of the windshield; inside and outside door handles; large, rectangular plate glass window in rear curtain; a thief-proof transmission lock, reducing the rate of theft insurance to Light-Six owners 15 to 20 per cent; and cord tires.

KNOCK SOME TEETH FROM THE VOLSTEAD LAW

Cannot Use Distract Proceedings to Collect Liquor Revenue—300 Cases are Pending.

The supreme court has decided that taxes and penalties assessed under the prohibition act are not collectable by distraint proceedings. A. B. Allen, collector of internal revenue, was advised today in an official telegram from Washington. The text has not yet been received.

This finding is accounted by prohibition workers a substantial disarmament step as the penalties and taxes levied upon illegal manufac-

ers or dealers in liquor, under the Volstead law were very heavy.

Under the section of the law just deprived of its teeth, violators of the prohibition law were not only subject to criminal action, including penalties of jail sentences or fines, but also to taxes and penalties exacted by the revenue department.

In each instance, with but few exceptions, when liquor offenders have been served with notice of tax liens, counsel for such persons has started injunction proceedings against the collector of internal revenue. More than 300 such injunction cases are now pending in federal court in Nebraska, and about 150 of them in the Omaha district. Hundreds of thousands of dollars are thus involved in Nebraska alone, and over the whole country the total is said to be enormous.
